**Mermaids and Martinis** Hilary Pereira, 2012-04-24 Don't host a party-host a memory. Everyone loves to throw the perfect party-the one all your friends talk about. Today, everyone is searching for ways to save and still do the things they love in a big way, and almost everyone is craving for creative ideas and solutions to celebrate their lives in a big way-on a tiny budget. New York party-planner Hilary Pereira has happily played hostess and rolled out the red carpet for celebrities such as Jerry and Jessica Seinfeld, Kanye West, Josh Duhamel, Helen Hunt, Vanessa Carlton, Allison Krauss, Helena Christensen, Jane Krakowski, John Legend, Nigel Barker and Danity Kane-just to name a few. And as much as she loves hosting wonderful parties for celebrities, her favorite fetes are the ones she hosts for family and friends. Mermaids & Martinis is a book to teach you creative ways to economize, but also to remember to turn your party into a memory. You may be asking yourself: Why a Mermaid? Look no further than this quote from Louisa May Alcott to capture the essence of our main character: She was one of those happily created beings who please without effort, make friends

everywhere and take life so gracefully and easily that less fortunate souls are tempted to believe that such are born under a lucky star.

Paper Made! Kayte Terry, 2012-05-09 Announcing the biggest, best, most innovative book ever on paper craft. Even better, this is not about how to use costly, artsy paper, but how to turn stuff around the house—magazines and shopping bags, candy wrappers and paint sample cards, wrapping paper, old maps, and paper towel tubes—into stunning jewelry, gifts, home decor, party favors, and much more. Chances are you've seen the author's cutting-edge work in the windows of Anthropologie, where she is the chain's merchandising manager. An inveterate crafter who creates projects and styles photo shoots for magazines like Parents and Vogue Knitting, Kayte Terry takes the most versatile of materials and the most basic of crafts (remember snipping valentines out of construction paper?), and creates something completely transformative. Turn a sheaf of any white or graph paper into an amazing Scrap Happy Globe Lantern for the dining room. Fashion colored tissue paper into Songbird Votives, leftover raffle tickets into a Prizewinning Bowl, that out-dated pile of holiday catalogs into a picture frame. There's a necklace made of playing cards, a gum wrapper bracelet, and barrettes made by quilling—a paper technique that goes back to the Renaissance. Every project is photographed in full color, and includes step-by-step illustrations and instructions. Truly a book that shows how to think outside the (cardboard) box.

Mind-Blowing Modular Origami Byriah Loper, 2016-10-11 Modular origami is the latest craze in paper folding! These three-dimensional models are created from a number of small pieces of paper that are easily folded and then cleverly fit together to form a spectacular shape. They range from paper polyhedra to bristling buckyballs that are reminiscent of sea urchins—to ornate flower-like spheres. Each piece of paper is held by the tension of the other papers—demonstrating the remarkable hidden properties of paper, which is at the same time flexible but also strong! Author Byriah Loper has been creating modular origami sculptures for just five years, but in that time, he's pushed the upper limits of the art form with some of the largest, most complex geometric paper constructions ever assembled. While many geo-modular origami artists focus on creating dense floral spheres, Byriah has pioneered the open, linear wire frame approach, which results in a very complex-looking model that reveals the interior of its form. He exhibits his sculptures annually at the Origami USA convention in New York, and was recently a featured artist at the Surface to Structure exhibition at the Cooper Union gallery in the East Village. A great way to learn origami, the easy-to-follow diagrams and step-by-step instructions in this book show you how to fold the paper components and then assemble them to create 22 incredible models. Each model is a new challenge, and the paper sculptures you create look fantastic on your desk or shelf!
