*Achtung-Panzer!* Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

*Horten Ho 229* Andrei Shepelev,Huib Ottens,2006 The Horten Ho 229, one of the Luftwaffe's legendary secret projects or so-called 'wonder weapons', was one of the most enigmatic aircraft designs to emerge from World War II. In some ways a precursor to the 'stealth' concept, it was clearly ahead of its time when compared to its contemporaries. The Ho 229 was planned as the first of the next generation of German jet fighters to follow on from the Messerschmitt Me262, with the intention to create a high-speed cannon-equipped fighter-bomber and reconnaissance aircraft. Development involved design bureaus such as Goering, Galland, and Lippish, and flight testing began in December 1944. This book covers the Ho 229's development and operational record in detail and includes specially commissioned photographs of a surviving prototype, J3. The authors are both acknowledged experts on Horton aircraft.

**A History of the Mediterranean Air War, 1940–1945. Volume 2** Christopher Shores,Giovanni Massimello,Russell Guest,Frank Olynyk,Winfried Bock,2014-07-19 This second volume in the seminal series on aerial combat, pilots, and tactics in Libya and Egypt in the middle of World War II. In volume two of this series, historian Christopher Shores begins by exploring the 8th Army's movements after Operation Crusader when they were forced back to the Gazala area in northeastern Libya, as well as their defeat in June, 1942, the loss of Tobruk, and the efforts of Allied air forces to protect their retreating troops. Shores continues with the heavy fighting that followed in the El Alamein region. This features the Western Desert Air Force and the arrival of the first Spitfires. The buildup of both army and air forces and the addition of new commanders on the ground aided the defeat of Rommel's Deutsche Afrika Korps at Alam el Halfa, after which came the Second Battle of El Alamein. With the arrival of the United States Army Air Force, the Allied air forces gained dominance over the Axis. Shores recounts the lengthy pursuit of the Italo-German forces right across Libya, including the capture of Tripoli and the breakthrough into Southern Tunisia. This allowed a linkup with other Allied forces in Tunisia (whose story appears in Volume 3). Included with the action are stories of some of the great fighter aces of the Desert campaign such as Jochen Marseille and Otto Schulz of the Luftwaffe, Franco Bordon-Bisleri of the Regia Aeronautica and Neville Duke, Billy Drake, and "Eddie" Edwards of the Commonwealth air forces. Finally, Shores touches on the Allied and Axis night bombing offensives and the activities of the squadrons cooperating with the naval forces in the Mediterranean.

Courage Alone Chris Dunning,2009 Derided by Allied propaganda which made it out to be an air force equipped solely with elderly biplanes, ineffective in attack or always in retreat, the Regia Aeronautica was overshadowed by its more ruthless Axis partner, the Luftwaffe. Using research from a mass of original documentation, including personal accounts and combat diaries, the author takes an objective view and shows that the men who flew the Macchis, Fiats, and Savoias were no less skilled or determined than their opponents. The book discusses area commands, theaters, squadron allocations, anti-shipping operations, aircrew, and details of the top fighter aces. Comprehensive tables provide information on aircraft equipment, squadron allocation, and unit histories. With drawings from original aircraft handbooks, almost 250 photographs, more than 100 color profiles, and unit badges, *Courage Alone* provides a detailed reference source for historians, modelers, and enthusiasts alike.

**The Marriage of Heaven and Earth** Marlin Watling, 2016-10-07 On the lookout for a mind-blowing new perspective on the nature of God and humanity's place in the world today? Dive into The Marriage of Heaven and Earth, and enter the mind of a veritable rock star of contemporary theology-N. T. Wright. Marlin Watling takes abstract and complex ideas and grounds them in simple terms through his unique combination of readable summaries and fifty accompanying illustrations. He distills a lifetime of complex theological analysis and data into easy-to-consume sketches with explanations to provide one thing: universal access to a brilliant mind. Watling's guide comprises four parts ① An introduction to N. T. Wright ② Summaries of Wright's four key concepts ③ Wright's proposal of a new worldview ④ An overview of humanity's mission, with an eye toward the end times Following in the footsteps of reformer Martin Luther, N. T. Wright makes the old story new again with his paradigm-shifting worldview. And in The Marriage of Heaven and Earth, Watling does something equally novel. He enters the ivory tower, strips away the pomp and ceremony of untouchable academia, and presents to believers of all interest levels Wright's theology as it's truly meant to be: easy to understand and full of grace.

'And so began the Irish Nation' Brendan Bradshaw, 2016-03-09 Nationalism is a particularly slippery subject to define and understand, particularly when applied to early modern Europe. In this collection of essays, Brendan Bradshaw provides an insight into how concepts of 'nationalism' and 'national identity' can be understood and applied to pre-modern Ireland. Drawing upon a selection of his most provocative and pioneering essays, together with three entirely new pieces, the limits and contexts of Irish nationalism are explored and its impact on both early modern society and later generations, examined. The collection reflects especially upon the emergence of national consciousness in Ireland during a calamitous period when the late-medieval, undeveloped sense of a collective identity became suffused with patriotic sentiment and acquired a political edge bound up with notions of national sovereignty and representative self-government. The volume opens with a discussion of the historical methods employed, and an extended introductory essay tracing the history of national consciousness in Ireland from its first beginnings as recorded in the poetry of the early Christian Church to its early-modern flowering, which provides the context for the case studies addressed in the subsequent chapters. These range across a wealth of subjects, including comparisons of Tudor Wales and Ireland, Irish reactions to the 'Westward Enterprise', the Ulster Rising of 1641, the Elizabethans and the Irish, and the two sieges of Limerick. The volume concludes with a transcription and discussion of 'A Treatise for the Reformation of Ireland, 1554-5'. The result of a lifetime's study, this volume offers a rich and rewarding journey through a turbulent yet fascinating period of Irish history, not only illuminating political and religious developments within Ireland, but also how these affected events across the British Isles and beyond.
