Riverine Craft of the Vietnam Wars Roger Branfill-Cook,2020-06-30 “Provides clear and succinct descriptions of the various craft used not only by American forces but those of the French and South Vietnamese Navy.” —Army Rumour Service (ARRSE) The ShipCraft series provides in-depth information about building and modifying model kits of famous warship types. Lavishly illustrated, each book takes the modeler through a brief history of the subject, highlighting differences between ships and changes in their appearance over their careers. This includes paint schemes and camouflage, featuring color profiles and highly detailed line drawings and scale plans. The modeling section reviews the strengths and weaknesses of available kits, lists commercial accessory sets for super-detailing of the subjects, and provides hints on modifying and improving the basic kit. This is followed by an extensive photographic gallery of selected high-quality models in a variety of scales, and the book concludes with a section on research references—books, monographs, large-scale plans and relevant websites. This volume is something of a departure for the series in covering a wide variety of the types, at first improvised and then purpose-built for the Brown Water conflict. Besides the well-known American involvement, the book also covers some of the craft used by the French in their earlier struggle with Vietnamese guerrillas. With its unparalleled level of visual information—paint schemes, models, line drawings and photographs—this book is simply the best reference for any modelmaker setting out to build one of these unusual craft. “Very well written . . . The author’s interest, knowledge and enthusiasm come through the content and make the title so appealing to the reader.” —Armorama

Vietnam Riverine Craft 1962–75 Gordon L. Rottman,2012-06-20 In 1965 the military situation in the Mekong River Delta of southern Vietnam had deteriorated to such a degree that the decision was made to commit a joint US Army and Navy Mobile Riverine Force to the area. This force was unique in its composition, mission, and the means by which it operated – riverine craft. Comprising the Army's 2d Brigade, 9th Infantry Division, and the Navy's River Assault Flotilla One, it used a variety of watercraft, including heavily modified landing craft, purpose-built patrol boats, and a whole host of auxiliary and support craft. This book explores those craft, and also gives an account of Task Force Clearwater, a much smaller operation in the extreme northern part of South Vietnam.

Paper Empires Rafael de Francisco López,2014 These paper cut-outs developed from toys into a historically important reflection on the German military and social classes from the early nineteenth to the early twentieth century, culminating in their proliferation during the rise and reign of the Third Reich. They make it possible to take a tour through German military and political history, from the Battle of Jena-Auerstedt in 1806 right up to the Maginot Line in 1940. These German paper soldiers, or papiersoldaten zum ausschneiden are, without a doubt, unique visual images that, nowadays, are similar to archeological artifacts, which are very hard to find on the market. Even today, the number of preserved or catalogued images in German museums is very small, so this book, showing thousands of figures in 173 color images, is a an essential collection.

Cannabis Robert Clarke,Mark Merlin,2016-06-28 Cannabis: Evolution and Ethnobotany is a comprehensive, interdisciplinary exploration of the natural origins and early evolution of this famous plant, highlighting its historic role in the development of human societies. Cannabis has long been

prized for the strong and durable fiber in its stalks, its edible and oil-rich seeds, and the psychoactive and medicinal compounds produced by its female flowers. The culturally valuable and often irreplaceable goods derived from cannabis deeply influenced the commercial, medical, ritual, and religious practices of cultures throughout the ages, and human desire for these commodities directed the evolution of the plant toward its contemporary varieties. As interest in cannabis grows and public debate over its many uses rises, this book will help us understand why humanity continues to rely on this plant and adapts it to suit our needs.

Battle of the Bulge Ben Skipper,2022-10-21 The Battle of the Bulge was the perfect storm for the Allies in late 1944; a tired army, overstretched supply lines, and poor intelligence on what was waiting on the other side of the hill. On 16th December, with almost complete surprise, the Germans launched their last major offensive in the West. Emerging from thick fog and through the dense woodland of the Ardennes nearly 500,000 German troops slammed into American lines. For almost a week the Germans were able to make good ground, and the glory days of 1940 beckoned as they crushed all resistances before them, often with extreme cruelty. On Christmas Eve, the Germans had lost their initial advantage, the skies cleared and air support returned. For the next 3 weeks the battle hung in the balance. For the Americans the Battle of the Bulge would be the deadliest single battle of the Second World War. This Battle Craft title also looks at four pieces of military hardware that were involved in these legendary battles. Massive King Tigers rained down terror and destruction among the Allies M4's and other armor, until the arrival of nimble M18 Hellcats which counted for several King Tigers. Over head the almost uncatchable ME262 battled with its own nemesis, the virtually indestructible P-47. The Quartermaster section provides the modeler with an insight into the development and operational use of the four chosen vehicles and aircraft that were involved in the Battle of the Bulge. A selection of historical and contemporary photos and illustrations feature alongside stunning showcase builds, providing the modeler with subjects to whet the creative appetite. It also features details of model kits and extras that can really help the modeler bring military history to life.
