The Juniper Tree Jacob Grimm, Wilhelm K. Grimm, 2003-10-15 Back in Print! Originally published as a two-volume set forty years ago, The Juniper Tree is distinguished first by the selection of stories. Lore Segal and Maurice Sendak jointly culled 27 from the 210 in the complete collection, and their contents page presents a fascinating critical statement. The translations are another distinguishing quality of the Segal/Sendak edition. Both translators have been painstakingly faithful to the German texts; they have not cut, "retold," or bowdlerized. In addition, Segal and Jarrell bring to their renderings of Grimm the grace and precision that are characteristic of their own original prose. · One

of the most acclaimed Grimm collections published in English, available again · An elegant, must-have edition for every home library · New lower-price of \$19.99, formerly \$28.00 · Includes standards such as “Hansel and Gretel,” “The Fisherman and His Wife,” and “The Frog King” as well as lesser-known masterpieces such as the title story and “The Goblins” · Each story contains a full-page picture by Maurice Sendak · Four stories translated by Jarrell, the rest by Segal

The Green Wiccan Book of Shadows Silja, 2011-09-08 Traditionally, the Book of Shadows is a High Priestess’s way of handing on her collection of spells, rituals and magical tips and tricks to her coven members. Modern-day witches, by necessity or choice, often practise alone without access to this invaluable knowledge—and this is where this lavishly illustrated compendium comes in. Celtic Wiccan High Priestess Silja covers the basic and intermediate levels of magic for solitary witches. She shares a wide-ranging array of spells that have been successful for her—not least how to attract more love, money and luck into your life. With an easy to difficult rating system, she makes it simple for anyone to learn basic spells and then progress. Silja shares meditations—from energy-raising exercises to vision quests and guided meditations you can do with friends—and shows you why rituals are not just for coven use. Discover how to practise rituals alone to honour the seasons, say thanks to the deities for a spell that worked or send healing energy to a friend in need. Finally, once you have absorbed Silja’s wisdom and knowledge, you can begin personalizing your magic and writing your own spells.

Amazingly detailed and well thought out Absolutely fantastic. I have been consumed by this game and overjoyed at how much clever thought went into the making of this project. There are literally hundreds, if not thousands, of solitaire variants

out there, but this is exactly what I've been looking for since the dawn of time. It's amazing something like this hasn't been created until now. Received my book today and absolutely love it. Arrived and I couldn't stop playing it -)

Mythic Game Master Emulator Tom Pigeon, 2018-01-25 Mythic Game Master Emulator Create dynamic role-playing adventures without preparation For use as a supplement with other systems NOTE: This product provides the Game Master Emulation rules found in Mythic, a product that contains emulation rules and a full, universal role playing game. Mythic Game Master Emulator is for those who do not want the universal role-playing rules, but just the game master emulator at a reduced price. Mythic Game Master Emulator is a supplement meant to be played with your favorite role-playing games. Most Role-Playing Games operate under the principle that there are players and there is a Game Master. The GM prepares all the details of an adventure, and then runs the players through that adventure. This usually requires a great deal of preparation on the part of the GM. Mythic is different in that it requires no preparation from the GM. Mythic adventures are meant to be played off the cuff, with perhaps a few minutes of brainstorming to come up with the initial setup.

Mythic can also be played entirely without a GM. The same mechanics in Mythic that allow a GM to run an adventure without preparation also allows a group of players to do without the GM. In a Mythic adventure, the GM (or players without a GM) can start an evening's entertainment with about five minutes of preparation. As the adventure unfolds, the GM is just as surprised by the twists and turns as the players are. There are various ways in which Mythic can be used: No GM, multiple players. Players decide on an opening scenario, and perhaps a few details or two, and Mythic takes it from there. All action is decided through the asking of yes/no questions and the application of logical principles. By answering questions, the adventure moves along, with the occasional random event throwing players a curve ball. The action is broken into scenes, just like in a movie, to keep everything straight. No GM, one player. Mythic can be used to go solo. Solo play in Mythic works the same as group play. You're just alone. One GM, any number of players. For those who like to be a GM, we have something for you, too. The same tools that allow Mythic to automatically generate adventures on the fly without a GM also work with a GM. This means very little to zero preparation, if you don't want to prepare. Simply create an opening scenario (hey, you can come up with that on the drive over!) and follow Mythic as it guides you along. Mythic will throw in its own twists and turns, so the GM will be just as shocked as the players.

Designers will be able to make the jewelry shown in the book, while also using the techniques learned to create innovative jewelry pieces of their own.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the

twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
