Papertoy Monsters Brian Castleforte,2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who

practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

Papertoy Glowbots Brian Castleforte,2016-08-23 Origami meets amazing creatures in a book of paper craft fun! Papertoy Glowbots introduces 46 robots that have the added cool factor of lighting up, whether using glow-in-the-dark stickers that come with the book or light sources like flashlights, Christmas tree lights, and electric tea lights. The 46 die-cut paper robots are created by Brian Castleforte, author of *Papertoy Monsters*, along with the hottest papertoy designers from around the world. Meet the robots and read about their entertaining backstories in the front, then turn to the card stock section in the back to build them. The templates are die-cut and ready to pop out, fold, and glue. Bold, colorful graphics ensure the robots look as amazing in the daytime as they do with the lights off.

Letters to Santa Claus The Elves, 2015-10-05 A “poignant” collection of real letters sent to Santa Claus—a town in Indiana—from the 1930s to the twenty-first century, from both children and adults (The New York Times). For countless Christmases, children—and sometimes adults—have stuffed their dreams, wishes, and promises into envelopes. Over many decades, millions of these letters have poured into Santa Claus, Indiana. Arriving from all corners of the globe, the letters ask for toys, family reunions, snow, and help for the needy—sometimes the needy being the writers themselves. They are candid, heartfelt, and often blunt. Many children wonder how Santa gets into their chimneyless homes. One child reminds Santa that she has not hit her brothers over 1,350 times that year, and another respectfully requests two million dollars in “cold cash.” One child hopes to make his life better with a time machine, an adult woman asks for a man, and one miscreant actually threatens Santa’s reindeer!

Containing more than 250 actual letters and envelopes from the naughty and nice reaching back to the 1930s, this moving book will touch hearts and bring back memories of a time in our lives when the man with a white beard and a red suit held out the hope that our wishes might come true. “Often very affecting . . . also offers an unusual window into American history.” —Library Journal “The letters . . . are alternately silly and somber, hilarious and heartfelt.” —The Weekly Standard
