**Music in Cinema** Michel Chion, 2021-10-12 Michel Chion is renowned for his explorations of the significance of frequently overlooked elements of cinema, particularly the role of sound. In this inventive and inviting book, Chion considers how cinema has deployed music. He shows how music and film not only complement but also transform each other. The first section of the book examines film music in historical perspective, and the second section addresses the theoretical implications of the crossover between art forms. Chion discusses a vast variety of films across eras, genres, and continents, embracing all the different genres of music that filmmakers have used to tell their stories. Beginning with live accompaniment of silent films in early movie houses, the book analyzes Al Jolson's performance in *The Jazz Singer*, the zither in *The Third Man*, Godard's patchwork sound editing, the synthesizer welcoming the flying saucer in *Close Encounters of the Third Kind*, and the Kinshasa orchestra in *Félicité*, among many more. Chion considers both original scores and incorporation of preexisting works, including the use and reuse of particular composers across cinematic traditions, the introduction of popular music such as jazz and rock, and directors' attraction to atonal and dissonant music as well as *musique concrète*, of which he is a composer. Wide-ranging and original, *Music in Cinema* offers a welcoming overview for students and general readers as well as refreshingly new and valuable perspectives for film scholars.

It also examines the context of the film's production; its reception and critical readings are examined.

*The Education of Henry Adams* Henry Adams, 2018-08-28 The Education of Henry Adams is an autobiography that records the struggle of Bostonian Henry Adams (1838-1918), in his later years, to come to terms with the dawning 20th century, so different from the world of his youth. It is also a sharp critique of 19th-century educational theory and practice. In 1907, Adams began privately circulating copies of a limited edition printed at his own expense. Commercial publication of the book had to await its author's 1918 death, whereupon it won the 1919 Pulitzer Prize. The Modern Library placed it first in a list of the top 100 English-language nonfiction books of the 20th century.

**Art-based Research** Shaun McNiff, 1998 Art therapy and all of the other creative arts therapies have promoted themselves as ways of expressing what cannot be conveyed in conventional language. Why is it that creative arts therapists fail to apply this line of thinking to research? In this exciting and innovative book, Shaun McNiff, one of the field's pioneering educators and authors, breaks new ground in defining and inspiring art-based research. He illustrates how practitioner-researchers can become involved in art-based inquiries during their educational studies and throughout their careers, and shows how new types of research can be created that resonate with the artistic process. Clearly and cogently expressed, the theoretical arguments are illustrated by numerous case examples, and the final part of the book provides a wealth of ideas and thought provoking questions for research. This challenging book will prove invaluable to creative art therapy educators, students, and clinicians who wish to approach artistic inquiry as a way of conducting research. It will also find a receptive audience within the larger research community where there is a rising commitment to expanding the theory and practice of research. Integrating artistic and scientific procedures in many novel ways, this book offers fresh and productive visions of what research can be.
