Serenity Volume 3: The Shepherd's Tale Joss Whedon, Various, 2010-11-02 One of Serenity's greatest mysteries is finally revealed in The Shepherd's Tale,

Level Up Your Classroom Jonathan Cassie, 2016-06-28 In this lively and practical book, seasoned educator Jonathan Cassie shines a spotlight on gamification, an instructional approach that's revolutionizing K-12 education. Games are well known for their ability to inspire persistence. The

best ones feature meaningful choices that have lasting consequences, reward experimentation, provide a like-minded community of players, and gently punish failure and encourage risk-taking behavior. Players feel challenged, but not overwhelmed. A gamified lesson bears these same hallmarks. It is explicitly gamelike in its design and fosters perseverance, creativity, and resilience. Students build knowledge through experimentation and then apply what they've learned to fuel further exploration at higher levels of understanding. In this book, Cassie covers * What happens to student learning when it is gamified. * Why you might want to gamify instruction for your students. * The process for gamifying both your classroom and your lessons. If you want to see your students engaged, motivated, and excited about learning, join Jonathan Cassie on a journey that will add a powerful new set of ideas and practices to your teaching toolkit. The gamified classroom—an exciting new frontier of 21st century learning—awaits you and your students. Will you answer the call?

Devices and Desires K. J. Parker, 2009-06-16 When an engineer is sentenced to death for a petty transgression of guild law, he flees the city, leaving behind his wife and daughter. Forced into exile, he seeks a terrible vengeance -- one that will leave a trail of death and destruction in its wake. But he will not be able to achieve this by himself. He must draw up his plans using the blood of others. . . In a compelling tale of intrigue and injustice, K. J. Parker's embittered hero takes up arms against his enemies, using the only weapons he has left to him: his ingenuity and his passion -- his devices and desires.

Third Person Pat Harrigan, Noah Wardrip-Fruin, 2017-03-03 Narrative strategies for vast fictional worlds across a variety of media, from World of

Warcraft to The Wire. The ever-expanding capacities of computing offer new narrative possibilities for virtual worlds. Yet vast narratives—featuring an ongoing and intricately developed storyline, many characters, and multiple settings—did not originate with, and are not limited to, Massively Multiplayer Online Games. Thomas Mann's *Joseph and His Brothers*, J. R. R. Tolkien's *Lord of the Rings*, Marvel's *Spiderman*, and the complex stories of such television shows as *Dr. Who*, *The Sopranos*, and *Lost* all present vast fictional worlds. *Third Person* explores strategies of vast narrative across a variety of media, including video games, television, literature, comic books, tabletop games, and digital art. The contributors—media and television scholars, novelists, comic creators, game designers, and others—investigate such issues as continuity, canonicity, interactivity, fan fiction, technological innovation, and cross-media phenomena. Chapters examine a range of topics, including storytelling in a multiplayer environment; narrative techniques for a 3,000,000-page novel; continuity (or the impossibility of it) in *Doctor Who*; managing multiple intertwined narratives in superhero comics; the spatial experience of the *Final Fantasy* role-playing games; *World of Warcraft* adventure texts created by designers and fans; and the serial storytelling of *The Wire*. Taken together, the multidisciplinary conversations in *Third Person*, along with Harrigan and Wardrip-Fruin's earlier collections *First Person* and *Second Person*, offer essential insights into how fictions are constructed and maintained in very different forms of media at the beginning of the twenty-first century.

Serenity Volume 2: Better Days and Other Stories 2nd Edition Joss Whedon, Various, 2011-08-30 *Serenity: Better Days*, from Joss Whedon and Brett Matthews, follows everyone's favorite space cowboys in an action-packed

adventure where the crew takes on a heist that promises a big payoff. But when someone is taken captive, the gang must put aside their enduring differences and work together, at the risk of losing their cash prize. Joss Whedon is joined by a great roster of writers, including comedian Patton Oswalt, Dr. Horrible and The Shepherd's Tale cowriter Zack Whedon, and Jim Krueger (Avengers/Invaders), in this special expanded edition! This volume includes the miniseries *Serenity: Better Days*, the short stories *Serenity: The Other Half* and the previously uncollected *Serenity: Downtime*, and the one-shot *Serenity: Float Out*.

Baltimore Volume 1: The Plague Ships Mike Mignola, Christopher Golden, 2011-12-20 After a devastating plague ends World War I, Europe is suddenly flooded with vampires. Lord Henry Baltimore, a soldier determined to wipe out the monsters, fights his way through bloody battlefields, ruined plague ships, exploding zeppelins, and submarine graveyards on the hunt for the creature who's become his obsession.

Becoming Superman J. Michael Straczynski, 2019-07-23 A Hugo Award Nominee! Featuring an introduction by Neil Gaiman! "J. Michael Straczynski is, without question, one of the greatest science fiction minds of our time." -- Max Brooks (*World War Z*) For four decades, J. Michael Straczynski has been one of the most successful writers in Hollywood, one of the few to forge multiple careers in movies, television and comics. Yet there's one story he's never told before: his own. In this dazzling memoir, the acclaimed writer behind *Babylon 5*, *Sense8*, Clint Eastwood's *Changeling* and Marvel's *Thor* reveals how the power of creativity and imagination enabled him to overcome the horrors of his youth and a dysfunctional family haunted by madness, murder and a terrible secret. Joe's early life nearly defies belief. Raised by damaged

adults—a con-man grandfather and a manipulative grandmother, a violent, drunken father and a mother who was repeatedly institutionalized—Joe grew up in abject poverty, living in slums and projects when not on the road, crisscrossing the country in his father's desperate attempts to escape the consequences of his past. To survive his abusive environment Joe found refuge in his beloved comics and his dreams, immersing himself in imaginary worlds populated by superheroes whose amazing powers allowed them to overcome any adversity. The deeper he read, the more he came to realize that he, too, had a superpower: the ability to tell stories and make everything come out the way he wanted it. But even as he found success, he could not escape a dark and shocking secret that hung over his family's past, a violent truth that he uncovered over the course of decades involving mass murder. Straczynski's personal history has always been shrouded in mystery. Becoming Superman lays bare the facts of his life: a story of creation and darkness, hope and success, a larger-than-life villain and a little boy who became the hero of his own life. It is also a compelling behind-the-scenes look at some of the most successful TV series and movies recognized around the world.
