The Dictator's Seduction Lauren H. Derby,2009-07-17 The dictatorship of Rafael Trujillo, who ruled the Dominican Republic from 1930 until his assassination in 1961, was one of the longest and bloodiest in Latin American history. *The Dictator's Seduction* is a cultural history of the Trujillo regime as it was experienced in the capital city of Santo Domingo. Focusing on everyday forms of state domination, Lauren Derby describes how the regime infiltrated civil society by fashioning a “vernacular politics” based on popular idioms of masculinity and fantasies of race and class mobility. Derby argues that the most pernicious aspect of the dictatorship was how it appropriated quotidian practices such as gossip and gift exchange, leaving almost no place for Dominicans to hide or resist. Drawing on previously untapped documents in the Trujillo National Archives and interviews with Dominicans who recall life under the dictator, Derby emphasizes the role that public ritual played in Trujillo's exercise of power. His regime included the people in affairs of state on a massive scale as never before. Derby pays particular attention to how events and projects were received by the public as she analyzes parades and rallies, the rebuilding of Santo Domingo following a major hurricane, and the staging of a year-long celebration marking the twenty-fifth year of Trujillo's regime. She looks at representations of Trujillo, exploring how claims that he embodied the popular barrio antihero the tiguere (tiger) stoked a fantasy of upward mobility and how a rumor that he had a personal guardian angel suggested he was uniquely protected from his enemies. *The Dictator's Seduction* sheds new light on the cultural contrivances of autocratic power.

Cruelty and Utopia Jean-François Lejeune,2005-02-03 This landmark collection of illustrated essays explores the vastly underappreciated history of America's other cities -- the great metropolises found south of our borders in Central and South America. Buenos Aires, So Paulo, Mexico City, Caracas, Havana, Santiago, Rio, Tijuana, and Quito are just some of the subjects of this diverse collection. How have desires to create modern societies shaped these cities, leading to both architectural masterworks (by the likes of Luis Barragn, Juan O'Gorman, Lcio Costa, Roberto Burle Marx, Carlos Ral Villanueva, and Lina Bo Bardi) and the most shocking favelas? How have they grappled with concepts of national identity, their colonial history, and the continued demands of a globalized economy? Lavishly illustrated, *Cruelty and Utopia* features the work of such leading scholars as Carlos Fuentes,

Edward Burian, Lauro Cavalcanti, Fernando Oayrzn, Roberto Segre, and Eduardo Subirats, along with artwork ranging from colonial paintings to stills from Chantal Akerman's film *From the Other Side*. Also included is a revised translation of Spanish King Philip II's influential planning treatise of 1573, the *Laws of the Indies*, which did so much to define the form of the Latin American city.

**The Meritocracy Trap** Daniel Markovits, 2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort. Even as the country divides itself at every turn, the meritocratic ideal – that social and economic rewards should follow achievement rather than breeding – reigns supreme. Both Democrats and Republicans insistently repeat meritocratic notions. Meritocracy cuts to the heart of who we are. It sustains the American dream. But what if, both up and down the social ladder, meritocracy is a sham? Today, meritocracy has become exactly what it was conceived to resist: a mechanism for the concentration and dynastic transmission of wealth and privilege across generations. Upward mobility has become a fantasy, and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite. At the same time, meritocracy now ensnares even those who manage to claw their way to the top, requiring rich adults to work with crushing intensity, exploiting their expensive educations in order to extract a return. All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes. This is the radical argument that Daniel Markovits prosecutes with rare force. Markovits is well placed to expose the sham of meritocracy. Having spent his life at elite universities, he knows from the inside the corrosive system we are trapped within. Markovits also knows that, if we understand that meritocratic inequality produces near-universal harm, we can cure it. When *The Meritocracy Trap* reveals the inner workings of the meritocratic machine, it also illuminates the first steps outward, towards a new world that might once again afford dignity and prosperity to the American people.

**Birds Through an Opera Glass ...** Florence Merriam Bailey, 1900

**Hola, amigos!** Ana C. Jarvis, 2014

*Searching the Heavens and the Earth* Agustin UDIAS, 2013-04-17 Jesuits established a large number of astronomical, geophysical and meteorological observatories during the 17th and 18th centuries and again during the 19th and 20th centuries throughout the world. The history of these observatories has never been published in a complete form. Many early European astronomical observatories were established in Jesuit colleges.

During the 17th and 18th centuries Jesuits were the first western scientists to enter into contact with China and India. It was through them that western astronomy was first introduced in these countries. They made early astronomical observations in India and China and they directed for 150 years the Imperial Observatory of Beijing. In the 19th and 20th centuries a new set of observatories were established. Besides astronomy these now included meteorology and geophysics. Jesuits established some of the earliest observatories in Africa, South America and the Far East. Jesuit observatories constitute an often forgotten chapter of the history of these sciences.

Portrait of a Young Painter Mary Kay Vaughan,2015-02-16 In *Portrait of a Young Painter*, the distinguished historian Mary Kay Vaughan adopts a biographical approach to understanding the culture surrounding the Mexico City youth rebellion of the 1960s. Her chronicle of the life of painter Pepe Zúñiga counters a literature that portrays post-1940 Mexican history as a series of uprisings against state repression, injustice, and social neglect that culminated in the student protests of 1968. Rendering Zúñiga's coming of age on the margins of formal politics, Vaughan depicts midcentury Mexico City as a culture of growing prosperity, state largesse, and a vibrant, transnationally-informed public life that produced a multifaceted youth movement brimming with creativity and criticism of convention. In an analysis encompassing the mass media, schools, politics, family, sexuality, neighborhoods, and friendships, she subtly invokes theories of discourse, phenomenology, and affect to examine the formation of Zúñiga's persona in the decades leading up to 1968. By discussing the influences that shaped his worldview, she historicizes the process of subject formation and shows how doing so offers new perspectives on the events of 1968.

After Fidel Brian Latell,2014-11-25 This is a compelling behind-the-scenes account of the extraordinary Castro brothers and the dynastic succession of Fidel's younger brother Raul. Brian Latell, the CIA analyst who has followed Castro since the sixties, gives an unprecedented view into Fidel and Raul's remarkable relationship, revealing how they have collaborated in policy making, divided responsibilities, and resolved disagreements for more than forty years--a challenge to the notion that Fidel always acts alone. Latell has had more access to the brothers than anyone else in this country, and his briefs to the CIA informed much of U.S. policy. Based on his knowledge of Raul Castro, Latell makes projections on what kind of leader Raul will be and how the shift in power might influence U.S.-Cuban relations.

A Horizon of (im)possibilities Katerina Hatzikidi,Eduardo Dullo,2021 The 2018 presidential election result in Brazil surprised and shocked many.

Since then, numerous debates and a growing body of texts have attempted to understand the country's so-called 'conservative turn'. A gripping in-depth account of politics and society in Brazil today, this new volume brings together a myriad of different perspectives to help us better understand the political events that shook the country in recent years. Combining ethnographic insights with political science, history, sociology, and anthropology, the interdisciplinary analyses included offer a panoramic view on social and political change in Brazil, spanning temporal and spatial dimensions. Starting with the 2018 presidential election, the contributors discuss the country's recent -or more distant- past in relation to the present. Pointing to the continuities and disruptions in the course of those years, the analyses offered are an invaluable guide to unpacking and understanding the limits of Brazilian democracy, including what has already come to pass, but also what is yet to come.

**Dimensions of the Americas** Shifra M. Goldman, 1995 This volume presents an overview of the social history of modern and contemporary Latin American and Latino art. This collection of thirty-three essays focuses on Latin American artists throughout Mexico, Central and South America, the Caribbean, and the United States. The author provides a chronology of modern Latin American art; a history of social art history in the United States; and synopses of recent theoretical and historical writings by major scholars from Mexico, Cuba, Brazil, Peru, Uruguay, Chile, and the United States. In her essays, she discusses a vast array of topics including: the influence of the Mexican muralists on the American continent; the political and artistic significance of poster art and printmaking in Cuba, Puerto Rico, and among Chicanos; the role of women artists such as Guatemalan painter Isabel Ruiz; and the increasingly important role of politics and multinational businesses in the art world of the 1970s and 1980s. She explores the reception of Latin American and Latino art in the United States, focusing on major historical exhibits as well as on exhibits by artists such as Chilean Alfredo Jaar and Argentinean Leandro Katz. Finally, she examines the significance of nationalist and ethnic themes in Latin American and Latino art.

**The Legacy of Christopher Columbus in the Americas** Elise Bartosik-Velez, 2021-04-30 Why is the capital of the United States named in part after Christopher Columbus, a Genoese explorer commissioned by Spain who never set foot on what would become the nation's mainland? Why did Spanish American nationalists in 1819 name a new independent republic Colombia, after Columbus, the first representative of the empire from which they had recently broken free? These are only two of the introductory questions explored in *The Legacy of Christopher Columbus in the Americas*, a fundamental recasting of Columbus as an eminently powerful tool in imperial constructs. Bartosik-Velez seeks to explain the meaning of Christopher Columbus

throughout the so-called New World, first in the British American colonies and the United States, as well as in Spanish America, during the eighteenth and nineteenth centuries. She argues that during the pre- and post-revolutionary periods, New World societies commonly imagined themselves as legitimate and powerful independent political entities by comparing themselves to the classical empires of Greece and Rome. Columbus, who had been construed as a figure of empire for centuries, fit perfectly into that framework. By adopting him as a national symbol, New World nationalists appeal to Old World notions of empire.

**Ecotourism and Conservation in the Americas** Amanda Stronza, William H. Durham, 2008 Ecotourism has been credited with conserving biological and cultural diversity, alleviating rural poverty, increasing public awareness of environmental concerns and strengthening ties between tourism operators and local populations. For these reasons, ecotourism has grown in popularity with tourists as well as governmental development agencies and conservation organizations. Over twenty years after its inception, it now needs to be asked: Does ecotourism measure up to its environmental, social and economic ideals? Using detailed case studies, regional overviews and thematic analyses, *Ecotourism and Conservation in the Americas* evaluates the pros and cons of ecotourism for communities and ecosystems. Focusing particularly on the Americas, perspectives are drawn from private tour operators, non-governmental conservation and development organizations, local and indigenous communities and tourism researchers. Chapters discuss local benefits and conservation value through discussions of social impacts, the assessment of conservation potential, environmental education and the setting and maintaining of standards.

**War Against All Puerto Ricans** Nelson Denis, 2015-04-07 In 1950, after over fifty years of military occupation and colonial rule, the Nationalist Party of Puerto Rico staged an unsuccessful armed insurrection against the United States. Violence swept through the island: assassins were sent to kill President Harry Truman, gunfights roared in eight towns, police stations and post offices were burned down. In order to suppress this uprising, the US Army deployed thousands of troops and bombarded two towns, marking the first time in history that the US government bombed its own citizens. Nelson A. Denis tells this powerful story through the controversial life of Pedro Albizu Campos, who served as the president of the Nationalist Party. A lawyer, chemical engineer, and the first Puerto Rican to graduate from Harvard Law School, Albizu Campos was imprisoned for twenty-five years and died under mysterious circumstances. By tracing his life and death, Denis shows how the journey of Albizu Campos is part of a larger story of Puerto Rico

and US colonialism. Through oral histories, personal interviews, eyewitness accounts, congressional testimony, and recently declassified FBI files, *War Against All Puerto Ricans* tells the story of a forgotten revolution and its context in Puerto Rico's history, from the US invasion in 1898 to the modern-day struggle for self-determination. Denis provides an unflinching account of the gunfights, prison riots, political intrigue, FBI and CIA covert activity, and mass hysteria that accompanied this tumultuous period in Puerto Rican history.

**Santería Enthroned** David H. Brown, 2021-10-24 Ever since its emergence in colonial-era Cuba, Afro-Cuban Santería (or Lucumí) has displayed a complex dynamic of continuity and change in its institutions, rituals, and iconography. Originally published in 2003 *Santería Enthroned* combines art, history, cultural anthropology, and ethnohistory to show how Africans and their descendants have developed novel forms of religious practice in the face of relentless oppression. Focusing on the royal throne as a potent metaphor in Santería belief and practice it shows how negotiations among ideologically competing interests have shaped the religion's symbols, rituals, and institutions from the nineteenth century to the present. Rich case studies of change in Cuba and the United States, including a New Jersey temple and South Carolina's Oyotunji Village, reveal patterns of innovation similar to those found among rival Yoruba kingdoms in Nigeria. Throughout, the book argues for a theoretical perspective on culture as a field of potential strategies and usable pasts that actors draw upon to craft new forms and identities – a perspective that will be invaluable to all students of the African Diaspora.

Drawn from the Antique Adriano Aymonino,Anne Varick Lauder,Eloisa Doderer,Rachel Hapoienu,Ian Dennis Jenkins,Jerzy Kierkuc-Bielinski,Michiel Plomp,Jonathan Yarker,Sir John Soane's Museum,2015 This catalogue examines one of the most important educational tools and sources of inspiration for Western artists for over five hundred years: drawing after the Antique. From the Renaissance to the 19th century, classical statues offered young artists idealised models from which they could learn to represent the volumes, poses and expressions of the human figure and which, simultaneously, provided perfected examples of anatomy and proportion. For established artists, antique statues and reliefs presented an immense repertory of forms that they could use as inspiration for their own creations. Through a selection of thirty-nine drawings, prints and paintings, covering more than four hundred years and by artists as different as Federico Zuccaro, Hendrick Goltzius, Peter Paul Rubens, Charles-Joseph Natoire, Henry Fuseli and Joseph Mallord William Turner, this catalogue provides the first overview of a phenomenon crucial for the understanding and appreciation of European art.--
