Daniela Malev

Make Space Scott Doorley, Scott Witthoft, Hasso Plattner
Institute of Design at Stanford University, 2012-01-03 If you are determined to encourage creativity and provide a collaborative environment that will bring out the best in people, you will want this book by your side at all times. —Bill Moggridge, Director of the Smithsonian's Cooper-Hewitt National Design Museum *Make Space* is an articulate account about the importance of space; how we think about it, build it and thrive in it. —James P. Hackett, President and CEO, Steelcase An inspiring guidebook filled with ways to alter space to fuel creative work and foster collaboration. Based on the work at the Stanford University d.school and its Environments Collaborative Initiative, *Make Space* is a tool that shows how space can be intentionally manipulated to ignite creativity. Appropriate for designers charged with creating new spaces or anyone interested in revamping an existing space, this guide offers novel and non-obvious strategies for changing surroundings specifically to enhance the ways in which teams and individuals communicate, work, play--and innovate. Inside are: Tools--tips on how to build everything from furniture, to wall treatments, and rigging Situations--scenarios, and layouts for sparking creative activities Insights--bite-sized lessons designed to shortcut your learning curve Space Studies--candid stories with lessons on creating spaces for making, learning, imagining, and connecting Design Template--a framework for understanding, planning, and building collaborative environments *Make Space* is a new and dynamic resource for activating creativity, communication and innovation across institutions, corporations, teams, and schools alike. Filled with tips and instructions that can be approached from a wide variety of angles, *Make Space* is a ready resource for empowering anyone to take control of an environment.

FLAMES OF FREEDOM Grim & Perilous RPG Richard Iorio, Daniel D. Fox, 2021-09-28 *FLAMES OF FREEDOM* is an

American Gothic horror tabletop role-playing game, based on the award-winning ZWEIHÄNDER RPG. It is the dawn of the American Revolutionary War of 1776. A tangled web of conspiracy spans North America. It does not matter what your creed, color, culture, faith or gender is—all stand together in the war for survival. Every Rebel patriot holds Thomas Paine's Common Sense aloft as they take up arms against the British Empire. The city of Boston is occupied by the Red Coats, surrounded by Rebel militias. But as the revolution has begun, something far more mysterious stirs. Agents of the occult entreat both the Continental Army and British Empire. Freemasons conspire in the City of Brotherly Love. Maryland is in the throes of a witch hunt by the Knights Templar. Amid the chaos, other grim fairy tales have emerged. Ghouls have been tunneling beneath Boston. There are sightings of witches in the Great Dismal Swamp. Indigenous sachem speak of devils who walk among the living. The Leeds Devil haunts the Pine Barrens of New Jersey. And worse still, a shadowy collective called "The Mandoag" seeks to consume all, Loyalists and Rebels alike. In this game, most people have either chosen to deny the supernatural or rationalize it away. A rare few accept it for what it is to act. You are among those heroes and destined for greatness... or death. This alternative history game includes most of what you need to play: a player's handbook, a game master's guide, a bestiary, and an introductory adventure set in Boston. All that's left are a few friends, pencils and a handful of dice. FLAMES OF FREEDOM is an American Gothic horror tabletop role-playing game, based on the award-winning ZWEIHÄNDER RPG.

Rain of the Ghosts Greg Weisman, 2013-12-03 Rain of the Ghosts is the first in Greg Weisman's series about an adventurous young girl, Rain Cacique, who discovers she has a mystery to solve, a mission to complete and, oh, yes, the ability to see ghosts. Welcome to the Prospero Keys (or as the locals call them: the Ghost Keys), a beautiful chain of tropical islands on the edge of

the Bermuda Triangle. Rain Cacique is water-skiing with her two best friends Charlie and Miranda when Rain sees her father waiting for her at the dock. Sebastian Bohique, her maternal grandfather, has passed away. He was the only person who ever made Rain feel special. The only one who believed she could do something important with her life. The only thing she has left to remember him by is the armband he used to wear: two gold snakes intertwined, clasping each other's tails in their mouths. Only the armband . . . and the gift it brings: Rain can see dead people. Starting with the Dark Man: a ghost determined to reveal the Ghost Keys' hidden world of mystery and mysticism, intrigue and adventure.

National Education Technology Plan Arthur P.

Hershaft,2011 Education is the key to America's economic growth and prosperity and to our ability to compete in the global economy. It is the path to higher earning power for Americans and is necessary for our democracy to work. It fosters the cross-border, cross-cultural collaboration required to solve the most challenging problems of our time. The National Education Technology Plan 2010 calls for revolutionary transformation. Specifically, we must embrace innovation and technology which is at the core of virtually every aspect of our daily lives and work. This book explores the National Education Technology Plan which presents a model of learning powered by technology, with goals and recommendations in five essential areas: learning, assessment, teaching, infrastructure and productivity.

Howtoons Saul Griffith,Nick Dragotta,Ingrid Dragotta,Joost Bonsen,2014 Contains material originally published as Howtoons: The Possibilities Are Endless by HarperCollins Publishers.-- Colophon.

War beyond Words Jay Winter,2017-07-06 What we know of war is always mediated knowledge and feeling. We need lenses to filter out some of its blinding, terrifying light. These lenses are not fixed; they change over time, and Jay Winter's panoramic

history of war and memory offers an unprecedented study of transformations in our imaginings of war, from 1914 to the present. He reveals the ways in which different creative arts have framed our meditations on war, from painting and sculpture to photography, film and poetry, and ultimately to silence, as a language of memory in its own right. He shows how these highly mediated images of war, in turn, circulate through language to constitute our 'cultural memory' of war. This is a major contribution to our understanding of the diverse ways in which men and women have wrestled with the intractable task of conveying what twentieth-century wars meant to them and mean to us.

Sew Your Own Furry Llama Pillow Klutz

Editors, 2018-08-28 Stitch and stuff a furry friend with a touch a personality! Everything you need is included in this kit including super soft faux fur and beautiful pre-cut patterns. Give your llama extra drama by customizing it's expression and adding a variety of trendy accessories to complete the look. Spirits of Ash and Foam Greg Weisman, 2014-07-08 Welcome to the Prospero Keys (or as the locals call them: the Ghost Keys), the beautiful chain of tropical islands on the edge of the Bermuda Triangle where Rain Cacique lives. When Rain's maternal grandfather passed away, he left her his special armband: two gold snakes intertwined, clasping each other's tails in their mouths. Rain soon discovers that the armband is actually a zemi - a very powerful talisman created by the island's native Arawak Taino Indians - and that it allows Rain to see ghosts, including her own grandfather who is determined to help her uncover the

Ghost Keys' hidden world of mystery and mysticism, intrigue and adventure. Now, Rain Cacique's looking for a few answers — and the second zemi, a Taino relic that allows her to see dead people. But it's the first week of school, so she's pretty busy juggling teachers, homework, baby-sitting duties, new friends, missing tourist kids... and a vampire with a tribal twist. *Spirits of Ash and Foam* is the second installment in Greg Weisman's *Rain of the Ghosts* series.

Stolen Life Antonio Buti, 2019-07-01 On Christmas Day 1957, Joe Trevororrow walked through the blistering heat to seek help for his sick baby boy. When relatives agreed to take Bruce to hospital, Joe was relieved — his son was in safe hands — but, within days, Bruce would be living with another family, and Joe would never see his son again. At the age of ten, Bruce would be returned to his Indigenous family, sparking a lifelong search for an identity that could never truly be known and a court case that made history.

Russia Under the Old Regime Richard Pipes, 1992 The author traces with compelling detail the evolution of the Russian state, where the Tsar claimed to own the land and its inhabitants as if they were his own personal property. Professor Pipes analyzes the political behavior of Russia's peasantry, nobility and bourgeoisie as well as its clergy, showing why none of them could limit the absolute power of the state. He discusses how the intelligentsia challenged the Tsars' power, leading to increased repression and Russia's development as a bureaucratic police state. This sweeping epic brings Russia's turbulent history to life and helps us better understand the roots of modern Russia.

Practical Finite Element Analysis Nitin S. Gokhale, 2008
Highlights of the book: Discussion about all the fields of Computer Aided Engineering, Finite Element Analysis Sharing of worldwide experience by more than 10 working professionals
Emphasis on Practical usage and minimum mathematics Simple language, more than 1000 colour images International quality

printing on specially imported paper Why this book has been written ... FEA is gaining popularity day by day & is a sought after dream career for mechanical engineers. Enthusiastic engineers and managers who want to refresh or update the knowledge on FEA are encountered with volume of published books. Often professionals realize that they are not in touch with theoretical concepts as being pre-requisite and find it too mathematical and Hi-Fi. Many a times these books just end up being decoration in their book shelves ... All the authors of this book are from IITs & IISc and after joining the industry realized gap between university education and the practical FEA. Over the years they learned it via interaction with experts from international community, sharing experience with each other and hard route of trial & error method. The basic aim of this book is to share the knowledge & practices used in the industry with experienced and in particular beginners so as to reduce the learning curve & avoid reinvention of the cycle. Emphasis is on simple language, practical usage, minimum mathematics & no pre-requisites. All basic concepts of engineering are included as & where it is required. It is hoped that this book would be helpful to beginners, experienced users, managers, group leaders and as additional reading material for university courses.

Emotion, Affective Practices, and the Past in the Present
 Laurajane Smith,Margaret Wetherell,Gary Campbell,2018-06-14
 Emotion, Affective Practices, and the Past in the Present is a response to debates in the humanities and social sciences about the use of emotion. This timely and unique book explores the ways emotion is embroiled and used in contemporary engagements with the past, particularly in contexts such as

heritage sites, museums, commemorations, political rhetoric and ideology, debates over issues of social memory, and touristic uses of heritage sites. Including contributions from academics and practitioners in a range of countries, the book reviews significant and conflicting academic debates on the nature and expression of affect and emotion. As a whole, the book makes an argument for a pragmatic understanding of affect and, in doing so, outlines Wetherell's concept of affective practice, a concept utilised in most of the chapters in this book. Since debates about affect and emotion can often be confusing and abstract, the book aims to clarify these debates and, through the use of case studies, draw out their implications for theory and practice within heritage and museum studies. *Emotion, Affective Practices, and the Past in the Present* should be essential reading for students, academics, and professionals in the fields of heritage and museum studies. The book will also be of interest to those in other disciplines, such as social psychology, education, archaeology, tourism studies, cultural studies, media studies, anthropology, sociology, and history.

Palmers' Index to the Times Newspaper ,1909

Machina Obscurum J. Edward Neill, River Fairchild, Chad Shonk, Phil Elmore, 2015-11-20 Tread lightly into ancient, forbidden realms. Wander into the futures of apocalyptic worlds. Know what it feels like to face the darkness alone. *Machina Obscurum* contains twenty-two short tales by nine masters of fiction. Within these pages lie tales of men and monsters, of lonely souls and far-distant places. No matter what whets your appetite: sci-fi, horror, fantasy, or hard, dark realistic fiction, *A Collection of Small Shadows* has it all. ...and more.

Ayat Jamilah Sarah Conover, Freda Crane, 2004 Presents Islamic stories that offer a background in Islamic traditions, folk tales, and mystical verse.

The Echo Effect John McGuire, 2020-09-18 In the world before, Aaron Anders had a different life with a different

family...Until the White Light washed them away.A select few know the truth about our world: every time the calendar approached the year 2025, the world resets and creates a new Earth, with a new history for each of us. The Awakened remember their previous lives, and throughout history, many of them have done their best to ensure that the world proceeds on a particular path.The lucky few.Aaron didn't feel lucky. Trapped in this loop, forced to live again and again in half-remembered lives, his current reality was spiraling out of control. His wife and his best friend thought he was losing his mind, and the worst part was they might be right. Another existence filled his head, mixing false memories with his real ones until he wasn't sure of the truth.And the only one who seemed to know anything was a stranger convinced They were after both of them.

To the Point Daniela Malev,2017 In the field of contemporary jewellery, the brooch is a very common and also much discussed form of jewellery. One of the special challenges of making a good brooch is to find an adequate solution for the pin, which connects the piece securely to the wearer but goes beyond being a mere functional and invisible part of the backside. It should be an essential part of the brooch in terms of content and aesthetics. The author is convinced that the fastening and attachment of a brooch hold a tremendous potential for the design of a brooch in its entirety. As the selection of brooches in this book demonstrates, there is a whole universe of possibilities and varieties...
