How to Make Adorable Baby Animal Dolls Jonni Good, 2013-06 In this book the author shows you exactly how to make your own adorable baby animal collector's dolls, leading you through the entire process every step of the way. Your dolls won't cost much to make, and every doll will be an original, one-of-a-kind work of art. Since no two dolls ever come out exactly alike, each doll will have its own personality and character. You won't have to learn how to make molds for the doll heads, because each one is hand-sculpted over a simple armature. You don't need a kiln, because you'll be using home-made air-dry clay instead of porcelain. The resulting heads are seamless, hollow, and surprisingly strong. The bodies and ears are made out of soft, huggable cotton velour, and the toes are sculpted with a few easy stitches. Adorable!

**Achtung-Panzer!** Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

**Signs Taken for Wonders** Franco Moretti, 2020-05-05 Shakespearean tragedy and Dracula, Sherlock Holmes and Ulysses, Frankenstein and The Waste Land—all are celebrated wonders of modern literature, whether in its mandarin or popular form. However, it is the fact that these texts are so central to our contemporary notion of literature that sometimes hinders our ability to understand them. Franco Moretti applies himself to this problem by drawing skillfully on structuralist, sociological and psycho-analytic modes of enquiry in order to read these texts as literary systems which are tokens of wider cultural and political realities. In the process, Moretti offers us compelling accounts of various literary genres, explores the relationships between high and mass culture in this century, and considers the relevance of tragic, Romantic and Darwinian views of the world.
