Principles and Practice of Ground Improvement Jie Han, 2015-06-22 Gain a stronger foundation with optimal ground improvement Before you break ground on a new structure, you need to analyze the structure of the ground. Expert analysis and optimization of the geo-materials on your site can mean the difference between a lasting structure and a school in a sinkhole. Sometimes problematic geology is expected because of the location, but other times it's only unearthed once construction has begun. You need to be able to quickly adapt your project plan to include an improvement to unfavorable ground before the project can safely continue. *Principles and Practice of Ground Improvement* is the only comprehensive, up-to-date compendium of solutions to this critical aspect of civil engineering. Dr. Jie Han, registered Professional Engineer and preeminent voice in geotechnical engineering, is the ultimate guide to the methods and best practices of ground improvement. Han walks you through various ground improvement solutions and provides theoretical and practical advice for determining which technique fits each situation. Follow examples to find solutions to complex problems Complete homework problems to tackle issues that present themselves in the field Study design procedures for each technique to simplify field implementation Brush up on modern ground improvement technologies to keep abreast of all available options *Principles and Practice of Ground Improvement* can be used as a textbook, and includes Powerpoint slides for instructors. It's also a handy field reference for contractors and installers who actually implement plans. There are many ground improvement solutions out there, but there is no single right answer to every situation. *Principles and Practice of Ground Improvement* will give you the

information you need to analyze the problem, then design and implement the best possible solution.

Pro Full-Text Search in SQL Server 2008 Hilary Cotter,Michael Coles,2009-01-29 Businesses today want actionable insights into their data—they want their data to reveal itself to them in a natural and user-friendly form. What could be more natural than human language? Natural-language search is at the center of a storm of ever-increasing web-driven demand for human-computer communication and information access. SQL Server 2008 provides the tools to take advantage of the features of its built-in enterprise-level natural-language search engine in the form of integrated full-text search (iFTS). iFTS uses text-aware relational queries to provide your users with fast access to

content. Whether you want to set up an enterprise-wide Internet or intranet search engine or create less ambitious natural-language search applications, this book will teach you how to get the most out of SQL Server 2008 iFTS: Introducing powerful iFTS features in SQL Server, such as the FREETEXT and CONTAINS predicates, custom thesauruses, and stop lists Showing you how to optimize full-text query performance through features like full-text indexes and iFilters Providing examples that help you understand and apply the power of iFTS in your daily projects

Tome of Adventure Design PoD Softcover Frog God Games, Matt J Finch, 2020-07-17 A fantasy adventure game, at its very heart, is about developing an open-ended story of the characters. The referee is in charge of the fantasy world, and the players direct the actions of their characters in that fantasy world. Neither the referee nor the group of players has complete control over what's going to happen, and the result is an evolving set of surprises for both the referee and the players. Unlike the players, as the referee and creator of the game world, most of your work is done ahead of time. To some degree or other, you have to create the groundwork for the adventure before the game starts. Even though no battle plan survives contact with the enemy - and if you're an experienced referee you know exactly what I mean - the game has to start ... with a starting point. This might just be a vague set of ideas, or it might be as complex as a set of maps with a detailed key and well thought-out encounters for the players to run into. The Tome of Adventure Design is organized as a series of books, each one providing resources at every step of the way. The vast majority of the content of each book is made up of random generation tables that we created over a quarter of a century (sigh) for our own use. It should be said up front that

these are tables for deep design - in other words, most of them are too long, and contain too many unusual or contradictory entries, for use on the spot at the gaming table. There are already many excellent books of tables for use on the fly; the tables in these books are different. They work best as a tool for preparation beforehand, providing relatively vast creative resources for browsing and gathering, rather than quick-use tables designed to provide broad, fast brushstrokes. Our shorter tables tend to deliver cryptic results designed to shock the reader's creativity into filling in the gaps, whereas the longer tables are unusably vast for easy random generation, being designed to shock the reader's creativity into operation by presenting a sea of possibilities.

The Sugarless Plum Zippora Karz, 2011-02-01 It started as the perfect story. Zippora Karz was a member of the famed New York City Ballet by the age of eighteen. By twenty she was starring as the Sugar Plum Fairy in The Nutcracker, dancing roles created by Jerome Robbins, and traveling the world. It was the stuff dreams are made of until, at age twenty-one, Karz was diagnosed with diabetes. Balancing ballet and her blood sugar would be a long and difficult struggle for Karz. In The Sugarless Plum, Karz shares her journey from denial, shame and miseducation about her illness to how she led an active, balanced and satisfying life as an insulin-dependent diabetic and soloist with one of the world's most famous ballet companies. The Sugarless Plum takes readers deep into the heart and soul of a young dancer, and is a remarkable testament to determination and perseverance.

Spon's Architects' and Builders' Price AECOM, 2014-09-09 Recovery in construction is still on track. Business confidence is increasing – but still not yet secure. Following the 18% fall in tender prices between 2008 and 2013, price levels are beginning to recover

some lost ground, particularly in the residential sector and with London based projects. It is important to make sure tenders are competitive, whilst minimising your risk as input material prices and labour rates continue to rise and tender prices are forecast to increase an average of 4.5% over the next 3 years, reaching the pre 2008 recession levels in 2017. Spon's Architect's and Builders' Price Book, compiled by AECOM, still provides the most accurate, detailed and professionally relevant construction price information for the UK. Its unique Tender Index, updated through the year, gives an ongoing reality check and allows you to adjust for changing market conditions. Although it suits a wide range of project sizes, this is the only price book which sets out a detailed cost base for contracts exceeding £3,500,000 in value. Use the access code inside the front cover of the book to get set up with internet access to this 2015 edition until the end of December 2015. We now provide SPON'S Online, a versatile and powerful online data viewing package. Major changes have been made to this 140th edition: As well as an overhaul of prices, over new items have been added. These include: New cost models for Business Parks and Data Centres An expanded range of Kingspan roof and wall claddings New ASSA ABBLOY sectional overhead doors, including rapid opening and fabric New ASSA ABBLOY industrial dock levellers and shelters An increased range of Altro safety flooring and resin flooring systems New Altro Whiterock hygiene doorsets

Fish and Aquatic Resources B. Vasanthkumar, 2017 The title of present book reflects a combination of two interrelated terms fish and aquatic resources, which is interacting ecological, biophysical, economic, social and cultural components. How is aquatic resources connected with sustainability and resilience are explored in detail. This book comprises 23 chapters by well known experts and research workers in the field of fish and fisheries. With its application oriented and interdisciplinary approach, we hope that the students, teachers, researchers, scientists, policy makers and environmental lawyers will find this book very useful.

Spon's Architects' and Builders' Price Book 2021 AECOM, 2020-09-27 UK construction supply chain firms face an array of risks going into 2021 as fallout from the COVID-19 crisis – not least the effect of social distancing rules on site productivity. But underlying construction demand remains broadly in place for the expected medium-term. SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK 2021, compiled by AECOM, still provides the most accurate, detailed and professionally relevant construction price information for the UK. Its unique Tender Index, updated through the year (2015 = 100), gives an ongoing reality check and allows you to adjust for changing market conditions. Although it suits a wide range of project sizes, this is the only price book which sets out a detailed cost base

for contracts exceeding £4,000,000 in value. Use the access code inside the front cover of the book to get set up with an ebook of this 2021 edition on the VitalSource® Bookshelf platform, available for access and use until the end of December 2021. As well as an overhaul of prices, several new items have been added, including: a London fringe office cost model a higher education refurbishment cost model Pecafil® permanent formwork and an expanded range of cast iron rainwater products along with the standard features you have come to expect from SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK: 20,000 prices for the most frequently specified items, the majority with labour constants and detailed build-ups Hundreds of alternative materials prices for the more unusual items Detailed guidance on wage rates, daywork, cost limits and allowances, property insurance and professional fees, plus useful formulae, design criteria and trade association addresses Updates, free of charge, twice a year – see inside for registration details.
