Original Grin Ron English,2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often

unsettling imagery. He coined the term POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie Supersize Me; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on The Simpsons secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.

Rosie Revere, Engineer Andrea Beaty, 2013-09-03 New York Times Bestseller Rosie may seem quiet during the day, but at night she's a brilliant inventor of gizmos and gadgets who dreams of becoming a great engineer. When her great-great-aunt Rose (Rosie the Riveter) comes for a visit and mentions her one unfinished goal—to fly—Rosie sets to work building a contraption to make her aunt's dream come true. But when her contraption doesn't fly but rather hovers for a moment and then crashes, Rosie deems the invention a failure. On the contrary, Aunt Rose insists that Rosie's contraption was a raging success: you can only truly fail, she explains, if you quit. From the powerhouse author-illustrator team of Iggy Peck, Architect comes Rosie

Revere, Engineer, another charming, witty picture book about believing in yourself and pursuing your passion. Ada Twist, Scientist, the companion picture book featuring the next kid from Iggy Peck's class, is available in September 2016.!--?xml:namespace prefix = o ns = urn:schemas-microsoft-com:office:office /-- Praise for Rosie Revere, EngineerComically detailed mixed-media illustrations that keep the mood light and emphasize Rosie's creativity at every turn.—Publishers Weekly The detritus of Rosie's collections is fascinating, from broken dolls and stuffed animals to nails, tools, pencils, old lamps and possibly an erector set. And cheddar-cheese spray. —Kirkus Reviews This celebration of creativity and perseverance is told through rhyming text, which gives momentum and steady pacing to a story, consistent with the celebration of its heroine, Rosie. She's an imaginative thinker who hides her light under a bushel (well, really, the bed) after being laughed at for one of her inventions. —Booklist Award 2013 Parents' Choice Award - GOLD 2014 Amelia Bloomer Project List ReadBoston's Best Read Aloud Book

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's

book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Say It With Paper Hattie Newman, 2018-08-07 There are many things you can do with paper but what can paper do for you? Discover paper's true potential with this book full of exciting projects that enable you to discover new paper arts, such as pop ups, papercuts and 3-D shapes. Learn how paper can be used to communicate ideas, how it can be photographed and lit to great effect and even how it can be animated. Develop skills in construction, tessellation, model making and scene creating, while also working with scale and moving parts. Paper has never been more fun and more intriguing. Projects include: animal masks, ice creams, shadow puppets, tropical island, Ferris wheel, 3-D pig, car, lantern, geometric mobile, paper food, pop-up greetings card, paper theatre, giant pencil, and many more.

From Cave Man to Cave Martian Manfred "Dutch" von Ehrenfried, 2019-04-05 This book explores the practicality of using the existing subsurface geology

on the Moon and Mars for protection against radiation, thermal extremes, micrometeorites and dust storms rather than building surface habitats at great expense at least for those first few missions. It encourages NASA to plan a precursor mission using this concept and employ a "Short Stay" Opposition Class mission to Mars as the first mission rather than the "Long Stay" concept requiring a mission that is too long, too dangerous and too costly for man's first missions to Mars. Included in these pages is a short history on the uses of caves by early humans over great periods of time. It then describes the ongoing efforts to research caves, pits, tunnels, lava tubes, skylights and the associated technologies that pertain to potential lunar and Mars exploration and habitation. It describes evidence for existing caves and lava tubes on both the Moon and Mars. The work of noted scientists, technologists and roboticists are referenced and described. This ongoing work is more extensive than one would think and is directly applicable to longer term habitation and exploration of the Moon and Mars. Emphasis is also given to the operational aspects of working and living in lunar and Martian caves and lava tubes.

Goodnight Dune Julia Yu, 2021-09-16 In a great green room, tucked away in bed, a young bunny gazes upon the two remaining moons of Arrakis... This book is inspired by Frank Herbert's 1965 science fiction novel *Dune*. Many of the visual motifs come from the 1984 David Lynch movie adaptation of *Dune*, and drawn in the style of Margaret Wise Brown / Clement Hurd's classic children's

book Goodnight Moon. Originally created in 2011, (finally) updated in 2021.

Mogworld Yahtzee Croshaw, 2018-05-29 In a world full to bursting with would-be heroes, Jim couldn't be less interested in saving the day. His fireballs fizzle. He's awfully grumpy. Plus, he's been dead for about sixty years. When a renegade necromancer wrenches him from eternal slumber and into a world gone terribly, bizarrely wrong, all Jim wants is to find a way to die properly, once and for all. On his side, he's got a few shambling corpses, an inept thief, and a powerful death wish. But he's up against tough odds: angry mobs of adventurers, a body falling apart at the seams – and a team of programmers racing a deadline to hammer out the last few bugs in their AI.

*Mogworld is the debut novel from video-game icon Yahtzee Croshaw (Zero Punctuation)! With an exclusive one-chapter preview of Yahtzee Croshaw's next novel, Jam—coming to bookstores in October 2012! *Ben Yahtzee Croshaw's video review site, Zero Punctuation, receives over 2,500,000 unique hits a month, and has been licensed by G4 Television. *Yahtzee's blog receives about 150,000 hits per day. The first legitimate breakout hit from the gaming community in recent memory. -Boing Boing

Room 555 Cristy Watson, 2019-01-29 Fourteen-year-old Rooney loves hip-hop almost as much as she loves her grandmother. Rooney cannot wait to compete in her school's dance competition. But as her grandmother's health deteriorates, Rooney becomes more and more reluctant to visit her in the care home. These feelings of guilt and frustration cause Rooney to mess things up with her

hip-hop dance partner and best friend, Kira. But while doing some volunteer hours in the hospital geriatric ward, Rooney meets an active senior recovering from a bad fall. Their shared love of dance and the woman's zest for life help Rooney face her fears, make amends with Kira and reconnect with Gram before it's too late.

Mordin on Time Nick Mordin, 2003-02 In Mordin On Time, Nick Mordin sets out his method for answering the most fundamental question facing punters in any race, namely: which is the fastest horse? He was timing the sections of races with a stop watch, estimating wind strength and direction, adjusting for movements of running rails, using projected times and calculating average times years before the best-selling American books on speed rating were published. This new edition incorporates much new material, including standard times for all Irish racecourses (plus the major French ones). Mordin On Time enables the reader to construct their own speed ratings wherever they live.

Medical Anthropology Andrea S. Wiley, John Scott Allen, 2013 An ideal core text for introductory courses, Medical Anthropology: A Biocultural Approach, Second Edition, offers an accessible and contemporary overview of this rapidly expanding field. For each health issue examined in the text, the authors first present basic biological information on specific conditions and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives on how these issues are understood. Medical

Anthropology considers how a biocultural approach can be applied to more effective prevention and treatment efforts and underscores medical anthropology's potential to improve health around the world.

Slave Stealers Timothy Ballard, 2018 Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day underground railroad which has rescued hundreds of children from being fully

enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The Conductor; Abraham Lincoln--the Great Emancipator; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.
