Echelon Defense Ryan D. Martinson, 2018 This monograph examines China's approach to using sea power to defend and advance its maritime claims in the East China Sea and South China Sea. This approach, which Chinese strategists sometimes called echelon defense, involves the use of non-military instruments of sea power--especially maritime law enforcement forces--to vie with other states for control over disputed maritime space. These non-military forces operate on the first line (or echelon) of China's expanding frontier. Behind them, on the second line, China employs naval forces to deter foreign leaders from using force, thereby compelling them to compete on China's own terms. The echelon defense approach allows China to gradually achieve its objectives without risking a conflict or giving other great powers such as the United States sufficient grounds to intervene. Since 2006, when this approach was pioneered, it has enabled China to expand its influence and control in maritime East Asia. But it has also harmed China's relations with its neighbors and other great powers. *Piracy and Maritime Crime: Historical and Modern Case Studies* Bruce A. Ellerman, Andrew Forbes, David Rosenberg, 2010 Piracy is a basic and fundamental concern for all navies. From almost the beginning of state-sponsored navies, piracy suppression has been one of their major responsibilities -- when Julius Caesar was captured by pirates in 76 BCE, the first thing he did after paying the pirates' ransom and being released was to fit out a squadron of ships to take his revenge. Despite piracy's importance and the continued frequency of piratical attacks, however, relatively few scholarly works have been written analyzing cases of modern piracy and piracy suppression in terms of varying strategic, policy, and operational decisions. This edited collection of case studies attempts to fill this gap. There have been a number of important historical studies that have dealt with the subjects of piracy and piracy suppression. Books written from the point of view of those wishing to end piracy have tended to focus on legal issues, including the rights of victims, the procedures and decisions of Admiralty courts in punishing pirates, and the capture of piracy ships as prizes. Others have looked at the existence of piracy in terms of one particular place or time period, with the Barbary Coast and the Caribbean Sea claiming disproportionate shares of attention. Pirates are often romanticized; Forbes magazine has recently listed history's top-earning pirates, including Samuel Black Sam Bellamy at US\$120 million (2008 dollars), Sir Francis Drake at US\$115 million, and Thomas Tew at US\$103 million. More famous pirates, like Edward Teach (Blackbeard), came in far down the list, at tenth place, with only US\$12.5 million.

*Guadalcanal* John Miller, Jr., 2015-07-11 In publishing the history of combat operations the Department of the Army has three objectives. The first is to provide the Army itself with an accurate and timely account of its varied activities in directing, organizing, and employing its forces for the conduct of war--an account which will be available to the service schools and to individual members of the Armed Services who wish to extend their professional reading. The second objective is to offer the thoughtful citizen material for a better understanding of the basic problems of war and the manner in which these problems were met, thus augmenting his understanding of national security. The third objective is to accord a well-earned recognition to the devoted work and grim sacrifices of those who served. The successes of the South Pacific Force, wrote Admiral Halsey in 1944, were not the achievements of separate services or individuals but the result of whole-hearted subordination of self-interest by all in order that one successful 'fighting team' could be created.\* The history of any South Pacific campaign must deal with this fighting team, with all United States and Allied services.

The victory on Guadalcanal can be understood only by an appreciation of the contribution of each service. No one service won the battle. The most decisive engagement of the campaign was the air and naval Battle of Guadalcanal in mid-November 1942, an engagement in which neither Army nor Marine Corps ground troops took any direct part. This volume attempts to show the contribution of all services to the first victory on the long road to Tokyo.

**Environmental Issues in Latin America and the Caribbean** Aldemaro Romero, Sarah E. West, 2006-02-23 This book is a collection of readings that explore environmental issues in Latin America and the Caribbean using natural science and social science methods. These papers demonstrate the value of interdisciplinary approaches to analyze and solve environmental problems. The essays are organized into five parts: conservation challenges; national policies, local communities, and rural development; market mechanisms for protecting public goods; public participation and environmental justice; and the effects of development policies on the environment.

**Many Middle Passages** Emma Christopher, Cassandra Pybus, Marcus Rediker, 2007-09-03 This groundbreaking book presents a global perspective on the history of forced migration over three centuries and illuminates the centrality of these vast movements of people in the making of the modern world. Highly original essays from renowned international scholars trace the history of slaves, indentured servants, transported convicts, bonded soldiers, trafficked women, and coolie and Kanaka labor across the Pacific, Indian, and Atlantic Oceans. They depict the cruelty of the captivity, torture, terror, and death involved in the shipping of human cargo over the waterways of the world, which continues unabated to this day. At the same time, these essays highlight the forms of resistance and cultural creativity that have emerged from this violent history. Together, the essays accomplish what no single author could provide: a truly global context for understanding the experience of men, women, and children forced into the violent and alienating experience of bonded labor in a strange new world. This pioneering volume also begins to chart a new role of the sea as a key site where history is made.

*The Hukbalahap Insurrection* Lawrence M. Greenberg, 2010-06-01 This publication in the Center for Military History Historical Analysis Series addresses the American role in the Philippine Hukbalahap Insurrection. Brought to the verge of collapse by a wide-spread Communist-inspired insurgency, the government of the Philippines, supported by limited U.S. aid, advice, and assistance, virtually eliminated Huk resistance by 1955. This study examines this remarkable achievement and demonstrates how efforts of uniquely qualified individuals, combined with American foreign policy initiatives and international events, prevented the collapse of an important allied nation. Published originally in 1987 by the Research and Analysis Division's Special Studies Series, *The Hukbalahap Insurrection* has received wide acclaim and sufficient attention to warrant wider distribution. Reprinted in its entirety, it provides contemporary planners with insights and observations that remain as valid today as when American and Filipino officials combined their efforts to defeat the well-organized Huk insurgency.

**One Damned Island After Another: The Saga of the Seventh** Clive Howard, Joe Whitley, 2019-03-11 Clive Howard and Joe Whitley were both sergeants and served as correspondents for the Seventh Air Force during World War 2. The men of the Seventh were forced to fly the longest missions in any theater of war, entirely over water and, at first, without fighter escort. They fought at Midway, Guadalcanal, Tarawa, Kwajalein, Eniwetok, Truk, Saipan, Palau, the

Philippines, Iwo Jima, and finally Tokyo. One Damned Island After Another covers the history of this remarkable air force from the events at Pearl Harbor through to V-J Day, detailing events on every single island that the force landed on in between. This new 2019 edition of One Damned Island After Another includes annotations and original photographs from the Pacific campaigns.

*Twelve Years a Slave* Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.
