*Notes from the Hyena's Belly* Nega Mezlekia, 2015-04-07 In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, *Notes from the Hyena's Belly* offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

**Temples of The African Gods** Michael Tellinger, 2021-04-06 South Africa and Zimbabwe are home to the largest cluster of ancient stone ruins found to date on Earth. Adam's Calendar is at the centre of it all - the oldest functioning megalithic Sun Calendar found to date. Since 2007, more than 5 million circular stone structures have been identified by Michael Tellinger and a small group of independent researchers. These structures are not stand-alone stone circles - they are all connected to each other by channels of stone, and held in a large mesh of agricultural terraces that cover entire mountains and resembles a never-ending spider's web. The great mystery is that the original stone structures have no doors or entrances - indicating that they were not originally constructed as dwellings for people or animals. Additional research and the discovery of mysterious tools and artefacts, indicate that the builders had an advanced knowledge of Cymatics - study of sound - and knew how to use sound as a tool. Together with many ancient gold mines, all this activity has been dated with various scientific techniques to well over 100,000 years - and provides much support for the presence of

the Sumerian Anunnaki on Earth - mining gold in Southern Africa. A place often referred to as the ABZU. Scholars have told us that the first civilization on Earth emerged in a land called Sumer some 6000 years ago. These archaeological findings in southern Africa suggest that the Sumerians inherited much of their knowledge from an earlier civilization that emerged many thousands of years before them in southern Africa, the cradle of humankind.

Alice McKinley's freshman year is not as "lucky" as she was hoping it would be. But she's is trying to look on the bright side. There are worse things than being single for a semester... for a school year...for the whole summer.... At least Alice can count on her best friends for support—in theory, anyway. Lately they haven't been all that there-for-her. In fact, it seems like Pam and Liz are suddenly involved in intense, secret conversations whenever Alice is around. Single is starting to feel a whole lot like solo.

Troubling Borders Isabelle Thuy Pelaud, Lan Duong, Kathy L. Nguyen, Mariam B. Lam, 2020-01-09 Juxtaposing short stories, poetry, painting, and photographs, *Troubling Borders* showcases the creative work of women of Vietnamese, Cambodian, Lao, Thai, and Filipino ancestry. This thematically arranged collection interrupts borders of categorization and gender, in what preface author Shirley Geok-Lin Lim describes as a leap over the barbed fences that have kept these women apart in these, our United States of America. The sixty-two contributors have been shaped by colonization, wars, globalization, and militarization. For some of these women on the margins of the margin, crafting and showing their work is a bold act in itself. Their provocative and accessible creations tell unique stories, provide sharp contrasts to familiar stereotypes--Southeast Asian women as exotic sex symbols, dragon ladies, prostitutes, or bar girls--and serve as entry points for broader discussions about questions of history, memory, and identity.

Prejudices Henry Louis Mencken, 2010 These essays, first published between 1919 and 1927, ushered in a new cosmopolitanism and skepticism in twentieth-century America. Morgan and Me Stephen Cosgrove, 2013-10 On the northern slope of the island of Serendipity is a small, wonderful kingdom called the Land of Later. In this kingdom there lived a young, beautiful princess who everyone simply called Princess. The castle was governed by the king's simple rules. One of those rules was that when you woke in the morning, you cleaned your room and made your bed. Princess hated rules. Most of all, she hated doing anything at any time unless it was much, much later. This morning, as on others, she awoke, got dressed, and went outside and took a walk instead of cleaning her room. Princess walked into the forest near the castle. “I should start back before I get lost,” she whispered to a bunny on the path. Then she laughed, “I will go back but just, just a little later!” It was on the journey that Princess met a unicorn called Morgan. And it was on this journey, with the help of Morgan, that she learned that doing things now is always much better than later.
