Introductory Grammar of Amharic Wolf Leslau,2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is

extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Water+Ink Coloring Book Winter 2020 Kim Winberry,2019-07-22 I begin my paintings with a sketch and application of colorful/bright pigment and water to the paper. I disrupt the blends with salt or water, watching as one color blossoms in water, as another color starts to travel across the paper. I utilize India Ink to demarcate changes, also adding swirls other artifacts, in the aim to achieve whimsy. My coloring books are my paintings! I run the paintings through filters and drop the color from them, leaving the lines so that you can add your own color. But wait, there's more... I've added an Augmented Reality component to this. Wonder what colors I used for that piece in the corner there? Take out your phone, download the Zappar app from your app store and zap the code. What happens? At the very least an image of the original painting will pop up and you can see what it looks like, side by side with the coloring page. Beyond that, you'll meet Mist, my liaison to the AR world. She will be a recurring character in all my AR work. Stay tuned and enjoy.

Mogworld Yahtzee Croshaw,2018-05-29 In a world full to bursting with would-be heroes, Jim couldn't be less interested in saving the day. His fireballs fizzle. He's awfully grumpy. Plus, he's been dead for about sixty years. When a renegade necromancer wrenches him from eternal slumber and into a world gone terribly, bizarrely wrong, all Jim wants is to find a way to die properly, once and for all. On his side, he's got a few shambling corpses, an inept thief, and a powerful death wish. But he's up against tough odds: angry mobs of adventurers, a body falling apart at the seams — and a team of programmers racing a deadline to hammer out the last few bugs in their AI. *Mogworld is the debut novel from video-game icon Yahtzee Croshaw (Zero Punctuation)! With an exclusive one-chapter preview of Yahtzee Croshaw's next novel, Jam—coming to bookstores in October 2012! *Ben Yahtzee Croshaw's video review site, Zero Punctuation, receives over 2,500,000 unique hits a month, and has

been licensed by G4 Television. *Yahtzee's blog receives about 150,000 hits per day. The first legitimate breakout hit from the gaming community in recent memory. -Boing Boing

100 Painters of Tomorrow Kurt Beers, 2014-10-14 An exciting new global survey of largely unknown talent, selected by an international jury Painting is enjoying a remarkable creative renaissance in the twenty-first century, with many of the world's leading artists now working in this most enduring and seductive of media. 100 Painters of Tomorrow is the culmination of a new project, initiated by curator Kurt Beers and Thames & Hudson, to find the 100 most exciting painters at work today. This major publication introduces and presents the work from a global cast of painters selected by an international panel featuring some of the most prominent names in contemporary art. The resulting volume offers an intelligent snapshot of the best new talent in painting from across the world, gathered through an open call for submissions that drew over 4,300 applications. Open to any artist using paint as their primary medium, the submissions guidelines specified no age limit, but each of the selected artists has gained professional recognition in the last five years through their education, gallery representation, or in the production of a significant body of work. In addition, more than 100 of the world's leading art schools were directly invited to participate, nominating recent graduates to submit their applications. The book presents high-quality images of the rising stars' work, along with essential biographic information and quotations from the artists.
