Papertoy Monsters Brian Castleforte,2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

Paper Toy Making Margaret W. Campbell,2016-08-26 Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Little Monsters Helene Brembeck,Karin M. Ekström,Magnus Mörck,2007 This book is about stories of consumption beyond the culture - economy divide. By bringing along Actor Network Theory, entities that in conventional approaches are taken for granted, such as consumers, goods and companies proves to be unstable assemblages of humans, goods and technologies. We meet materialistic children and parents creating an intimate moment at McDonald's, car poolers trying to get out of the grip of individual transportation, young couples imagining a home in that odd reversal of private space, the furniture store

and grown men practicing a hobby so close to childhood that it causes unease. These, and other examples, line that up as our monsters, ready to act out the drama. Considering that actor-network theory has its roots in narratology of Algirdas Greimas (1917-1992), what better use can one imagine for it than its application to the tales of consumption. In the best ANT-ian style, the book refuses to label people, things and phenomena with the received names. The message is: wait until the end of the story to see whether or not a big company wins over small consumers, or if behind a bewitching trademark hides a good fairy or a wicked witch. This collection challenges most of the common places about consumption, production, markets and consumers.
