Turkish German Muslims and Comedy Entertainment Benjamin Nickl,2020-10-26 Turkish German comedy culture and the lived realities of Turkish Muslims in Germany Comedy entertainment is a powerful arena for serious public engagement with questions of German national identity and Turkish German migration. The German majority society and its largest labour migrant community have been asking for decades what it means to be German and what it means for Turkish Germans, Muslims of the second and third generations, to call Germany their home. Benjamin Nickl examines through the social pragmatics of humour the dynamics that underpin these questions in the still-evolving popular culture space of German mainstream humour in the 21st century. The first book-length study on the topic to combine close readings of film, television, literary and online comedy, and transnational culture studies, Turkish German Muslims and Comedy Entertainment presents the argument that Turkish German humour has moved from margin to mainstream by intervening in cultural incompatibility and Islamophobia discourse. Ebook available in Open Access. This publication is GPRC-labeled (Guaranteed Peer-Reviewed Content).

Researches in Economics, Econometrics & Finance Hilal

Yıldız,Ahmet Sedat Aybar,2019-12-18 As the outcome of the tenth
international congress (Current Debates in Social Sciences), the papers
in this volume cover a wide range of topics related to the main theme
of the conference, titled “Current Debates in Social Sciences”, and
basically focus on economics, finance and econometrics. Even though
most of the papers deal with the empirical analysis on economics and
finance, there are also studies on econometrics analysis. In this context,
the articles in the book draw attention to the different aspects of
economics, finance and econometrics such as game theory, Fin- Tech,
financial deepening, financial literacy, debt level of credit card of
younger generation and case studies, the relationship between
Turkey technology index and other World technology index, carbon
emission rate and economic growth, the effects of capital inflows on
economic growth, work engagement, loneliness at work and stress,
measure and compare the performance of Type-A mutual funds in
Turkey. We believe that these studies would contribute to the
development of debates in social sciences and encourage
interdisciplinary approaches.

Schriften zur Sprache und Literatur IV TAHİR BALCI ,ALİ

OSMAN ÖZTÜRK ,MUNİSE AKSÖZ, Mit diesem Band der jährlichen Buchreihe “Schriften zur Sprache und Literatur / Dil ve Edebiyat Yazıları” möchten wir einerseits die Arbeiten von erfahrenen Wissenschaftlern bzw. Lehrkräften erreichbar machen, andererseits zielen wir darauf ab, NachwuchswissenschaftlerInnen zur Hervorbringung wissenschaftlicher Texte zu inspirieren. In diesem Sinne möchten wir besonders die Beiträge der Masterstudenten und Doktoranden hervorheben, die ihre in den Lehrveranstaltungen und Seminaren erworbenen Kenntnisse mit ihrer Erzeugungskraft verbunden und veranschaulicht haben. Die Arbeiten anderer, an verschiedenen Universitäten tätiger Lehrkräfte sind für solche, die sich mit verschiedenen Disziplinen wie Linguistik, Literatur, Literaturwissenschaft, Übersetzungswissenschaft, Kulturwissenschaft, Soziolinguistik, Psycholinguistik und Fremdsprachendidaktik beschäftigen, wegweisend. Wegweisend in dem Sinne, dass sie vielfältig sind und eine reiche Palette neuer Gesichts- bzw. Standpunkte aufweisen. Die Beiträge stammen nicht nur aus dem Bereich der Germanistik im weitesten Sinne; unser Band enthält auch Arbeiten, die sich – wenn auch indirekt - auf die Anglistik, Arabistik und Turkologie beziehen. Durch diese Vielfalt wird ein großer Leserkreis erreicht, der eine lange Reise in wissenschaftliche Nachbardisziplinen unternehmen und somit mehrere Themen abschmecken kann.

Color and Appearance in Dentistry Alvaro Della Bona,2020-04-03

This book presents the state of the art in color science and explains its application to dental structures and materials, using high-quality

illustrations to ensure ease of learning. Most people seek a bright smile with a natural appearance. This goal often poses a great clinical challenge for the dentist, and its achievement is dependent on a good knowledge of color science and optical properties relevant to dentistry. Further, if a smile is to be esthetically improved to the patient's satisfaction, the dentist must be able to extract the best from dental materials and techniques, must understand all aspects of facial harmony, and must communicate effectively with both the patient and lab technicians. All of these aspects are thoroughly explored in the book, with detailed coverage of such topics as visual and instrumental shade matching, color management, and avoidance of complications and pitfalls. *Color and Appearance in Dentistry* will be of high value to all who are engaged in the daily practice of esthetic dentistry.

The list of references is impressive and exhaustive, which confirms the authors' intentions to take an overall trip to the existing literature. Practically nothing has been omitted; all relevant authors have been consulted and the structure of the book follows an organized order. This is why this book will be of a great interest to tourism and development studies, students at first place is also for managers, academics, politicians and all others interested in the subject.

Stress Echocardiography Eugenio Picano, 2023-10-19 This is the seventh edition of a long-selling book (first edition 1991) that was translated into Italian, French, Chinese, Portuguese, Spanish, English. In the last ten years, stress echocardiography has exploded in its

breadth and variety of applications. From a one-fits-all approach (wall motion by 2D-echo in the patient with known or suspected coronary artery disease), the field has progressed to an omnivorous, next-generation laboratory employing a variety of technologies (from M-Mode to 2D, from pulsed, continuous, color and tissue Doppler to lung ultrasound) on patients covering the entire spectrum of severity (from elite athletes to patients with end-stage heart failure) and ages (from children with congenital heart disease to the elderly with aortic stenosis). This new edition is enriched with over 300 figures, 150 tables and video-clips. In a societal and economic climate of increasing pressure for appropriate, justified and optimized imaging, stress echocardiography offers the great advantages of being radiation-free, relatively low cost, with minimal environmental impact, and with a staggering versatility: we can get more (information) with less (cost and risk). The volume will be a tremendous aid to current best practices for all health operators who intend to use stress echocardiography and ultrasound for diagnosis and guidance of optimal management in their patients.

History from Things Stephen Lubar,David W.

Kingery,2013-06-04 History from Things explores the many ways objects—defined broadly to range from Chippendale tables and Italian Renaissance pottery to seventeenth-century parks and a New England cemetery—can reconstruct and help reinterpret the past. Eighteen essays describe how to “read” artifacts, how to “listen to” landscapes and locations, and how to apply methods and theories to

historical inquiry that have previously belonged solely to archaeologists, anthropologists, art historians, and conservation scientists. Spanning vast time periods, geographical locations, and academic disciplines, *History from Things* leaps the boundaries between fields that use material evidence to understand the past. The book expands and redirects the study of material culture—an emerging field now building a common base of theory and a shared intellectual agenda.

Pim & Francie Al Columbia, 2017-01-25 Collecting more than a decade's worth of excavations, comic strips, animation stills, storybook covers, and much more, this broken jigsaw puzzle of a graphic novel tells the story of Pim & Francie — childlike male and female imps — whose irresponsible antics get them into horrific, fantastic trouble. The brilliant, fairy tale-like backdrops hint at further layers of reality lurking under every gingerbread house or behind every sunny afternoon. Their loosely defined relationship only contributes to the existential fear that lingers underneath the various perils they are subjected to, which are threaded together by text and notes by the artist.

Spaceship in the Desert Gökçe Günel, 2019-03-01 In 2006 Abu Dhabi launched an ambitious project to construct the world's first zero-carbon city: Masdar City. In *Spaceship in the Desert* Gökçe Günel examines the development and construction of Masdar City's renewable energy and clean technology infrastructures, providing an illuminating portrait of an international group of engineers, designers, and students who attempted to build a post-oil future in Abu Dhabi. While many of Masdar's initiatives—such as developing a new energy currency and a driverless rapid transit network—have stalled or not met expectations, Günel analyzes how these initiatives contributed to

rendering the future a thinly disguised version of the fossil-fueled present. *Spaceship in the Desert* tells the story of Masdar, at once a “utopia” sponsored by the Emirati government, and a well-resourced company involving different actors who participated in the project, each with their own agendas and desires.

Twisty Little Passages Nick Montfort, 2005-02-11 A critical approach to interactive fiction, as literature and game. Interactive fiction—the best-known form of which is the text game or text adventure—has not received as much critical attention as have such other forms of electronic literature as hypertext fiction and the conversational programs known as chatterbots. *Twisty Little Passages* (the title refers to a maze in *Adventure*, the first interactive fiction) is the first book-length consideration of this form, examining it from gaming and literary perspectives. Nick Montfort, an interactive fiction author himself, offers both aficionados and first-time users a way to approach interactive fiction that will lead to a more pleasurable and meaningful experience of it. *Twisty Little Passages* looks at interactive fiction beginning with its most important literary ancestor, the riddle. Montfort then discusses *Adventure* and its precursors (including the *I Ching* and *Dungeons and Dragons*), and follows this with an examination of mainframe text games developed in response, focusing on the most influential work of that era, *Zork*. He then considers the introduction of commercial interactive fiction for home computers, particularly that produced by Infocom. Commercial works inspired an independent reaction, and Montfort describes the emergence of independent creators and the development of an online interactive fiction community in the 1990s. Finally, he considers the influence of interactive fiction on other literary and gaming forms. With *Twisty Little Passages*, Nick Montfort places interactive fiction

in its computational and literary contexts, opening up this still-developing form to new consideration.
