Batman Frank Miller,Klaus Janson,Lynn Varley,1996-11-01 A tour de force of powerful storytelling and intense characterization, *Batman: The Dark Knight Returns* is the tale of a tortured man's effort to save a city spiraling into chaos. An aging, time-worn Batman struggles with the acceptance of a new Robin while facing the latest generation of vicious, hyper-violent criminals. Old foes like the Joker and Two-Face add to the maddening mayhem which Batman must face and somehow conquer. Even Batman's relationship with his friend and ally Superman takes a fresh and inventive turn that would have been unthinkable outside of Frank Miller's richly imagined vision of the Dark Knight's future. This tenth anniversary edition features 28 pages of sketches, art, text material and an introduction by the author.

Turkish German Muslims and Comedy Entertainment Benjamin Nickl,2020-10-26 Turkish German comedy culture and the lived realities of Turkish Muslims in Germany Comedy entertainment is a powerful arena for serious public engagement with questions of German national identity and Turkish German migration. The German majority society and its largest labour migrant community have been asking for decades what it means to be German and what it means for Turkish Germans, Muslims of the second and third generations, to call Germany their home. Benjamin Nickl examines through the social pragmatics of humour the dynamics that underpin these questions in the still-evolving popular culture space of German mainstream humour in the 21st century. The first book-

length study on the topic to combine close readings of film, television, literary and online comedy, and transnational culture studies, Turkish German Muslims and Comedy Entertainment presents the argument that Turkish German humour has moved from margin to mainstream by intervening in cultural incompatibility and Islamophobia discourse. Bin Laden Adam Robinson, 2011-09 The definitive biography of the man behind the September 11th...

On a Steel Horse I Ride Air University Press, 2014-01-17 Pave Low. The term itself generates an image: a dark, wispy night; a low, pulsating rumble approaching from the distance. The rumble becomes a presence, a large helicopter that settles onto the ground amidst the deep darkness. Earnest men of determination spew forth from it. Heavily armed, they quickly set up to collect intelligence, kill enemy troops, rescue downed or isolated friendly personnel, or otherwise conduct a direct action mission. Mission complete, they just as quickly reassemble, reboard the aircraft, and then disappear into the consuming darkness. It is a powerful image—a conjure, if you will—that strikes fear into any enemy of the United States. But the conjure is real. It is a helicopter called the MH-53J/M. That machine is the end result of the evolution of state-of-the-art avionics, communication, and navigation equipment crewed by highly motivated, enthusiastic, and smart young operators well steeped in the principles, heritage, and credo of special operations. It is the classic combination of men and machine. Those aircraft and Airmen were assigned to the US Air Force Special Operations Command (AFSOC), “America's specialized airpower . . . a step ahead in a changing world, delivering special operations power anytime, anywhere.”¹ AFSOC controls a mixed fleet of both rotary and fixed-wing aircraft to facilitate the fulfillment of that mission. However, the single aircraft that, in its day,

has best epitomized that role is the Pave Low helicopter. It, perhaps more than any other aircraft, allowed the AFSOC to realize its purpose. But it was not always so. The aircraft themselves were revolutionary combinations of new, more powerful turbine engines with rotarywing aircraft to produce vastly increased lifting power. Conceptualized, built, and designated for simpler missions, they were immediately swept up into the long war in Southeast Asia. There they proved the efficacy of the aircraft for dangerous rescue missions, for the initiation of a whole new generation of developing avionics and navigation technology, for providing challenging direct support to small special forces teams and indigenous forces inserted behind enemy lines, and for a myriad of other things that heavy-lift helicopters could be assigned to do. In accomplishing all of that, they also trained a whole generation of men who learned of combat along the Ho Chi Minh Trail in Laos and at other places like Quang Tri, South Vietnam; Son Tay, North Vietnam; and Koh Tang Island, Cambodia. After that conflict, those aircraft and men were returned to peacetime locations and duties, and much was forgotten of those dangerous times and missions. However, a cadre of dedicated combat aviators and commanders felt that the aircraft and community of Airmen had much more to give. Foreseeing an ever-dangerous world, they harnessed those aircraft to a series of evolving new technologies that vastly improved the aircraft by giving them the ability to traverse airspace in any weather conditions, day and night, and to avoid enemy threats. That concept was validated in operations in Panama, Kuwait, Iraq, Serbia, Afghanistan, and many more smaller and quieter operations in between. The men and aircraft also showed the larger utilitarian value of the aircraft as, over the years, they were called out many times to provide natural disaster and humanitarian relief from Africa to New Orleans, Louisiana.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient

of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.
