Evolution: the Grand Experiment Dr. Carl Werner,Carl Werner,2007 Darwin's book on evolution admitted that intermediate links were perhaps the most obvious and serious objection to the theory of evolution. Darwin recognized that the fossils collected by scientists prior to 1859 did not correspond with his theory of evolution, but he predicted that his theory would be confirmed as more and more fossils were found. One hundred and fifty years later, *Evolution: The Grand Experiment* critically examines the viability of Darwin's theory--

Three Shadows Cyril Pedrosa,2008-04-01 Can you ever escape your fate? Three shadows stand outside the house - and Louis and Lise know why the spectral figures are there. The shadows have

come for Louis and Lise's son, and nothing anyone can do will stop them. Louis cannot let his son die without trying to prevent it, so the family embarks on a journey to the ends of the earth, fleeing death. Poignant and suspenseful, *Three Shadows* is a haunting story of love and grief, told in moving text and sweeping black and white artwork by Cyril Pedrosa.

Dragons of the Deep Carl Wieland, 2005 Monsters once swam through Earth's oceans, and they were likely the inspiration for ancient sightings by mariners who described fantastic encounters on the open seas. In this colorful new book, Dr. Carl Wieland's laymen-friendly descriptions are complemented by beautiful illustrations. Readers will be amazed that these complex, huge beasts actually lived. This book provides a thoroughly biblical analysis, insisting that these dragons of the sea came into existence during the Creation Week as outlined in Genesis. *Dragons of the Deep* is totally evolution free, explaining the facts about fossils from a biblical perspective--Answers In Genesis.

Mighty Fitz Michael Schumacher,2008-12-01 The disappearance of the Edmund Fitzgerald remains one of the great unsolved mysteries in maritime history. Michael Schumacher relays in vivid detail the story of the Edmund Fitzgerald, its many productive years on the waters of the Great Lakes, its tragic demise, the search effort and investigation, as well as the speculation and the controversy

that followed in the wake of the disaster. Michael Schumacher is the author of six books. He has written 25 documentaries on Great Lakes shipwrecks, including three about the Edmund Fitzgerald. In his ballad, Mr. Lightfoot sang about the Fitz's final tense moments, when the waves turn minutes to hours: Now the hours have lengthened into years and years into decades-but the allure of this doomed ship and its missing men remains as strong as ever.-Wall Street Journal

The Origin of Evil Chuck Missler, When did Satan fall? We know that the angels were created prior to the Earth. We find Satan had already fallen in Genesis 3. The mystery is, when did he fall? It appears that there are substantial Scriptural references to his rebellion, his agenda, and the subsequent catastrophic judgment that ensued. This raises the whole issue of the origin of evil. And why hasn't God simply wiped him, and sin, out completely? It is also disturbing to recognize that Satan tempted Jesus by offering him the kingdom, power and the glory in the temptations recorded in Luke 5. How could Satan lay a legitimate claim to these?

Slave Stealers Timothy Ballard, 2018 Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated

with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day underground railroad which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The Conductor; Abraham Lincoln--the Great Emancipator; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.
