Original Grin Ron English, 2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie Supersize Me; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on The Simpsons secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.

**Achtung-Panzer!** Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting

armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Water+Ink Coloring Book Winter 2020 Kim Winberry, 2019-07-22 I begin my paintings with a sketch and application of colorful/bright pigment and water to the paper. I disrupt the blends with salt or water, watching as one color blossoms in water, as another color starts to travel across the paper. I utilize India Ink to demarcate changes, also adding swirls and other artifacts, in the aim to achieve whimsy. My coloring books are my paintings! I run the paintings through filters and drop the color from them, leaving the lines so that you can add your own color. But wait, there's more... I've added an Augmented Reality component to this. Wonder what colors I used for that piece in the corner there? Take out your phone, download the Zappar app from your app store and zap the code. What happens? At the very least an image of the original painting will pop up and you can see what it looks like, side by side with the coloring page. Beyond that, you'll meet Mist, my liaison to the AR world. She will be a recurring character in all my AR work. Stay tuned and enjoy.
