The People's Book Jennifer Powell McNutt, David Lauber, 2017-04-11 Five hundred years ago, Martin Luther's Ninety-Five Theses caught Europe by storm and initiated the Reformation, which fundamentally transformed both the church and society. Yet by Luther's own estimation, his translation of the Bible into German was his crowning achievement. The Bible played an absolutely vital role in the lives, theology, and practice of the Protestant Reformers. In addition, the proliferation and diffusion of vernacular Bibles—grounded in the original languages, enabled by advancements in printing, and lauded by the theological principles of sola Scriptura and the priesthood of all believers—contributed to an ever-widening circle of Bible readers and listeners among the people they served. This collection of essays from the 2016 Wheaton Theology Conference—the 25th anniversary of the conference—brings together the reflections of church historians and theologians on the nature of the Bible as the people's book. With care and insight, they explore the complex role of the Bible in the Reformation by considering matters of access, readership, and authority, as well as the Bible's place in the worship context, issues of theological interpretation, and the role of Scripture in creating both division and unity within Christianity. On the 500th anniversary of this significant event in the life of the church, these essays point not only to the crucial role of the Bible during the Reformation era but also its ongoing importance as the people's book today.

Introductory Grammar of Amharic Wolf Leslau, 2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

Chicken 20 Ways America's Test Kitchen, 2020-04-28 This collection is packed with 20 easy-to-make recipes that rely on little more than chicken and pantry staples. You'll learn how a few flavor-packed ingredients can transform humble chicken into the star of the dinner table. Take our spice-cabinet chicken recipes, which will simplify your grocery shopping—just raid your spice cabinet for three delicious takes on roast whole chicken. Or how about Southern-Style Stewed Chicken and Rice, a comforting one-pot meal that features rice plumped with flavored stock and tossed with tender pieces of shredded chicken? Chicken Mole Poblano surprisingly depends on pantry essentials such as dried chiles, nuts, a handful of common dried herbs and spices, and a bit of chocolate for its deeply complex flavor.

Designing with Smell Victoria Henshaw, Kate McLean, Dominic Medway, Chris Perkins, Gary Warnaby, 2017-10-05 *Designing with Smell* aims to inspire readers to actively consider smell in their work through the inclusion of case studies from around the world, highlighting the current use of smell in different cutting-edge design and artistic practices. This book provides practical guidance regarding different equipment, techniques, stages and challenges which might be encountered as part of this process. Throughout the text there is an emphasis on spatial design in numerous forms and interpretations – in the street, the studio, the theatre or exhibition space, as well as the representation of spatial relationships with smell. Contributions, originate across different geographical areas, academic disciplines and professions. This is crucial reading for students, academics and practitioners working in olfactory design.

The Cambridge Companion to Miracles Graham H. Twelftree, 2011 The miracle stories of the founders and saints of the major world religions have much in common. Written by international experts, this Companion provides an authoritative and comparative study of miracles in not only Hinduism, Islam, Buddhism, Christianity and Judaism, but also, indigenous religions. The authors promote a discussion of the problems of miracles in our largely secular culture, and of the value of miracles in religious belief. The miracles of Jesus are also contextualized through chapters on the Hebrew Bible, classical culture to the Romans, Second Temple and early rabbinic Judaism and early Christianity. This book provides students with a scholarly introduction to miracles, which also covers philosophical, medical and historical issues--

Manga Vision Sarah E. Pasfield-Neofitou, Cathy Sell, 2016 *Manga Vision* examines cultural and communicative aspects of Japanese comics, drawing together scholars from Japan, Australia and Europe working in areas as diverse as cultural studies, linguistics, education, music, art, anthropology, and translation, to explore the influence of manga in Japan and worldwide via translation, OEL manga and fan engagement. The volume includes a mix of theoretical, methodological, empirical and professional practice-based chapters, examining manga from both academic and artistic perspectives. *Manga Vision* also provides the reader with a multimedia experience, featuring original artwork by Australian manga artist Queenie Chan, cosplay photographs, and an online supplement offering musical compositions inspired by manga, and

downloadable manga-related teaching resources.

Indian Court Painting, 16th-19th Century Steven Kossak, 1997 A catalogue to accompany an exhibit held at the museum from March to July 1997. Kossak, associate curator of Asian art at the museum, offers an introductory essay. Distributed in the US by Harry N. Abrams. Annotation copyrighted by Book News, Inc., Portland, OR

Citizens of Two Kingdoms: Civil Society and Christian Religion in Greater China Shun-hing Chan, Jonathan W. Johnson, 2021-04-06 This book examines the complex relationships of civil society and Christianity in Greater China. Different authors investigate to what extent Christians demonstrate the quality of civic virtues and reflect on the difficulties of applying civil society theories to Chinese societies.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Gods, Guardians, and Lovers Vishakha N. Desai, Darielle Mason, 1993 Celestial lovers, guardian deities, gods, goddesses, semidivine and human forms bedeck the magnificent, elaborately sculpted medieval temples of northern India. This handsome catalog of an exhibition at the Asia Society in New York City explains that each temple, rich in symbolism and sacred geometry, was viewed as a microcosmic model of cosmic creation and order. Led by Desai, director of the Asia Society Galleries, and Mason of Boston's Museum of Fine Arts, six scholars discuss the historical background, patterns of royal patronage, architectural placement of images and Hindu stories and hymns as keys to the cult of temple images and to the medieval worship service, an elaborate multisensory experience. Nearly 200 color and black-and-white plates document a major architectural and sculptural legacy.

The Art of Ancient India Susan L. Huntington, John C. Huntington, 2014-01-01 To scholars in the field, the need for an up-to-date overview of the art of South Asia has been apparent for decades. Although many regional and dynastic genres of Indic art are fairly well understood, the broad, overall representation of India's centuries of splendor has been lacking. The Art of Ancient India is the result of the author's aim to provide such a synthesis. Noted expert Sherman E. Lee has commented: "Not since Coomaraswamy's History of Indian and Indonesian Art (1927) has there been a survey of such completeness." Indeed, this work restudies and reevaluates every frontier of ancient Indic art _ from its prehistoric roots up to the period of Muslim rule, from the Himalayan north to the tropical south, and from the earliest extant writing through the most modern scholarship on the subject. This dynamic survey-generously complemented with 775 illustrations, including 48 in full color and numerous architectural ground plans, and detailed maps and fine drawings, and further enhanced by its guide to Sanskrit, copious notes, extensive bibliography, and glossary of South Asian art terms-is the most comprehensive and most fully illustrated study of South Asian art available. The works and monuments included in this volume have been selected not only for their artistic merit but also in order to both provide general coverage and include transitional works that furnish the key to an all encompassing view of the art. An outstanding portrayal of ancient India's highest intellectual and technical achievements, this volume is written for many audiences: scholars, for whom it provides an up-to-date background against which to examine their own areas of study; teachers and students of college level, for whom it supplies a

complete summary of and a resource for their own deeper investigations into Indic art; and curious readers, for whom it gives a broad-based introduction to this fascinating area of world art.

Russian San Francisco Lydia B. Zaverukha, Nina Bogdan, 2009-12-01 Even before San Francisco was founded as a city, Russian visitors, explorers, and scientists sailed to the area and made contact with both the indigenous people and representatives of the Spanish government. Although the Russian commercial colony of Fort Ross closed in 1842, the Russian presence in San Francisco continued and the community expanded to include churches, societies, businesses, and newspapers. Some came seeking opportunity, while others were fleeing religious or political persecution. In the 1920s, San Francisco's Russian population grew exponentially as refugees of the Russian Revolution and civil war arrived, and by the 1950s, a vibrant and culturally rich Russian A(c)migrA(c) community was thriving in San Francisco. Today the 75,000 Russian speakers who live in the San Francisco Bay Area continue to pass on their heritage to their children.

Predestination & Free Will David Basinger, Randall Basinger, 2009-09-20 If God is in control, are people really free? This question has bothered Christians for centuries. And answers have covered a wide spectrum. Today Christians still disagree. Those who emphasize human freedom view it as a reflection of God's self-limited power. Others look at human freedom in the order of God's overall control. David and Randall Basinger have put this age-old question to four scholars trained in theology and philosophy. John Feinberg of Trinity Evangelical Divinity School and Norman Geisler of Dallas Theological Seminary focus on God's specific sovereignty. Bruce Reichenbach of Augsburg College and Clark Pinnock of McMaster Divinity College insist that God must limit his control to ensure our freedom. Each writer argues for his perspective and applies his theory to two practical case studies. Then the other writers respond to each of the major essays, exposing what they see as fallacies and hidden assumptions. A lively and provocative volume.
