Mirror of the World Julian Bell, 2010-05-25 “Exuberant, astute, and splendidly illustrated history of world art . . . draws fascinating parallels between artistic developments in Western and non-Western art.”—Publishers Weekly In this beautifully written story of art, Julian Bell tells a vivid and compelling history of human artistic achievements, from prehistoric stone carvings to the latest video installations. Bell, himself a painter, uses a variety of objects to reveal how art is a product of our shared experience and how, like a mirror, it can reflect the human condition. With hundreds of illustrations and a uniquely global perspective, Bell juxtaposes examples that challenge and enlighten the reader: dancing bronze figures from southern India, Romanesque sculptures, Baroque ceilings, and jewel-like Persian manuscripts are discussed side by side. With an insider’s knowledge and an unerring touch, Bell weaves these diverse strands into an invaluable introduction to the wider history of world art.

Saul Bass Jan-Christopher Horak, 2014-11-18 Iconic graphic designer and Academy Award–winning filmmaker Saul Bass (1920–1996) defined an innovative era in cinema. His title sequences for films such as Otto Preminger's *The Man with the Golden Arm* (1955) and *Anatomy of a Murder* (1959), Alfred Hitchcock's *Vertigo* (1958) and *North by Northwest* (1959), and Billy Wilder's *The Seven Year Itch* (1955) introduced the idea that opening credits could tell a story, setting the mood for the movie to follow. Bass's stylistic influence can be seen in popular Hollywood franchises from the *Pink Panther* to *James Bond*, as well as in more contemporary works such as Steven Spielberg's *Catch Me If You Can* (2002) and television's *Mad Men*. The first book to examine the life and work of this fascinating figure, *Saul Bass: Anatomy of Film Design* explores the designer's revolutionary career and his lasting impact on the entertainment and advertising industries. Jan-Christopher Horak traces Bass from his humble beginnings as a self-taught artist to his professional peak, when auteur directors like Stanley Kubrick, Robert Aldrich, and Martin Scorsese sought him as a collaborator. He also discusses how Bass incorporated aesthetic concepts borrowed from modern art in his work, presenting them in a new way that made them easily recognizable to the public. This long-overdue book sheds light on the creative process of the undisputed master of film title design—a man whose multidimensional talents and unique ability to blend high art and commercial imperatives profoundly influenced generations of filmmakers, designers, and advertisers.

Modernist Idealism Michael J. Subialka, 2021 *Modernist Idealism* develops a framework for understanding modernist production as the artistic realization of philosophical concepts elaborated in German idealism.

Take Her, She's Yours Eva-Lynn Jagoe, 2020-04-27 We say, you belong to me, or I belong to you. But is it possible to be possessed by others? And can we ever possess ourselves? In this raw and intimate account, Eva-Lynn Jagoe merges memoir with critical theory as she recounts the unraveling of everything she thought she knew about selfhood, relationships, and desire. Through the story of an upbringing in a patriarchal Spanish and American household, a dissociative and painful relationship towards men and power, and a chaotic marriage and divorce, she interrogates the destructive fantasy of possessive individualism that permeates our psyches and our cultural expectations. Woven through this narrative is an account of the unique relationship that Jagoe has with her psychoanalyst, in which she works through her tendency to give herself away to others, and learns to navigate the many contradictory selves that we all hold within us. This journey leads her to an enriched understanding of self-possession. Jagoe's account of an examined life is inseparable from her commitment to the psychoanalytic, feminist, and queer theories that sustain and nourish her in her search for an expanded definition of self. Jagoe's unique blend of musings and reflections on literature, fairy tale, and culture; her willingness to delve into abjection and contradictory desires; and her honest portrayal of the realities of psychoanalysis allow for a timely exploration of gender, sex, and power. *Take Her, She's Yours* belongs in the company of Eve Kosofsky Sedgwick's *A Dialogue on Love* and the memoirs of Maggie Nelson, Rachel Cusk, and Lidia Yuknavitch. It engrossingly conveys the lived urgency of critical thinking and the pleasures and perils of embodied selfhood. *Take Her, She's Yours* is a story about loss and letting go, but also about the intimacy that emerges through an expanded definition of selfhood. Eva-Lynn Jagoe is the author of *The End of the World as They Knew It: Writing Experiences of the Argentine South*. Her essays, articles, and stories have appeared in *Bluestem Literary Magazine*, *Discourse*, *Fables for the 21st Century*, *Guts Canadian Feminist Magazine*, *Public*, and *Writing From Below*, as well as numerous academic journals. She is a professor at University of Toronto, where she teaches critical and cultural theory, environmental humanities, Latin American studies, film, and literature. She is the co-organizer of Banff Research in Culture, and The Toronto Writing Workshop. She is also a certified Iyengar yoga teacher.

The Philosophy of Horror Noel Carroll, 2003-09-02 Noel Carroll, film scholar and philosopher, offers the first serious look at the aesthetics of horror. In this book he discusses the nature and narrative structures of the genre, dealing with horror as a transmedia phenomenon. A fan and serious student of the horror genre, Carroll brings to bear his comprehensive knowledge of obscure and forgotten works, as well as of the horror masterpieces. Working

from a philosophical perspective, he tries to account for how people can find pleasure in having their wits scared out of them. What, after all, are those paradoxes of the heart that make us want to be horrified?

Knowledge, Spirit, Law: Book 2: The Anti-capitalist Sublime Gavin Keeney, 2017-12-24 Knowledge, Spirit, Law, Book 2: The Anti-capitalist Sublime takes up where Knowledge, Spirit, Law, Book 1: Radical Scholarship (2015) left off, foremost in terms of a critique of neo-liberal academia and its demotion of the book in favor of various mediatic practices that substitute, arguably, for the one form of critical inquiry that might safeguard speculative intellectual inquiry as long-form and long-term project, especially in relationship to the archive or library (otherwise known as the public domain). This ongoing critique of neo-liberal academia is a necessary corrective to processes underway today toward the further marginalization of radical critique, with many of the traditional forms of sustained analysis being replaced by pseudo-empirical studies that abandon themes only presentable in the Arts and Humanities through the arcanian closure that the book as long-form inquisition represents (whether as novel, non-fictional critique, or something in-between). As a tomb for thought, this privileging of the shadowy recesses of the book preserves, through the very apparatuses of long- and slow-form scholarship, the premises presented here as indicative of an anti-capitalist project embedded in works that might otherwise shun such a characterization. The perverse capitalist capture of knowledge through mass digitalization is - paradoxically - the negative corollary for the reduction by abstraction of everyday works to a philosophical and moral inquest against Capital. The latter actually constitutes a transversal reduction for works (across works) toward the age-old antithesis to instrumentalized socio-cultural production - Spirit. For similar reasons, the anti-capitalist sublime as presented here is primarily a product of the imaginative, magical-realist regimes of thought in service to no capital - to no capitalization of thought. This book seeks to re-establish paradigmatic, a-historical, and universalizing practices in humanistic scholarship associated with speculative inquiry as a form of art, utilizing in passing forms of art and exemplary paradigmatic practices that are also first-order forms of speculative inquiry - suggesting that first-order works in the Arts and Humanities are those works that may suffer second-order incorporations without the attendant loss of the impress of sublimity (Spirit).

The Salon of 1846 Charles Baudelaire, 2021-04-27 In his introduction to Charles Baudelaire's *Salon of 1846*, the renowned art historian Michael Fried presents a new take on the French poet and critic's ideas on art, criticism, romanticism, and the paintings of Delacroix. Charles Baudelaire, considered a father of modern poetry, wrote some of the most daring and influential prose of the nineteenth century. Prior to publishing international bestseller *Les Fleurs du mal* (1857), he was already notable as a forthright and witty critic of art and literature. Captivated by the Salons in Paris, Baudelaire took to writing to express his theories on modern art and art philosophy. The *Salon of 1846* expands upon the tenets of Romanticism as Baudelaire methodically takes his reader through paintings by Delacroix and Ingres, illuminating his belief that the pursuit of the ideal must be paramount in artistic expression. Here we also see Baudelaire caught in a fundamental struggle with the urban commodity of capitalism developing in Paris at that

time. Baudelaire's text proves to be a useful lens for understanding art criticism in mid-nineteenth-century France, as well as the changing opinions regarding the essential nature of Romanticism and the artist as creative genius. Acclaimed art historian and art critic Michael Fried's introduction offers a new reading of Baudelaire's seminal text and highlights the importance of his writing and its relevance to today's audience.

The Oxford Handbook of Topic Theory Danuta Mirka,2014-10-16 Topics are musical signs that rely on associations with different genres, styles, and types of music making. The concept of topics was introduced by Leonard Ratner in the 1980s to account for cross-references between eighteenth-century styles and genres. While music theorists and critics were busy classifying styles and genres, defining their affects and proper contexts for their usage, composers started crossing the boundaries between them and using stylistic conventions as means of communication with the audience. Such topical mixtures received negative evaluations from North-German critics but became the hallmark of South-German music, which engulfed the Viennese classicism. Topic theory allows music scholars to gain access to meaning and expression of this music. The Oxford Handbook of Topic Theory consolidates this field of research by clarifying its basic concepts and exploring its historical foundations. The volume grounds the concept of topics in eighteenth-century music theory, aesthetics, and criticism. Documenting historical reality of individual topics on the basis of eighteenth-century sources, it relates topical analysis to other methods of music analysis conducted from the perspectives of composers, performers, and listeners. With a focus on eighteenth-century musical repertoire, The Oxford Handbook of Topic Theory lays the foundation under further investigation of topics in music of the nineteenth, twentieth, and twenty-first centuries.
