Palace of Culture Robert J. Gangewere,2011-09-30 Andrew Carnegie is remembered as one of the world’s great philanthropists. As a boy, he witnessed the benevolence of a businessman who lent his personal book collection to laborer’s apprentices. That early experience inspired Carnegie to create the “Free to the People” Carnegie Library in 1895 in Pittsburgh, Pennsylvania. In 1896, he founded the Carnegie Institute, which included a music hall, art museum, and science museum. Carnegie deeply believed that education and culture could lift up the common man and should not be the sole province of the wealthy. Today, his Pittsburgh cultural institution encompasses a library, music hall, natural history museum, art museum, science center, the Andy Warhol Museum, and the Carnegie International art exhibition. In Palace of Culture, Robert J. Gangewere presents the first history of a cultural conglomeration that has served millions of people since its inception and inspired the likes of August Wilson, Andy Warhol, and David McCullough. In this fascinating account, Gangewere details the political turmoil, budgetary constraints, and cultural tides that have influenced the caretakers and the collections along the way. He profiles the many benefactors, trustees, directors, and administrators who have stewarded the collections through the years. Gangewere provides individual histories of the library, music hall, museums, and science center, and describes the importance of each as an educational and research facility. Moreover, Palace of Culture documents the importance of cultural institutions to the citizens of large metropolitan areas. The Carnegie Library and Institute have inspired the creation of similar organizations in the United States and serve as models for museum systems throughout the world.

L'Unité D'habitation David Jenkins,1993-01 The Unite d'Habitation at Marseilles is a key building of the twentieth century, and a seminal work in Le Corbusier's oeuvre. A precursor of buildings in Nantes, Berlin, Briey-en-Foret and Firminy, it established, in built form, Le Corbusier's ideas of public housing that had existed only on paper for more than twenty-five years. David Jenkins argues that the Marseilles Unite stands out as a powerful and convincing testament of Le Corbusier's fundamental humanism and his faith in the principles of the Ville Radieuse and the Brutalist medium of rough cast concrete which in other, less able hands, have since been called into question.

How to Make Adorable Baby Animal Dolls Jonni Good,2013-06 In this book the author shows you exactly how to make your own adorable baby animal collector's dolls, leading you through the entire process every step of the way. Your dolls won't cost much to make, and every doll will be an original, one-of-a-kind work of art. Since no two dolls ever come out exactly alike, each doll will have it's own personality and character. You won't have to learn how to make molds for the doll heads, because each one is hand-sculpted over a simple armature. You don't need a kiln, because you'll be using home-made air-dry clay instead of porcelain. The resulting heads are seamless, hollow, and surprisingly strong. The bodies and ears are made out of soft, huggable cotton velour, and the toes are sculpted with a few easy stitches. Adorable!

A new essay by Karen Wilkin highlights the development of his late style, and a generous selection of paintings and pastels showcases his bold, freewheeling new work. The main text, by Justin Spring, traces Khan's art and life to 1993. An insightful essay by Louis Finkelstein illuminates the fusion of abstraction and representation in the work.
