Where Willy Went Nicholas Allan,2011-11-30 Never before have the facts of life been presented in such an accessible—or novel—way. Our hero is Willy, a little sperm who lives inside Mr. Browne with 300 million friends. Every day Willy practices for the Great Swimming Race. And when the day arrives, he swims faster than his 300 million friends to win the prize—a marvelous egg. Then something wonderful happens, and eventually Mr. and Mrs. Browne have a baby girl who has the same winning smile as Willy and who grows up to be a great swimmer. hilariously funny, warm, and endearing, this is a picture book that appeals on different levels to both children and grown-ups. “Fresh, original, and imaginative. . . . Allan’s achievement is in couching fascinating facts within the construct of a gentle, direct narrative. A little knowledge is a wonderful thing, and as the rest of the facts of life fall into place, Allan’s readers will look back on this book with a mixture of fondness and wry amusement.” —The Guardian (UK)

Mad Enchantment Ross King,2016-09-06 From bestselling author Ross King, a brilliant portrait of the legendary artist and the story of his most memorable achievement. Claude Monet is perhaps the world's most beloved artist, and among all his creations, the paintings of the water lilies in his garden at Giverny are most famous. Monet intended the water lilies to provide an asylum of peaceful meditation. Yet, as Ross King reveals in his magisterial chronicle of both artist and masterpiece, these beautiful canvases belie the intense frustration Monet experienced in trying to capture the fugitive effects of light, water, and color. They also reflect the terrible personal torments Monet suffered in the last dozen years of his life. Mad Enchantment tells the full story behind the creation of the Water Lilies, as the horrors of World War I came ever closer to Paris and Giverny and a new generation of younger artists, led by Henri Matisse and Pablo Picasso, were challenging the achievements of Impressionism. By early 1914, French newspapers were reporting that Monet, by then seventy-three, had retired his brushes. He had lost his beloved wife, Alice, and his eldest son, Jean. His famously acute vision--what Paul Cezanne called the most prodigious eye in the history of painting?--was threatened by cataracts. And yet, despite ill health, self-doubt, and advancing age, Monet began painting again on a more ambitious scale than ever before. Linking great artistic achievement to the personal and historical dramas unfolding around it, Ross King presents the most intimate and revealing portrait of an iconic figure in world culture.

The Arts and Crafts Movement in the Pacific Northwest Lawrence Kreisman,Glenn W. Mason,2007 This magnificent compendium is the first comprehensive exploration of the Arts and Crafts legacy in the Pacific Northwest. It traces the movement from its nineteenth-century English beginnings to its flowering in Washington and Oregon through the 1920s and beyond, weaving into a tale of idealism and devotion everything from iconic masterpieces to recent discoveries. You will meet the architects, artists, craftspeople, and entrepreneurs in Seattle, Spokane, Portland, and smaller communities throughout the region in their own words in journal entries, letters, articles, and promotional materials of the period. Included are public and private architecture, furniture, pottery and tile, metalwork, lighting, leaded and stained glass, jewelry, textiles, basketry and the influence of Native American arts, painting and printmaking, photography, graphic arts, and book design. The ideals of the Arts and Crafts movement—a celebration of craftsmanship and the creative process; an appreciation of sound construction, pleasing proportion, grace, and simplicity; and a comfortable rusticity that sees beauty in nature and honors indigenous materials—found fertile ground in Washington and Oregon. The inspired handiwork of anonymous amateurs and significant regional artists alike yielded a remarkable variety of progressive architect-designed residences, bungalows for everyone, and all manner of artistic and practical furnishings and accessories. Beautifully illustrated with nearly 400 photographs and period graphics, including rare images published here for the first time, this groundbreaking volume is an authoritative reference, a provocative story, and an irresistible treasure trove for Arts and Crafts collectors and enthusiasts everywhere.

A Little Pretty Pocket-book John Newbery,2009 John Newbery (1713-1767) was a British publisher of books who first made children's literature a sustainable and profitable part of the literary market. He also supported and published the works of Christopher Smart, Oliver Goldsmith and Samuel Johnson. In honour of his achievements in children's publishing, the Newbery Medal was named after him. By 1740 he had started publishing books in Reading, Berkshire; his first two publications were an edition of Richard Allestree's *The Whole Duty of Man* and *Miscellaneous Works* Serious and Humorous in Verse and Prose. In 1743, Newbery left Reading, putting his stepson John Carnan in charge of his business there, and established a shop in London. The first book he published there was *A Little Pretty Pocket-Book* in 1744. Scholars have speculated that Oliver Goldsmith or Giles and Griffith Jones wrote one of Newbery's best-selling stories, *The History of Little Goody Two-Shoes*. This was Newbery's most popular book, going through 29 editions between 1765 and 1800. Newbery also published a series of books written by Tom Telescope that were wildly popular, going through seven editions between 1761 and 1787 alone.

Voyaging Out Joyce Townsend,2019-10-22 A fascinating new account of the work and lives of Britain’s women artists in the twentieth century. In this revealing chronicle of a fascinating period of social change, artist Carolyn Trant examines the history of women artists in modern Britain, filling in the gaps in traditional art histories. Introducing the lives and works of a rich network of neglected women artists, *Voyaging Out* sets these alongside such renowned presences as Barbara Hepworth, Laura Knight, and Winifred Nicholson. In an era of radical activism and great social and political change, women forged new relationships with art and its institutions. Such change was not without its challenges, and with acerbic wit Trant delves into the gendered makeup of the avant-garde and the tyranny of artistic “isms.” In Virginia Woolf’s first novel *The Voyage Out* (1915) her female heroine strives toward a realization of her sense of self, asking what being a woman might mean. In the decades after women won the vote in Britain, the fortunes of women artists were shaped by war, domesticity, continued oppressions, and spirited resistance. Some succeeded in forging creative careers; others were thwarted by the odds stacked against them. Weaving devastating individual stories with spirited critique, *Voyaging Out* reveals this hidden history.

The Word Is Art Michael Petry,2021-07-08 There has been much scaremongering about the 'death of the book', and how, as words find new ways and means of transmission, young people might gradually begin to shun writing. In the digital age, text becomes information, and information strives to become free. But what value can text hold in the sphere of visual art? How is such text different from poetry? Can the poetic itself be visual art, or is text in this context consigned to the realms of gimmick and catchphrase? Looking at the work of a broad range of artists including Bruce Nauman, Julien Breton, Jeremy Deller, Takashi Murakami, Tracey Emin, Christian Boltanski and many more, The Word is Art examines each of these questions, contending above all that in the digital and online age, words have become more important than ever. With the advent of texting and social media, many predicted the debasement of language, and some have pointed to evidence of this in our so-called 'post-truth' culture. Artist Michael Petry demonstrates that, on the contrary, words remain critical, powerful and central to art practice. Digital communication has seen the word as text permeate life in ways that the poets and artists of yesterday could never have imagined. Presenting a brief history of word- and book-based art, and examining major areas where the word has dominated artistic practice, this book takes us on a fascinating and richly illustrated global tour of diverse contemporary art forms. With 250 illustrations in colour

Fifty Works by Fifty British Women Artists 1900 - 1950 Sacha Llewellyn,2019 This exhibition catalogue highlights the work of a cross-section of women artists, active during the first half of the 20th century, whose work deserves more critical acclaim. Ever since Linda Nochlin asked in 1971, 'Why have there been no great women artists?', art history has been probing the female gaze. Through scholarship and exhibitions, readings have been put in place to counter prevailing assumptions that artistic creativity is primarily a masculine affair. Fifty Works by Fifty British Women functions as a corrective to the exclusion of women from the 'master' narratives of art. It introduces fifty artworks by known and lesser-known women - outstanding works that speak out. Fifty commentaries by fifty different writers bring out each artwork's unique story - sometimes from an objective art historical perspective and sometimes from an entirely personal point of view - thereby creating a rich and colourful diorama. This exhibition does not, however, attempt to present a survey or to address all the arguments around the history of women and art. Anthologies are of necessity incomplete, and many remarkable imaginations are not here represented. Women artists have been set apart from male artists not only to their own disadvantage but also to the detriment of British art. While there were some improvements for women to access an artistic career in the twentieth century in terms of patronage, economics and critical attention - all the things that confer professional status - women had the least of everything. By showcasing just a few of the remarkable works produced, this exhibition draws attention to the fact that a vision of British twentieth century art closer to a 50/50 balance would not only provide a truer account, but also a more vivid and meaningful narrative. 126 illustrations, 43 b/w
