Preschool Bilingual Education Mila Schwartz,2018-05-23 This volume provides an up-to-date collection of key aspects related to current preschool bilingual education research from a socio-linguistic perspective. The focus is on preschool bilingual education in multilingual Europe, which is characterized by diverse language models and children's linguistic backgrounds. The book explores the contemporary perspectives on early bilingual education in light of the threefold theoretical framework of child's, teachers', and parents' agencies in interaction in preschool bilingual education. Five significant theoretical concepts are promoted in this volume: the ecology of language learning, an educational partnership for bilingualism, a notion of agency in early language development and education, language-conducive contexts, and language-conducive strategies. The volume examines preschool bilingual education as embedded in specific socio-cultural contexts on the one hand and highlights its universal features on the other. The book is a fundamental read for scholars and students of second language teaching, preschool education, and bilingual education in multilingual and multicultural societies.

The World's Oldest Alphabet Douglas Petrovich,2016 For about 150 years, scholars have attempted to identify the language of the world's first alphabetic script, and to translate some of the inscriptions that use it. Until now, their attempts have accomplished little more than identifying most of the pictographic letters and translating a few of the Semitic words. With the publication of The World's Oldest Alphabet, a new day has dawned. All of the disputed letters have been resolved, while the language has been identified conclusively as Hebrew, allowing for the translation of 16 inscriptions that date from 1842 to 1446 BC. It is the author's reading that these inscriptions expressly name three biblical figures (Asenath, Ahisamach, and Moses) and greatly illuminate the earliest Israelite history in a way that no other book has achieved, apart from the Bible.

The Origin of Evil Chuck Missler, When did Satan fall? We know that the angels were created prior to the Earth. We find Satan had already fallen in Genesis 3. The mystery is, when did he fall? It appears that there are substantial Scriptural references to his rebellion, his agenda, and the subsequent catastrophic judgment that ensued. This raises the whole issue of the origin of evil. And why hasn't God simply wiped him, and sin, out completely? It is also disturbing to recognize that Satan tempted Jesus by offering him the kingdom, power and the glory in the temptations recorded in Luke 5. How could Satan lay a legitimate claim to these?

Evolution: the Grand Experiment Dr. Carl Werner,Carl Werner,2007 Darwin's book on evolution admitted that intermediate links were perhaps the most obvious and serious objection to the theory of evolution. Darwin recognized that the fossils collected by scientists prior to 1859 did not correspond with his theory of evolution, but he predicted that his theory would be confirmed as more and more fossils were found. One hundred and fifty years later, Evolution: The Grand Experiment critically examines the viability of Darwin's theory--
