Being Myself Rupert Spira, 2021-09-01 **Being Myself** is a contemplative exploration of the essential nature of our self. Everyone has the sense of 'being myself,' but not everyone knows their self clearly. In most cases, our sense of self is mixed up with the content of experience and, as a result, its natural condition of peace and happiness is veiled. Through investigation and analogy, the meditations in this collection take us back to our true nature again and again, until we begin to find our self naturally and effortlessly established there, as that. In time, experience loses its capacity to veil our being, and its innate peace and joy emerge from the background of experience. * * * **The Essence of Meditation Series** presents meditations on the essential, non-dual understanding that lies at the heart of all the great religious and spiritual traditions, compiled from contemplations led by Rupert Spira at his meetings and retreats. This simple, contemplative approach, which encourages a clear seeing of one's experience rather than any kind of effort or discipline, leads the reader to an experiential understanding of their own essential being and the peace and fulfilment that are inherent within it.

Great Leaders Mix and Match Ramon Vullings, 2021-04 **Great Leaders Mix and Match** is a manifesto for more beautiful combinations in (business) life. The world faces complex challenges and these challenges can only be resolved by mixing

and matching ideas. The beauty here lies in the elegance of the solutions which actually make the (business) world a better place and how we are able to solve multiple challenges in one go. Think of a waste incineration plant which doubles as ski hill. Or think of new solutions for care: an elderly home, combined with children day care and an animal farm, where all parties benefit from the combination. These are real cases where the total (combination) is clearly more than the sum of its parts. This book serves as a manual and toolbox and outlines how leaders can become ideaDJs. A perfect ideaDJ mix consists of beauty, value and impact. By creating beauty, the solutions have more elegance in their implementation. It adds more value to all stakeholders, not just shareholders. And finally, the solutions create more sustainable and scalable impact. Besides many exciting examples, this book contains a clear methodology and tool kits. The main focus is to help (business) leaders to change the mindset and attitude of the people around them.

Library Michael Dumontier, Neil Farber, 2021-09-07 Two of Canada's most famous visual artists take on the book medium in their own hilarious way *Library* is a collection of paintings by two of Canada's most influential contemporary artists, Michael Dumontier

and Neil Farber. From the simple premise of the book title comes a series of images that are laugh-out-loud funny. A collection of book covers adorned with titles painted in simple handwritten fonts are displayed on brightly colored hardboard. Each book forms part of an ongoing series Dumontier and Farber started in 2009. In Dumontier and Farber's Library, titles like *I Lost the Human Race*, *Change Your Relationship to Your Unchangeable Past*, and *I Have a Medical Condition That Makes It So I Don't Have to Talk to You* offer surprising and astute observations, all in the duo's characteristic deadpan style. The simplicity of the shapes and text evokes an immediate but lasting profundity, with each piece causing one to wonder about the thoughts that roam their consciousness, and the books that take up residence on their—and our—shelves. Dumontier and Farber are founding members of the influential art collective the Royal Art Lodge, and have been collaborating on art projects for more than fifteen years, exhibiting internationally. Library is playful and insightful as it pokes and prods at the human condition.

Design Innovation and Integration Karla Straker,Erez

Nusem,Cara Wrigley,2021-03 Design Innovation and Integration is

more than just a toolkit, it is a guidebook for the industry leaders of tomorrow. Through providing a holistic understanding of the approaches, practices and tools required to go beyond creative ideas to integrating design strategically within an organization. Novel solutions are required to meet complex problems, however, understanding how to make these solutions a reality is rarely addressed nor readily understood. This book expands upon existing design toolkits by providing a deeper understanding of the principles and practices of methods and aligning tools. The aim is not only equipping the reader with a list of design tools but for them to apply and adapt them to best suit their needs and context. A number of diverse company case studies are used throughout the book to explain the use of individual tools and describe the more complex process of design integration, highlighting common pitfall and opportunities. Based on over 10 years of independent research, authors Straker, Wrigley and Nusem share their experiences and outcomes from their own research. Structured into key two parts, i) Design Innovation and ii) Design Integration, the reader can quickly and easily resource a tool, gain a deeper understanding of the theory of Design Innovation or develop a design intervention within their own organization. This book is for

the person seeking to learn how to grow their influence and create an enabling environment for design innovation in their organization.

Photography – A Feminist History Emma Lewis, 2021-11-11 ***

'An epic and fascinating book.' The Bookseller 'Emma Lewis' sprawling new book shines a light on overlooked feminist histories' - AnOther Magazine How did the abolitionist movement interact with women's entry into the field of photography? What does the medium have to do with menstrual taboos? Is there even such a thing as a 'feminist image'? Whether working in the studio or on the front line, women have contributed to every aspect of photography's short history. For some, gender is front and centre; for others, it's merely incidental. All have been affected by the power structures beyond their camera lenses. Far too many have been, and continue to be, overlooked. Mapping photographic developments against shifting gender rights and roles, *Photography - A Feminist History* shines a light on how photography has borne witness to women's movements and made the causes for which they fight visible, and how, in turn, different approaches to feminism have given us ways of understanding photographs. Authoritative and international in scope, *Photography - A Feminist History* features over 140 photographers, with ten thematic essays,

and extended profiles on 75 key practitioners, many informed by conversations with the author.
