Spreading the Written Word Kaisa Häkkinen, 2015-10-30 The Protestant Reformation began in Germany in 1517, and the adoption of Lutheranism was the decisive impetus for literary development in Finland. As the Reformation required the use of the vernacular in services and ecclesiastical ceremonies, new manuals and biblical translations were needed urgently. The first Finnish books were produced by Mikael Agricola. He was born an ordinary son of a farmer, but his dedication to his studies opened up the road to leading roles

in the Finnish Church. He was able to bring a total of nine works in Finnish to print, which became the foundation of literary Finnish. The first chapter outlines the historical background necessary to understand the life's work of Mikael Agricola. The second chapter describes Agricola's life. Chapter three presents the Finnish works published by Agricola. The fourth chapter is a depiction of Agricola's Finnish. Agricola carried out his life's work as part of a network of influential connections, which is described in chapter five. The sixth chapter examines the importance of Agricola's work, research on Agricola and Agricola's role in contemporary Finnish culture. The book mainly focuses on language and cultural history, but in terms of Church history, it also provides a review on the progression and arrival of the Reformation to Finland. Finnish is a Uralic language but the source languages of Agricola's translations – Latin, German, Swedish and Greek – were all Indo-European languages. Thus, the oldest Finnish texts were strongly influenced by foreign elements and structures. Some of those features were later eliminated whereas others became essential constituents of standard Finnish. To illustrate this development, the Finnish in Agricola's works has systematically been compared with the standard contemporary language.

Communities and Crisis Shona Kelly Wray, 2009 Bologna is well known for its

powerful university and notariate of the thirteenth century, but the fourteenth-century city is less studied. This work redresses the imbalance in scholarship by examining social and economic life at mid-fourteenth century, particularly during the epidemic of plague, the Black Death of 1348. Arguing against medieval chroniclers' accounts of massive social, political, and religious breakdown, this examination of the immediate experience of the epidemic, based on notarial records--including over a thousand testaments--demonstrates resilience during the crisis. The notarial record reveals the activities and decisions of large numbers of individuals and families in the city and provides a reconstruction of the behavior of clergy, medical practitioners, government and neighborhood officials, and notaries during the epidemic.

Did Jesus Exist? Bart D. Ehrman, 2012-03-20 In *Did Jesus Exist?* historian and Bible expert Bart Ehrman confronts the question, Did Jesus exist at all? Ehrman vigorously defends the historical Jesus, identifies the most historically reliable sources for best understanding Jesus' mission and message, and offers a compelling portrait of the person at the heart of the Christian tradition. Known as a master explainer with deep knowledge of the field, Bart Ehrman methodically demolishes both the scholarly and popular "mythicist" arguments against the existence of Jesus. Marshaling evidence from within the Bible and the wider historical record of the ancient world, Ehrman tackles the key issues that surround the mythologies associated with

Jesus and the early Christian movement. In *Did Jesus Exist?: The Historical Argument for Jesus of Nazareth*, Ehrman establishes the criterion for any genuine historical investigation and provides a robust defense of the methods required to discover the Jesus of history.

Christian Masculinity Yvonne Maria Werner, 2011 In the mid-nineteenth

century, when the idea of religion as a private matter connected to the home and the female sphere won acceptance among the bourgeois elite, Christian religious practices began to be associated with femininity and soft values. Contemporary critics claimed that religion was incompatible with true manhood, and today's scholars talk about a feminization of religion. But was this really the case? What expression did male religious faith take at a time when Christianity was losing its status as the foundation of society? This is the starting point for the research presented in *Christian Masculinity*. Here we meet Catholic and Protestant men struggling with and for their Christian faith as priests, missionaries, and laymen, as well as ideas and reflections on Christian masculinity in media, fiction, and correspondence of various kinds. Some men engaged in social and missionary work, or strove to harness the masculine combative spirit to Christian ends, while others were eager to show the male character of Christian virtues. This book not only illustrates the importance of religion for the understanding of gender construction, but also the need to take into consideration confessional and institutional aspects of religious identity.

Corpus Basilicarum Christianarum Romae Richard Krautheimer, 1959

The Emergence of Finnish Book and Reading Culture in the 1700s Cecilia af Forselles, Tuija Laine, 2019-03-19 Book culture has emerged as an extremely dynamic and border-crossing field of research, internationally and in Finland. The editors and most of the writers of this book were members of the

organizing and program committees of the 18th Annual Conference of the Society for the History of Authorship, Reading and Publishing (SHARP), Book Culture from Below, that took place in Helsinki in 2010. This book provides, for the first time in English, an overview of an important epoch in Finnish book and reading history. Besides depicting book culture at the periphery of Europe, it contributes to our understanding of the power of the urbanized European literary world of the 1700s. The new reading culture that emerged in Finland during the 1700s affected readers and all levels of society in many ways. Along with other trends, the arrival of translated fiction and Enlightenment literature from Europe opened and irrevocably altered the Finns' world view. The change was especially pronounced in cities. Scholars, merchants, craftspersons, as well as military officers stationed at Helsinki's offshore Sveaborg fortress, acquired world literature and guides intended for professionals at, for example, book auctions. In this book, researchers from different fields examine the significance and influence of that era's books from cultural, historical, ideological, and social perspectives. What kinds of books did the citizens of Helsinki really buy, loan, and read during the 1700s? What topics and ideas introduced by the new literature were discussed in salons and reading circles? Who were the books' large-scale consumers? Who were the literary opinion leaders of their times? Why did people read? Did the books change their readers' lives?

Reformation Diarmaid MacCulloch, 2004-09-02 The Reformation was the seismic

event in European history over the past 1000 years, and one which tore the medieval world apart. Not just European religion, but thought, culture, society, state systems, personal relations - everything - was turned upside down. Just about everything which followed in European history can be traced back in some way to the Reformation and the Counter-Reformation which it provoked. The Reformation is where the modern world painfully and dramatically began, and MacCulloch's great history of it is recognised as the best modern account.

The Great Controversy Ellen G. White, 2022-05-29 *The Great Controversy* is a work by Ellen G. White, a founder of the Seventh-day Adventist Church, considered a prophetess or messenger of God among Seventh-day Adventist members. From Apostles to Bishops Francis Aloysius Sullivan, Francis Alfred Sullivan, 2001 Examines the origins and development of the episcopacy in the early church with an eye toward its implications for current ecumenical issues relating to the episcopacy and apostolic succession.

Pieter Saenredam, The Utrecht Work Liesbeth M. Helmus, 2002-01-01 Pieter Saenredam (1597–1665) was one of the magical painters of 17th-century Holland, a time known as the Golden Age of Dutch Art. He spent his career immortalizing the churches of Holland in drawings and paintings. Working

through a series of perspective drawings to the finished painting, he made innumerable fine adjustments to architectural details to create what may be justly called spaces of wondrous perfection of proportion and luminosity. Pieter Saenredam, *The Utrecht Work* is published to coincide with an exhibition of Saenredam's drawings and paintings, originally held at the Centraal Museum, Utrecht, and on view from April 16 through July 7, 2002 at the Getty Museum. This elegant volume brings together more than sixty drawings and paintings depicting the beautiful and historically venerable churches of the Dutch city of Utrecht.

The Hebrew Pharaohs of Egypt Ahmed Osman, 2003-09-19 Drawing on a wealth of detailed evidence from Egyptian, biblical, and Koranic sources, Osman proposes that Joseph in the Bible might in reality also be Yuya, a father of pharaoh.
