Writing Your Story's Theme K. M.

Weiland,2020-10-12 Theme Is What Your Story Is Really AboutTheme-the mysterious cousin of plot and character. Too often viewed as abstract rather than actionable, theme is frequently misunderstood and left to chance. Some writers even insist theme should not be purposefully implemented. This is unfortunate, because in many ways theme is story. Theme is the heart, the meaning, the point. Nothing that important should be overlooked. Powerful themes are never incidental. They emerge from the conjunction of strong plots and resonant character arcs. This means you can learn to plan and implement theme. In doing so, you will deepen your ability to write not only stories that entertain, but also stories that stay with readers long after the end.Writing Your Story's Theme will teach you:~How to create theme from plot and character.~Why every supporting character and subplot should enhance the theme.~How to prevent theme from seeming preachy or on the nose.~What to consider in identifying the best theme for any given story.~And much more!Conscious mastery of theme will elevate every story you write and allow you to craft fiction of depth and meaning.Take Control of Your Story Via a Powerful Implementation of Theme

What Women Fear Angie Smith, 2011-08-31 A woman's faith in God is challenged by the first question Satan asks Eve in the Bible: Did God really say you can't eat from any tree in the garden? That seed of doubt and the story it begins to unfold breed a concept of fear still haunting each of us on some level every day-the idea that our actions could ruin something beautiful, and God might not have control of things. In *What Women Fear*, acclaimed writer and speaker Angie Smith admits, fear is a major part of my testimony and talks openly about her treatment for anxiety as a child. Giving a voice to the problem, she says, I truly believe every single one of us struggles with some type of fear, whether it's fear of flying or fear of being 'found out.' Maybe you don't worry about dying, but you get sick thinking about the fact that you might fail. Rather than suggesting that those who truly love the Lord would never fear, Angie blends her own experiences with those of men and women from throughout Scripture to help us start dealing more effectively with these true, human emotions. Whether it's a constant What if?, a nagging fear of abandonment or betrayal, fear of your own or someone else's death, fear of trusting God's plan, or even the fear that God's existence is a lie, Angie will walk you through stories of others who have simultaneously loved God and struggled with fear. Join Angie and discover how to let Jesus redeem this struggle as only He can,

that He will be glorified, and you will be transformed! Endorsements Angie Smith has the rare gift to write a non-fiction page-turner as good as any fiction book I've read. As her words tumbled out in raw honesty, fresh hope spread before me. Her teachings on fear are comforting, practical, and gut honest. I can't wait for you to read this life-changing book. What Women Fear is one of my favorites this year. Honestly, I think it will stay next to my bed for a very long time. Lysa TerKeurst, New York Times best-selling author of Made to Crave You don't have to be around Angie Smith very long to fall in love with her. She is funny and transparent with a passionate love for Christ. In What Women Fear Angie holds up a mirror so that we can see ourselves from every angle, the thoughts we display on the front shelves of our lives and those we hide. The greatest gift tucked into this book is the overwhelming picture of the mercy of our God who understands our fears and invites us to stand beside Him in the rain and let His love wash us clean. Sheila Walsh, author of The Shelter of God's Promises Whatever high wire you're walking right now, there really is nobody you want at the other end of the line like Angie Smith. And this rare gem of a book is like a steadying, sure hand taking you right into His presence in ways you never imagined. Vivid, profoundly biblical, yet girlfriend real with just-the-medicine-you-need-funny, every page is reviving hope for every woman. Simply, Angie Smith is a Bible teacher for such a time as this. God Loves Broken People Sheila Walsh, 2012-03-12
The other side of brokenness If I could write only one book in my lifetime, I would ask God to make it this one, the very book you now hold in your hands. . . .?Sheila Walsh God loves broken people. And when weary, wounded men and women find a way

to open their bruised hearts and somehow welcome Him into their personal darkness, they will find a love beyond anything they have ever known. When the glass house Sheila had lived in for so many years came crashing to the ground, she began a new life outside the safety of those walls. No, it didn't feel good, nor safe?not at all. But it felt true. Sheila saw herself as a broken lamb limping after the Shepherd, not knowing where He was going, but knowing that wherever He went, she wanted to go with Him. In twelve stirring, insightful, and deeply revealing chapters, Sheila Walsh shows how personal brokenness can open doors of intimacy with Jesus Christ that might never open in any other way. It's not that God loves broken people more than those who imagine themselves to be whole?it's simply that they know they are loved. They dare to believe it . . . and through such trust, a new wholeness emerges from yesterday's broken pieces.

Touching Photographs Margaret Olin, 2012-05-21
Photography does more than simply represent the world. It acts in the world, connecting people to form relationships and shaping relationships to create communities. In this beautiful book, Margaret Olin explores photography's ability to "touch" us through a series of essays that shed new light on photography's role in the world. Olin investigates the publication of photographs in mass media and literature, the hanging of exhibitions, the posting of photocopied photographs of lost loved ones in public spaces, and the intense photographic activity of tourists at their destinations. She moves from intimate relationships between viewers and photographs to interactions around larger communities, analyzing how photography affects the way people handle cataclysmic events like 9/11. Along the way, she shows us James VanDerZee's Harlem funeral portraits, dusts off Roland Barthes's family album, takes us into Walker Evans and James Agee's photo-text *Let Us Now Praise Famous Men*, and logs onto online photo albums. With over one hundred illustrations, *Touching Photographs* is an insightful contribution to the theory of photography, visual studies, and art history.

Empires of the Silk Road Christopher I. Beckwith, 2009-03-16
The first complete history of Central Eurasia from ancient times to the present day, *Empires of the Silk Road* represents a fundamental rethinking of the origins, history, and significance of this major world region. Christopher Beckwith describes the rise and fall of the great Central Eurasian empires, including those of the Scythians, Attila the Hun, the Turks and Tibetans, and Genghis Khan and the Mongols. In

addition, he explains why the heartland of Central Eurasia led the world economically, scientifically, and artistically for many centuries despite invasions by Persians, Greeks, Arabs, Chinese, and others. In retelling the story of the Old World from the perspective of Central Eurasia, Beckwith provides a new understanding of the internal and external dynamics of the Central Eurasian states and shows how their people repeatedly revolutionized Eurasian civilization. Beckwith recounts the Indo-Europeans' migration out of Central Eurasia, their mixture with local peoples, and the resulting development of the Graeco-Roman, Persian, Indian, and Chinese civilizations; he details the basis for the thriving economy of premodern Central Eurasia, the economy's disintegration following the region's partition by the Chinese and Russians in the eighteenth and nineteenth centuries, and the damaging of Central Eurasian culture by Modernism; and he discusses the significance for world history of the partial reemergence of Central Eurasian nations after the collapse of the Soviet Union. *Empires of the Silk Road* places Central Eurasia within a world historical framework and demonstrates why the region is central to understanding the history of civilization.

The Thicket Noelle W. Ihli, 2021-07-02 Would you recognize a real scream at Halloween? That's the question haunting Norah Lewis. She heard -and ignored-her brother's last screams on the night he died. Because nothing in the haunted house was supposed to be real. Not the screams. Not the knife-wielding psychopaths. And not the blood. In the wake of the slayings, parent groups and PTAs lobby for a shutdown while thrill seekers- including many of Norah's classmates- clamor to visit the real haunted house. Tormented by survivor's guilt, Norah secretly plans to retrace her brother's final steps. But the killer hasn't

chosen his hunting ground at random. And, like Norah, he plans to return.

Tumour Site Concordance and Mechanisms of Carcinogenesis Robert A. Baan, Bernard W. Stewart, Kurt Straif, 2019-05-22 This Scientific Publication reviews the information on cancer sites and mechanistic events for the more than 100 agents classified in Group 1 (carcinogenic to humans) by the IARC Monographs Program. This category of agents is diverse and includes chemicals and chemical mixtures; occupations; metals, dusts, and fibres; radiation; viruses and other biological agents; personal habits; and pharmaceuticals. For the Group 1 agents, there were cross-cutting questions about the relevance to humans of certain cancer sites or mechanistic pathways in animals. This publication is based on a systematic identification and comparison of the cancer sites observed in humans and those observed in experimental animals, and a compilation of mechanistic events for agents known to cause cancer in humans. Relevant information was analyzed on all the agents classified in Group 1 in Monographs up to and including Volume 109, most of which are reviewed in Volume 100A-F. A database of tumor sites seen in humans and animals was used to examine the degree of concordance by use of an anatomically based tumor classification scheme. The analysis of mechanistic aspects of the IARC Group 1 agents focused on 10 key characteristics of human carcinogens developed during the course of this work. Genotoxicity was the most prevalent mechanistic characteristic, consistent with the process of carcinogenesis necessarily involving genomic changes. The IARC concordance database represents a useful source of information for comparing animal and human data with respect to the tumors caused in different species. The

results of the mechanistic analysis can provide a basis for future efforts to categorize mechanistic data for carcinogens through a systematic review process. These reviews and analyses were discussed during a two-part Workshop on Tumour Site Concordance and Mechanisms of Carcinogenesis convened by IARC. This Scientific Publication is the report of that Workshop and of subsequent work by the participants, both individually and collectively. This publication also presents a statement of consensus among the Workshop participants, which summarizes the main findings and their implications for human cancer risk assessment.

Spearhead of Logistics Benjamin King, Richard C. Biggs, 2016-02-25 *Spearhead of Logistics* is a narrative branch history of the U.S. Army's Transportation Corps, first published in 1994 for transportation personnel and reprinted in 2001 for the larger Army community. The Quartermaster Department coordinated transportation support for the Army until World War I revealed the need for a dedicated corps of specialists. The newly established Transportation Corps, however, lasted for only a few years. Its significant utility for coordinating military transportation became again transparent during World War II, and it was resurrected in mid-1942 to meet the unparalleled logistical demands of fighting in distant theaters. Finally becoming a permanent branch in 1950, the Transportation Corps continued to demonstrate its capability of rapidly supporting U.S. Army operations in global theaters over the next fifty years. With useful lessons of high-quality support that validate the necessity of adequate transportation in a viable national defense posture, it is an important resource for those now involved in military transportation and movement for ongoing expeditionary operations. This text should be useful to both officers and

noncommissioned officers who can take examples from the past and apply the successful principles to future operations, thus ensuring a continuing legacy of Transportation excellence within Army operations. Additionally, military science students and military historians may be interested in this volume.

Editing Across Media Ross F. Collins, 2013-01-22
Requirements for professional media editing have undergone enormous technological change. Editors still edit copy. But today they do much more. Mass media editors must demonstrate skills from computerized pagination to social media monitoring, from image manipulation to Search Engine Optimization. The need for editing skills is reaching far beyond traditional journalism and into all areas of mass media, from newspapers to strategic communication. Public relations practitioners are expected to edit. Even advertising creative professionals must edit. And journalists taking on new roles as social media editors need to understand editing at the speed of digital media. This textbook aims to prepare university-level students for these expanded editing roles in an age of convergence. Thirteen authors representing many years of collective media experience examine both traditional editing roles and new editing needs. While many mass media students will not become professional editors, this textbook assumes nearly all will need competent editing knowledge to produce products of professional quality. Editing, the authors believe, remains a bedrock skill for all students who hope to be successful in the mass media. Instructors considering this book for use in a course may request an examination copy here.

Recommended Dietary Allowances National Research Council, Commission on Life Sciences, Food and Nutrition Board, Subcommittee on the Tenth Edition of the Recommended Dietary Allowances, 1989-02-01

Since its introduction in 1943 Recommended Dietary Allowances has become the accepted source of nutrient allowances for healthy people. These Recommended Dietary Allowances (RDAs) are used throughout the food and health fields. Additionally, RDAs serve as the basis for the U.S. Recommended Daily Allowances, the Food and Drug Administration's standards for nutrition labeling of foods. The 10th Edition includes research results and expert interpretations from years of progress in nutrition research since the previous edition and provides not only RDAs but also Estimated Safe and Adequate Daily Dietary Intakes—provisional values for nutrients where data were insufficient to set an RDA. Organized by nutrient for ready reference, the volume reviews the function of each nutrient in the human body, sources of supply, effects of deficiencies and excessive intakes, relevant study results, and more. The volume concludes with the invaluable Summary Table of Recommended Dietary Allowances, a convenient and practical summary of the recommendations.

Begin by Telling Meg Remy, 2021-03-16 Never forget / to connect the dots / This book is an attempt to connect a couple. In *Begin by Telling*, experimental pop sensation and Polaris nominee Meg Remy spins a web out from her body to myriad corners of American hyper-culture. Through illustrated lyric essays depicting memories from early childhood to present day, Remy paints a stark portrait of a spectacle-driven country. These memories are visceral. As though channel surfing, we catch glimpses of Desert Storm, the Oklahoma City Bombing, random street violence, the petrochemical industry, small town Deadheads, a toilet with uterus lining in it, the county STD clinic, and missionaries at the front door. Each is shared through language of the body; the sensation of experiencing many of the defining

events and moments of a country. These threads nimbly interweave with probing quotes and statistics, demonstrating the importance of personal storytelling, radical empathy and the necessity of both systemic and self-study. Immersive and utterly compelling, *Begin by Telling* is an artifact of our time; a fascinating perspective on American culture. – Meg Remy

Nowhere for Very Long Brianna Madia, 2022-04-05
NEW YORK TIMES BESTSELLER • WALL STREET JOURNAL BESTSELLER • USA TODAY! BESTSELLER In this beautifully written, vividly detailed memoir, a young woman chronicles her adventures traveling across the deserts of the American West in an orange van named Bertha and reflects on an unconventional approach to life. A woman defined by motion, Brianna Madia bought a beat-up bright orange van, filled it with her two dogs Bucket and Dagwood, and headed into the canyons of Utah with her husband. *Nowhere for Very Long* is her deeply felt, immaculately told story of exploration-of the world outside and the spirit within. However, pursuing a life of intention isn't always what it seems. In fact, at times it was downright boring, exhausting, and even desperate-when Bertha overheated and she was forced to pull over on a lonely stretch of South Dakota highway; when the weather was bitterly cold and her water jugs froze beneath her as she slept in the parking lot of her office; when she worried about money, her marriage, and the looming question mark of her future. But Brianna was committed to living a life true to herself, come what may, and that made all the difference. *Nowhere for Very Long* is the true story of a woman learning and unlearning, from backroads to breakdowns, from married to solo, and finally, from lost to found to lost again . . . this time, on purpose.

School Education Charlotte Mason, 2013-05-20
School Education, the third volume of Charlotte
 Mason's Homeschooling Series, consists of thoughts
 about the teaching and curriculum of children aged
 9-12, either at school or at home. She suggests
 that parents should practice what she calls
 masterly inactivity-not neglectful or permissive
 parenting, but simply allowing children to work
 things out for themselves, do things for
 themselves, learn from their own mistakes, and to
 have time for free play, and space for
 spontaneity. Charlotte Mason education uses living
 books instead of dry textbooks; in this book, she
 discusses what kinds of books to look for in each
 subject, and how to use them to teach children to
 love knowledge and become real readers and
 lifelong learners. Charlotte Mason was a late
 nineteenth-century British educator whose ideas

were far ahead of her time. She believed that children are born persons worthy of respect, rather than blank slates, and that it was better to feed their growing minds with living literature and vital ideas and knowledge, rather than dry facts and knowledge filtered and pre-digested by the teacher. Her method of education, still used by some private schools and many homeschooling families, is gentle and flexible, especially with younger children, and includes first-hand exposure to great and noble ideas through books in each school subject, conveying wonder and arousing curiosity, and through reflection upon great art, music, and poetry; nature observation as the primary means of early science teaching; use of manipulatives and real-life application to understand mathematical concepts and learning to reason, rather than rote memorization and working endless sums; and an emphasis on character and on cultivating and maintaining good personal habits. Schooling is teacher-directed, not child-led, but school time should be short enough to allow students free time to play and to pursue their own worthy interests such as handicrafts.
