Coding Freedom E. Gabriella Coleman, 2013 Who are computer hackers? What is free software? And what does the emergence of a community dedicated to the production of free and open source software--and to hacking as a technical, aesthetic, and moral project--reveal about the values of contemporary liberalism? Exploring the rise and political significance of the free and open source software (F/OSS) movement in the United States and Europe, Coding Freedom details the ethics behind hackers' devotion to F/OSS, the social codes that guide its production, and the political struggles through which hackers question the scope and direction of copyright and patent law. In telling the story of the F/OSS movement, the book unfolds a broader narrative involving computing, the politics of access, and intellectual property. E. Gabriella Coleman tracks the ways in which hackers collaborate and examines passionate manifestos, hacker humor, free software project governance, and festive hacker conferences. Looking at the ways that hackers sustain their productive freedom, Coleman shows that these activists, driven by a commitment to their work, reformulate key ideals including free speech, transparency, and meritocracy, and refuse restrictive intellectual protections. Coleman demonstrates how hacking, so often marginalized or misunderstood, sheds light on the continuing relevance of liberalism in online collaboration.

Dreaming in Code Scott Rosenberg, 2008-02-26 Our civilization runs on software. Yet the art of creating it continues to be a dark mystery, even to the experts. To find out why it's so hard to bend computers to our will, Scott Rosenberg spent three years following a team of maverick software developers--led by Lotus 1-2-3 creator Mitch Kapor--designing a novel personal information manager meant to challenge market leader Microsoft Outlook. Their story takes us through a maze of abrupt dead ends and exhilarating breakthroughs as they wrestle not only with the abstraction of code, but with the unpredictability of human behavior-- especially their own.

Monster Aileen Wuornos & Christopher Berry-Dee, 2016-06-30 Aileen Wuornos was executed in Florida, on the 9th of October, 2002 at the age of 46. She was the 10th woman to be sentenced to death in the USA since the death penalty resumed in 1976. Convicted for the murder of six men, in a two month period, Aileen claimed she acted in self defence however the investigation into these claims was poor and she later retracted her statement announcing to the Supreme Court, I'm one who seriously hates human life and would kill again. All-too-often female prostitutes have been the victims of male serial killers - the killings of Aileen 'Lee' Wuornos were the inverse of this. She was a child prostitute, fleeing an abusive childhood at the hands of her grandparents, which led straight into a disastrous adulthood of difficult affairs with both men and women. Her metamorphosis from victim to attacker had brutal consequences: a stream of dead men. Following a renewed interest in this woman after the film Monster, this is her story in her own words.

Recovery Through Activity Sue Parkinson, 2017-07-05 Recovery Through Activity is underpinned by the conceptual framework of the Model of Human Occupation. The introduction of this treatment handbook will provide an invaluable tool to practitioners and also create a platform for research. Recovery Through Activity: enables service users to recognise the long-term benefits of occupational participation by exploring the value of a range of activities; provides occupational therapists with a valuable tool to support the use of their core skills; provides comprehensive evidence regarding the value of activity along with a wealth of resources to support implementation of an occupation focused intervention; helps to refocus the practice of occupational therapy in mental health on occupation; and supports occupational therapy practitioners to engage in their core skills and enhance the quality of service user care in mental health. This handbook will be of interest to occupational therapy practitioners and students as well as occupational therapy managers who are seeking to introduce time-limited, occupation-focused interventions into clinical pathways.

If Anything Happens I Love You Will McCormack, Michael Govier, 2022-09-27 Unimaginable loss yields to the power of human connection in this simple, moving story from the filmmakers of the eponymous Oscar-winning film. An elegy on grief. Heavy pain exquisitely rendered. Kirkus Starred Review Based on the Academy Award-winning animated short by the same name, *If Anything Happens I Love You* is a young adult graphic novel that follows two parents as they reckon with the loss of their young daughter, Rose, in a school shooting. Readers follow Rose from "above" as she watches her parents slowly break down under the weight and pain of their loss. Throughout the novel, Rose's soul seeks to help her parents reconnect. We learn who Rose was and how much life she lived in her short time. By incorporating a wide range of characters, her boyfriend, teacher, and her cat, Rose is able to introduce healing into the lives of the people she left behind. *If Anything Happens I Love You* may be a story about loss, but in it we see ourselves—in the grief, the pain, and, most importantly, in the fight toward human connection, love,

and acceptance.

Aircraft Stories John Law, 2002-04-03 In *Aircraft Stories* noted sociologist of technoscience John Law tells “stories” about a British attempt to build a military aircraft—the TSR2. The intertwining of these stories demonstrates the ways in which particular technological projects can be understood in a world of complex contexts. Law works to upset the binary between the modernist concept of knowledge, subjects, and objects as having centered and concrete essences and the postmodernist notion that all is fragmented and centerless. The structure and content of *Aircraft Stories* reflect Law’s contention that knowledge, subjects, and—particularly— objects are “fractionally coherent”: that is, they are drawn together without necessarily being centered. In studying the process of this particular aircraft’s design, construction, and eventual cancellation, Law develops a range of metaphors to describe both its fractional character and the ways its various aspects interact with each other. Offering numerous insights into the way we theorize the working of systems, he explores the overlaps between singularity and multiplicity and reveals rich new meaning in such concepts as oscillation, interference, fractionality, and rhizomatic networks. The methodology and insights of *Aircraft Stories* will be invaluable to students in science and technology studies and will engage others who are interested in the ways that contemporary paradigms have limited our ability to see objects in their true complexity.

Expressive Anatomy for Comics and Narrative: Principles and Practices from the Legendary Cartoonist Will Eisner, 2008-08-17 The final volume of Will Eisner’s celebrated instructional trilogy explores the critical principle of body grammar in comics storytelling. Designed and outlined by Will Eisner before his death in 2005, this posthumous masterwork, the third and final book in the Will Eisner Instructional Series, finally reveals the secrets of Eisner’s own techniques and theories of movement, body mechanics, facial expressions, and posture: the key components of graphic storytelling. From his earliest comics, including the celebrated *Spirit*, to his pioneering graphic novels, Eisner understood that the proper use of anatomy is crucial to effective storytelling. His control over the mechanical and intuitive skills necessary for its application set him apart among comics artists, and

his principles of body grammar have proven invaluable to legions of students in overcoming what is perhaps the most challenging aspect of creating comics. Buttressed by dozens of illustrations, which display Eisner's mastery of expression, both subtle and overt, *Expressive Anatomy for Comics and Narrative* will benefit comics fans, students, and teachers and is destined to become the essential primer on the craft.

Killer Clown Terry Sullivan, Peter T. Maiken, 2023-06-27 Updated with the latest DNA findings and a new foreword by Gregg Olsen! The definitive book on John Wayne Gacy, written by the prosecutor who spearheaded the investigation, arrest, and conviction of one of America's most horrific killers--now in trade paperback for the first time and with a new foreword by #1 New York Times bestselling author Gregg Olsen. The Real Story Of John Wayne Gacy-- By The Man Who Helped Catch Him He was a model citizen. A hospital volunteer. And one of the most sadistic serial killers of all time. But few people could see the cruel monster beneath the colorful clown makeup that John Gacy wore to entertain children in his Chicago suburb. Few could imagine what lay buried beneath his house of horrors--until a teenaged boy disappeared before Christmas in 1978, leading prosecutor Terry Sullivan on the greatest manhunt of his career. Reconstructing the investigation--from records of violence in Gacy's past and DNA evidence confirming the identities of additional victims, to the gruesome discovery of 29 corpses of abused boys in Gacy's crawlspace and four others found in the nearby river--Sullivan's shocking eyewitness account takes you where few true crime books ever go: inside the heart of a serial murder investigation and trial. This updated edition features new revelations, a foreword from bestselling author Gregg Olsen, and 16 pages of dramatic photos.

Realistic Decoys Keith Bridenhagen, Patrick E. Spielman, 1984 Finest book on duck carving in years. Describes the bluebill, mallard, merganser, canvasback, plus other species -- their anatomy, actions, positions. Shows how to shape, carve and point the head and feathers for a lifelike texture.

The Women of Little Lon Barbara Minchinton, 2021-08-16 A vivid account of a remarkable but little-known chapter in Melbourne's history Sex workers in nineteenth-century Melbourne were judged morally corrupt by the respectable world around them. But theirs was a thriving trade, with links to the police and political leaders of the day, and the leading brothels were usually managed by women. While today a city lane is famously named after Madame Brussels, the identities of the other 'flash madams', the 'dressed girls' who worked for them and the hundreds of women who solicited on the streets of the Little Lon district of Melbourne are not remembered. Who were they? What did their daily lives look like? What became of them? Drawing on the findings of recent archaeological excavations, rare archival material and family records, historian Barbara Minchinton brings the fascinating world of Little Lon to life. Barbara Minchinton is a historian and independent researcher. For several years she collaborated with a team of archaeologists on the interpretation of artefacts from Melbourne's Little Lon district. She is the co-editor of *The Commonwealth Block, Melbourne*, a historical archaeology of the city's working-class and immigrant communities, and the author of *The Women of Little Lon*.

The Search for the Green River Killer Carlton Smith, Tomás Guillén, 2017-07-04 New York Times Bestseller: From the journalists who covered the story, the shocking crimes of Gary Ridgway, America's most

prolific serial murderer. In the 1980s and 1990s, forty-nine women in the Seattle area were brutally murdered, their bodies dumped along the Green River and Pacific Highway South in Washington State. Despite an exhaustive investigation—even serial killer Ted Bundy was consulted to assist with psychological profiling—the sadistic killer continued to elude authorities for nearly twenty years. Then, in 2001, after mounting suspicion and with DNA evidence finally in hand, King County police charged a fifty-two-year-old truck painter, Gary Ridgway, with the murders. His confession and the horrific details of his crimes only added fuel to the notoriety of the Green River Killer. Journalists Carlton Smith and Tomas Guillen covered the murders for the Seattle Times from day one, receiving a Pulitzer Prize nomination for their work. They wrote the first edition of this book before the police had their man. Revised after Ridgway's conviction and featuring chilling photographs from the case, *The Search for the Green River Killer* is the ultimate authoritative account of the Pacific Northwest killing spree that held a nation spellbound—and continues to horrify and fascinate, spawning dramatizations and documentaries of a demented killer who seemed unstoppable for decades.

Achtung-Panzer! Heinz Guderian, 1937 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Crossing the Line Lisa Beth Pulitzer, Joan Swirsky, 1994 Two New York Times correspondents take readers into the twisted life and mind of Joel Rifkin, the 34-year-old Long Island landscaper who confessed to 17 brutal murders of women after being arrested in June 1993 following a traffic violation. Photographs.

Killer Thomas E. Gaddis, James O. Long, 1970 In 1929, while serving a 25-year sentence for burglary, Carl Panzram bludgeoned a fellow inmate with an iron bar and was sentenced to death. On death row at Leavenworth Prison Panzram wrote his life story, or autobiography, through a series of letters to Henry Lesser, a guard he befriended. Here he sets down a detailed description of his criminal exploits, including 21 murders, his upbringing in correctional facilities for juvenile delinquents (where he was severely beat and tortured for petty infractions) and time as an adult incarcerated in places as varied as Leavenworth to county jails.

Serial Killers Joel Norris, 1989-07-01 Through extensive research and interviews with five notorious serial killers, author Joel Norris demonstrates that serial killers have specific biological and genetic makeups that can be identified as early as five years of age. A compelling read for both the curious layman and the concerned professional.

Milwaukee Massacre Robert J. Dvorchak, Lisa Holewa, 1991 An account of the case of Jeffrey Dahmer, a Milwaukee man accused of murdering at least seventeen young men, describing Dahmer's background, the events leading to the discovery of the murders, and the aftermath
