Star Wars Origami ,2012-08-07 Kids love origami—and what could be cooler than transforming a piece of paper into Boba Fett, Princess Leia, Yoda, or R2-D2? And not just any paper, but custom-designed paper illustrated with art from the movies. Star Wars® Origami marries the fun of paper folding with the obsession of Star Wars. Like *The Joy of Origami* and *Origami on the Go*, this book puts an original spin on an ancient art. And like Star Wars® *Scanimation*® and Star Wars® *Fandex*®, it's a fresh take on Star Wars mania. Chris Alexander is a master folder and founder of the popular website StarWarsOrigami.com, and here are 36 models, clearly explained, that range in difficulty from Youngling (easy) to Padawan (medium), Jedi Knight (difficult), and Jedi Master (tricky!). A front section introduces origami definitions and basic folds. Bound in the back is the book's unique folding paper, two sheets for each figure. Illustrated with original art, it makes each creation—the essential lightsabers, the Death Star, and much more—true to the movies. *Star Wars Origami* includes a foreword by Tom Angleberger, author of the New York Times bestsellers *The Strange Case of Origami Yoda* and *Darth Paper Strikes Back*, and is scheduled to be published at the same time as Angleberger's upcoming book, *The Secret of the Fortune Wookiee*.

Introductory Grammar of Amharic Wolf Leslau,2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists.

The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

A Call to Duty David Weber, Timothy Zahn, 2014-09-16 Growing up, Travis Uriah Long yearned for order and discipline in his life . . . the two things his neglectful mother couldn't or wouldn't provide. So when Travis enlisted in the Royal Manticoran Navy, he thought he'd finally found the structure he'd always wanted so desperately. But life in the RMN isn't exactly what he expected. Boot camp is rough and frustrating; his first ship assignment lax and disorderly; and with the Star Kingdom of Manticore still recovering from a devastating plague, the Navy is possibly on the edge of budgetary extinction. The Star Kingdom is a minor nation among the worlds of the Diaspora, its closest neighbors weeks or months away, with little in the way of resources. With only modest interstellar trade, no foreign contacts to speak of, a plague-ravaged economy to rebuild, and no enemies looming at the hyper limit, there are factions in Parliament who want nothing more than to scrap the Navy and shift its resources and manpower elsewhere. But those factions are mistaken. The universe is not a safe place. Travis Long is about to find that out. At the publisher's request, this title is sold without DRM (Digital Rights Management). About *A Call to Duty*: A new series set in the universe of Webers popular heroine Honor Harrington gets off to a solid start. . . . Cowriters Zahn and Weber do an excellent job alluding to events known to longtime fans. . . . [T]his astronomical adventure is filled with . . . intrigue and political drama. Publishers Weekly About the Honor Harrington series: Weber combines realistic, engaging characters with intelligent technological projection and a deep understanding of military bureaucracy in this long-awaited Honor Harrington novel. Fans of this venerable space opera will rejoice to see Honor back in action. Publishers Weekly . . . everything you could want in a heroine. Excellent. plenty of action. Science Fiction Age Brilliant! Brilliant! Brilliant! Anne McCaffrey Compelling combat combined with engaging characters for a great space opera adventure. Locus Weber combines realistic, engaging characters with intelligent technological projection . . . Fans of this venerable space opera will rejoice . . . Publishers Weekly About Timothy Zahn: Zahn keeps the story moving at a breakneck pace, maintaining excitement. Publishers Weekly [Y]ou can count on Timothy Zahn for three things: clean, sparse prose; good pacing; and great action scenes. The first book in the Cobra War series hits all those marks in admirable style and makes for a quick, entertaining sci-fi novel. Blogcritics [Conqueror's Heritage] is another finely wrought space adventure . . . [with] social, political and emotional complications, all of which Zahn treats with his usual skill. Booklist Zahn paints every detail [in *Angelmass*] with gleamy realism . . . scientific dialogue that streams with starship hardware and military trooper talk . . . immensely appealing. Kirkus Review

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Water+Ink Coloring Book Winter 2020 Kim Winberry, 2019-07-22 I begin my paintings with a sketch and application of colorful/bright pigment and water to the paper. I disrupt the blends with salt or water, watching as one color blossoms in water, as another color starts to travel across the paper. I utilize India Ink to demarcate changes, also adding swirls other artifacts, in the aim to achieve whimsy. My coloring books are my paintings! I run the paintings through filters and drop the color from them, leaving the lines so that you can add your own color. But wait, there's more... I've added an Augmented Reality component to this. Wonder what colors I used for that piece in the corner there? Take out your phone, download the Zappar app from your app store and zap the code. What happens? At the very least an image of the original painting will pop up and you can see what it looks like, side by side with the coloring page. Beyond that, you'll meet Mist, my

liaison to the AR world. She will be a recurring character in all my AR work. Stay tuned and enjoy.
