Snowballs Lois Ehlert, 2001 Pull on your mittens and head outside with Lois Ehlert for a snowball day Grab some snow and start rolling. With a few found objects, like buttons and fabric and seeds, and a little imagination, you can create a whole family out of snow. Ehlert uses collages of cut paper and vibrant, textured objects to dazzling effect in her tribute to building a snowman--and snowgirl and snowcat. Her inventive designs extend the reader's perspective and tweak the limits of the picture-book format.--Publishers Weekly

The Snowy Day Ezra Jack Keats, 2012-10-11 The magic and wonder of winter's first snowfall is perfectly captured in Ezra Jack Keat's Caldecott Medal-winning picture book. Young readers can enjoy this celebrated classic as a full-sized board book, perfect for read-alouds of all kinds and a great gift for the holiday season. In 1962, a little boy named Peter put on his snowsuit and stepped out of his house and into the hearts of millions of readers. Universal in its appeal, this story beautifully depicts a child's wonder at a new world, and the hope of capturing and keeping that wonder forever. This big, sturdy edition will bring even more young readers to the story of Peter and his adventures in the snow. Ezra Jack Keats was also the creator of such classics as Goggles, A Letter to Amy, Pet Show!, Peter's Chair, and A Whistle for Willie. (This book is also available in Spanish, as Un día de nieve.) Praise for The Snowy Day: "Keats made Peter's world so inviting that it

beckons us. Perhaps the busyness of daily life in the 21st century makes us appreciate Peter even more—a kid who has the luxury of a whole day to just be outside, surrounded by snow that’s begging to be enjoyed.” —The Atlantic Ezra Jack Keats's classic *The Snowy Day*, winner of the 1963 Caldecott Medal, pays homage to the wonder and pure pleasure a child experiences when the world is blanketed in snow.—Publisher's Weekly

A Pair of Miracles Karla Akins, 2017-07-25 A parent's gripping journey of awareness, acceptance, and appreciation of her two boys dealing with significant challenges brought on by autism. --Stephen Mark Shore, EdD When Karla Akins hoped that her autistic sons could learn to read and function independently, doctors warned her that those expectations would never be met. She set out to prove that, despite those warnings, all things are possible through God. Laced with humor and compassion, *A Pair of Miracles* is the heartwarming story of her journey rearing adopted twin sons, each diagnosed with autism and fetal alcohol disorder. This is more than a moving biography from a mom on the front lines, however. It is a powerful tool, full of practical help for parents, educators, and church members working with children who have intellectual disabilities, speech impairments, and other limitations on the autism spectrum. It is also a challenge to the church to welcome and celebrate all the members of their congregation, no matter their abilities. Thanks to Karla's determination, faith, and unconditional love--and contrary to the doctors' predictions--her adult twins are now able to

function independently in many ways. They help their dad install pools, do carpentry work, and serve in the church as ushers, sound engineers, and children's ministry workers. For parents seeking hope, answers, and peace, Karla leads the way to all three down a path she's already been.

Asbestos Diary Casimir Dukahz, 1968

Collected Works of Velimir Khlebnikov: Letters and theoretical writings Велимир Хлебников, 1987 Dubbed by his fellow Futurists the King of Time, Velimir Khlebnikov (1885-1922) spent his entire brief life searching for a new poetic language to express his convictions about the rhythm of history, the correspondence between human behavior and the language of the stars. The result was a vast body of poetry and prose that has been called hermetic, incomprehensible, even deranged. Of all this tragic generation of Russian poets (including Blok, Esenin, and Mayakovsky), Khlebnikov has been perhaps the most praised and the more censured. This first volume of the Collected

Works, an edition sponsored by the Dia Art Foundation, will do much to establish the counterimage of Khlebnikov as an honest, serious writer. The 117 letters published here for the first time in English reveal an ebullient, humane, impractical, but deliberate working artist. We read of the continuing involvement with his family throughout his vagabond life (pleas to his smartest sister, Vera, to break out of the mold, pleas to his scholarly father not to condemn and to send a warm overcoat); the naive pleasure he took in being applauded by other artists; his insistence that a young girl's simple verses be included in one of the typically outrageous Futurist publications of the time; his jealous fury at the appearance in Moscow of the Italian Futurist Marinetti; a first draft of his famous zoo poem (O Garden of Animals!); his seriocomic but ultimately shattering efforts to be released from army service; his inexhaustibly courageous confrontation with his own disease and excruciating poverty; and always his deadly earnest attempt to make sense of numbers, language, suffering, politics, and the exigencies of publication. The theoretical writings presented here are even more important than the letters to an understanding of Khlebnikov's creative output. In the scientific articles written before 1910, we discern foreshadowings of major patterns of later poetic work. In the pan-Slavic proclamations of 1908-1914, we find explicit connections between cultural roots and linguistic ramifications. In the semantic excursions beginning in 1915, we can see Khlebnikov's experiments with consonants, nouns, and definitions spelled out

in accessible, if arid, form. The essays of 1916-1922 take us into the future of Planet Earth, visions of universal order and accomplishment that no longer seem so farfetched but indeed resonate for modern readers.

The Complete Book of 1960s Broadway Musicals Dan Dietz, 2014 In *The Complete Book of 1960s Broadway Musicals*, Dan Dietz examines every musical and revue that opened on Broadway during the 1960s. In addition to providing details on every hit and flop, Dietz includes revivals and one-man and one-woman shows that centered on stars like Jack Benny, Maurice Chevalier, Marlene Dietrich, Danny Kaye, Yves Montand, and Lena Horne. In addition to entries for each production, the book offers numerous appendixes: a discography, film and television versions, published scripts, Gilbert and Sullivan operettas, and lists of productions by the New York City Center Light Opera Company, the New York City Opera Company, and the Music Theatre of Lincoln Center.

The Beat Kip Lornell, Charles C. Stephenson Jr., 2010-01-06 *The Beat!* was the first book to explore the musical, social, and cultural phenomenon of go-go music. In this edition, updated by a substantial chapter on the current scene, authors Kip Lornell and Charles C. Stephenson, Jr., place go-go within black popular music made since the middle 1970s—a period during which hip-hop has predominated. This styling reflects the District's African American heritage. Its super-charged drumming and vocal combinations of hip-hop, funk, and soul evolved and still thrive on the streets of Washington, DC, and in neighboring Prince George's County, making it the most geographically compact form of popular music. Go-go—the only musical form indigenous to Washington, DC—features a highly syncopated, nonstop beat and vocals that are spoken as well as sung. The book chronicles its development and ongoing popularity, focusing on many of its key figures and institutions, including established acts such as Chuck Brown (the Godfather of Go-Go), Experience Unlimited, Rare Essence, and Trouble Funk; well-known DJs, managers, and promoters; and filmmakers who have incorporated it into their work. *The Beat!* provides longtime fans and those who study American musical forms a definitive look at the music and its makers.

The King of Time Велимир Хлебников, 1985 Velimir Khlebnikov is one of the

great Russian poets of the 20th century. Hailed by contemporaries and by later scholars as the creative genius behind the Russian Futurist movement, Khlebnikov is famous for his inaccessibility. Now, in a powerful American rendition, we are given access to his strange and beautiful world.

Steel Pier John Kander, David Thompson, Scott Ellis, Susan Stroman, 1998 Genre: Musical Characters: 7 males, 8 females, and chorus of 8 males and 5 females In the honky tonk world of marathon dancing in Atlantic City in 1933, a captivating assortment of depression era souls eager to dance their way into fame and prizes gather on the Steel Pier. The spectacle is presided over by an oily tongued emcee who is secretly married to Rita Racine, the champion dancer. Her usual partner doesn't show up, so she is paired with a handsome pilot on leave. As the hours o

Making Meaning Out of Mountains Mark C. J. Stoddart, 2012 Mountains bear the imprint of human activity. Deep scars from logging and surface mining crosscut the landmarks of sports and recreation - national parks and lookout areas, ski slopes and lodges. Although the environmental effects of extractive industries are well known, skiing is more likely to bring to mind images of luxury, wealth, and health. In Making Meaning out of Mountains, Mark Stoddart draws on interviews, field observations, and media analysis to explore how the ski industry in British Columbia has helped transform mountain environments and, in turn, how skiing has come to be inscribed with multiple, often conflicted meanings informed by power struggles rooted in

race, class, and gender. Corporate leaders promote the skiing industry as sustainable development, while environmentalists and some First Nations argue that skiing sacrifices wildlife habitats and traditional lands to tourism and corporate gain. Skiers themselves appreciate the opportunity to commune with nature but are concerned about skiing's environmental effects. Stoddart not only challenges us to reflect more seriously on skiing's negative impact on mountain environments, he also reveals how certain groups came to be viewed as the natural inhabitants and legitimate managers of mountain environments.

Design Science Methodology for Information Systems and Software Engineering

Roel J. Wieringa, 2014-11-19 This book provides guidelines for practicing design science in the fields of information systems and software engineering research. A design process usually iterates over two activities: first designing an artifact that improves something for stakeholders and subsequently empirically investigating the performance of that artifact in its context. This "validation in context" is a key feature of the book - since an artifact is designed for a context, it should also be validated in this context. The book is divided into five parts. Part I discusses the fundamental nature of design science and its artifacts, as well as related design research questions and goals. Part II deals with the design cycle, i.e. the creation, design and validation of artifacts based on requirements and stakeholder goals. To elaborate this further, Part III presents the role of conceptual frameworks and theories in design science. Part IV continues with the empirical cycle to investigate artifacts in context, and presents

the different elements of research problem analysis, research setup and data analysis. Finally, Part V deals with the practical application of the empirical cycle by presenting in detail various research methods, including observational case studies, case-based and sample-based experiments and technical action research. These main sections are complemented by two generic checklists, one for the design cycle and one for the empirical cycle. The book is written for students as well as academic and industrial researchers in software engineering or information systems. It provides guidelines on how to effectively structure research goals, how to analyze research problems concerning design goals and knowledge questions, how to validate artifact designs and how to empirically investigate artifacts in context – and finally how to present the results of the design cycle as a whole.

Christmas Dolls Joan Muyskens Pursley, 2005-08 A collection of contemporary dolls that celebrate the holiday, this beautiful book will bring out the Christmas spirit in all who open its pages. Over 200 colour photographs of dolls by today's top international artists and manufacturers bring to life every aspect of this beloved holiday. Pursley has arranged the book by the many themes that represent Christmas: Madonnas and nativity-scene figures, interpretations of Santa and his helpers, carollers and characters from favourite Christmas stories, children of Christmas present and glamorous fashion dolls, all decked out for the holidays. Accompanying the works, by makers such as John and Angela Barker, Rotraut Schrott, Helen Kish, Wendy Lawton, Robert Tonner and Käthe Kruse, is Pursley's affecting narrative of the traditions, memories, hopes and wishes that have inspired these pieces. Whether displayed each year with decorations and ornaments as a treasured part of the holiday tradition, or enjoyed as a way to keep the Christmas spirit alive all year long, Christmas Dolls reflects the timeless appeal of its subject.

It's a London Thing Caspar Melville, 2019-11-21 This book tells the history of the London black music culture that emerged in post-colonial London at the end of the twentieth century; the people who made it, the racial and spatial politics of its development and change, and the part it played in founding

London's precious, embattled multiculturalism. It conceives of the linked scenes around black music in London, from ska, reggae and soul in the 1970s, to rare groove and rave in the 1980s and jungle and its offshoots in the 1990s, to dubstep and grime of the 2000s, as demonstrating enough common features to be thought of as one musical culture, an Afro-diasporic continuum. Core to this idea is that this dance culture has been ignored in history and cultural theory and that it should be thought of as a powerful and internationally significant form of popular art.
