Each vehicle also comes with a collectible trading card. Star Wars fans across the spectrum will enjoy assembling and displaying this collection of replica vehicles from a galaxy far, far away.

Sticks and Stones Melissa Lennig, 2019-05-07 Sticks and Stones presents a treasure trove of building and engineering ideas for children to employ in the great outdoors using the materials made readily available to them, from cabins and tipis to bridges and dams. Many smaller scale projects are included, too—such as how to make ochre paint with shale, make a fishing pole, and carve a marshmallow roasting stick. Opportunities and materials for constructive play exist everywhere in nature. Author Melissa Lennig (of the blog Fireflies and Mud Pies) introduces today's screen-overloaded kids to this world of fun waiting just outside the door. Whether camping or hanging out in the back yard, children will marvel at the wonderful, useful tools and playthings they can create with natural objects. Sticks and Stones details various designs for the ever-popular fort (cabins, tipis, survival shelters, etc.) and also covers structures such as bridges, fences, and dams, while explaining the STEAM principles behind each. In addition to structures, there are other ideas and projects for camping and the backyard, like a fire ring (explaining the types of fires, airflow, and safety), the always useful tripod, a travois, a rock garden, and toy boats. Along the way, there are multi-leveled reading opportunities in the form of quick features on considerations like mindfulness, campfire safety, mini STEAM design challenges, and more. Sticks and Stones is an essential resource for every junior outdoor adventurer.

Interactive Cards Tanya Fox, 2010-03-01 Featuring innovative techniques as well as traditional card-making methods, this instructional source provides crafters with detailed instructions for creating handmade cards with moveable parts. The designs featured in this collection include spinner, slider, waterfall, cylinder, peek-a-boo, wiper, suspension, shaker, hinged panel, pull-tab designs, and never-ending cards. Themed projects include a Christmas Cardinal double-wiper card, Surprise Party slider card, and the Who Loves You Peek-a-boo sentiment card—and designs are all accompanied by detailed photographs.

Profiles in Operations Research Arjang A. Assad, Saul I. Gass, 2011-06-28

Profiles in Operations Research: Pioneers and Innovators recounts the development of the field of Operations Research (OR), the science of decision making. The book traces the development of OR from its military origins to a mature discipline that is recognized worldwide for its contributions to managerial planning and complex global operations. Over the past six decades, OR analyses have impacted our daily lives: when making an airline or hotel reservation, waiting in line at a bank, getting the correctly blended fuel at the gas station, and ensuring that the book you are holding arrived at its destination on time. OR originated in the late 1930s when British scientists from various disciplines joined Royal Air Force officers to determine the most effective way to employ new radar technology for intercepting enemy

aircraft. During World War II, similar applied research groups were formed to study, test, and evaluate military operations on both sides of the Atlantic. Their work resulted in great improvements—OR helped the Allies win the war. The scientific field that emerged from these studies was called operational research in the U.K. and operations research in the U.S. Today, OR provides a broad and powerful science to aid decision making. Profiles describes the lives and contributions of 43 OR pioneers and innovators and relates how these individuals, with varying backgrounds and diverse interests, were drawn to the nascent field of OR. The profiles also describe how OR techniques and applications expanded considerably beyond the military context to find new domains in business and industry. In addition to their scientific contributions, these profiles capture the life stories of the individuals—interwoven with personal tales, vivid vignettes, family backgrounds, and views of the mission and future of OR. Collectively, the profiles recount the fascinating story of the growth and development of a field enriched by the convergence of different disciplines. The Editors: Arjang A. Assad is Dean of the School of Management, University at Buffalo, State University of New York. Saul I. Gass is Professor Emeritus, Department of Decision, Operations & Information Technologies, Smith School of Business, University of Maryland, College Park. From the Reviews Profiles In Operations Research: Pioneers and Innovators. Book Review by Nigel Cummings: U.K. OR Society's e-journal, Inside OR., Sept 2011. I can thoroughly recommend this book. I found it both enlightening and undeniably gripping, so much so in fact, you may find it difficult to put it down once you have commenced reading it. Arjang A. Assad and Saul I. Gass have created a masterwork which will serve to immortalise [sic] the pioneers of O.R. for many years to come. *For a list of all known typos, plus further discussion on the book, please visit <http://profilesinoperationsresearch.com>.

Christmas Houses Rob Harris, John Hartley, Samantha Manning, 2007 'Christmas Houses' pays homage to the growing UK phenomenon of yuletide house-bling, capturing the best, the wildest, and the most sophisticated motion-sensitive Santas, light displays, and lit-up grottos from all over the country.

The Affordable House David John Carnivale, 2005-09-16 Noted Staten Island architect and preservationist David Carnivale presents dozens of affordable yet elegant home plans in twenty-five traditional architectural styles, historically accurate but with modern amenities quietly incorporated. Each design is full described and illustrated by exquisite pen-and-ink renderings. Colonial, Cape Cod, Tudor, Federal, Victorian, Queen Anne, Shingle, Gothic & Greek Revival homes are all featured, and blueprints are quickly available at modest cost from the author of these imaginative dwellings. From structures emanating the soothing restraints and serenity of 18th century colonials sporting subtle, crisp details- the reader is carried away on a journey through many eras and will soon forget the crudely utilitarian and pretentious boxes builders construct today. The Affordable House will service quality well as a reference book, a source for your blueprints, or as a thoughtful gift. The Architect is always available to answer reader's questions at (718) 667-4270.

With imaginative images of creatures as wild as a sugar-loving plant called Sweet Root, as sleepy as a little dinosaur that goes by the name of Sleepysaurus, and more exciting characters, readers won't be able to get enough of crafting these unique creations! Papercuttables: No need for glue or tape, all you need is a pair of scissors...and a wild imagination!

Encyclopedia of Pieced Quilt Patterns, 2020-12 Barbara Brackman's classic quilter's resource, the Encyclopedia of Pieced Quilt Patterns, is fully modernized, updated with over 160 new blocks, and presented in full color for the first time in this third edition! All of the 4,000+ pieced quilt block patterns found in this book are illustrated with both a line drawing and sample color suggestions to ensure that you will never run out of inspiration! Quilters, quilt historians, and textile enthusiasts will love the detailed information on pattern names and publication sources included with each block pattern. The book is easy to use in a multitude of ways: look up block designs by name to find a perfectly themed pattern, search by layout and construction information to find the name of the pattern in a historic quilt, or just browse the pages until your next quilting project catches your

eye! Combine the book with BlockBase software (sold separately) to easily design and print custom templates, rotary charts, or foundation patterns for any of the blocks in the book. As a one-stop-shop for quilt pattern identification and ideas for your next quilting project, this fabulous book should be in every quilter's library!
