Ludwig Mies Van Der Rohe Laura Pavia, Mario Ferrari, 2013 The Mies van Der Rohe building is part of the late production of the German architect but is the one that encloses all the essence of his research. A building where the architectural type of museum perfectly fits the type of the temple. The result is a quiet sacred place able to express itself beyond time. The most interesting thing, in fact, is that this is the Mies' building around which most things have happened. From the IBA building by James Stirling to the monumental Potsdamer Platz site all things have changed around it. But, if you visit now Berlin, you will find that the Neue Nationalgalerie site keeps his holyness alive. This book shows a clean architectural and proportional graphic analysis of the museum through a huge number of sketches, 3d perspective and axonometric views and a complete reconstruction of the process that led Mies to build this wonderful building.

The City Becomes a Symbol William Stivers, Donald A. Carter, 2017 This book covers the U.S. Army's occupation of Berlin from 1945 to 1949. This time includes the end of WWII up to the end of the Berlin Airlift. Talks about the set up of occupation by four-power rule.--Provided by publisher

Urban Memory and Visual Culture in Berlin Simon Ward, 2016 As sites of turbulence and transformation, cities are machines for forgetting. And yet archiving and exhibiting the presence of the past remains a key cultural, political and economic activity in many urban environments. This book takes the example of Berlin over the past four decades to chart how the memory culture of the city has responded to the challenges and transformations thrown up by the changing political, social and economic organization of the built environment. The book focuses on the visual culture of the city (architecture, memorials, photography and film). It argues that the recovery of the experience of time is central to the practices of an emergent memory culture in a contemporary 'overexposed' city, whose spatial and temporal boundaries have long since disintegrated.

City of Exiles Stuart Braun, 2015-05-27 Berlin: no man's land, frontier, a city adrift in the sands of Central Europe. Destroyed, divided and held captive during a century of chaos and upheaval, borderless Berlin has yet remained a city where drifters, dreamers and outsiders can find a place--and finally run free. In City of Exiles, Stuart Braun evokes the restless spirits that have come and gone from Berlin across the last century, the itinerants who are the source of the Berliner Luft, the special free air that infuses this beguiling metropolis.

United States' Reactions After the Raising of the Berlin Wall Patrick Buck, 2013-06 Seminar paper from the year 2006 in the subject Politics - International Politics - Region: USA, grade: 2, University of Wyoming (Political Science), course: Psychology of war and conflicts, language: English, abstract: The United States of America under President John F. Kennedy showed almost no military reaction after the raising of the Berlin Wall. They sent more troops together with Vice President Lyndon B. Johnson to West Berlin, but there was no intention to reopen the border. Instead the US

Government tried to get into negotiations with the Soviet Union about the status of West Berlin. This decision avoided transforming the Cold War into a Hot War, but it also manifested the separation of East and West Germany and made the unification in the near future less likely. The decision helped to establish another socialist state in Europe and locked up 17 million Germans within the borders of East Germany. This paper will focus on the question why President Kennedy and his main advisers decided the way they did. Did they fear the military strength and the use of the Soviet nuclear arsenal? Or did they think they could reach better results by negotiating? Or did they just trade the eastern part of Germany against a secure status quo for West Berlin? Maybe the situation was seen more as a chance for stability than as a threat? The basic information for this research will come from the Digital National Security Archive. The original documents should show who gave information to President Kennedy and his advisers. Who were the talking heads during the decision-making process? Who had the most influence? Was it only an inner-American process or were other allies involved, too? An interesting question is, if there is a change between the evaluation of the situation before and after the raising of the Berlin Wall. So this research will compare some documents before and after the crisis.

Living in Refugee Camps in Berlin: Women's Perspectives and Experiences Hansjörg Dilger,Kristina Dohrn,2016-11-20

The Berlin Wall, August 13, 1961–November 9, 1989 Frederick Taylor,2019-10-29 “This vivid account of the Wall and all that it meant reminds us that symbolism can be double-edged, as a potent emblem of isolation and repression became, in its destruction, an even more powerful totem of freedom.” — The Atlantic Monthly NOW WITH AN UPDATED EPILOGUE 30 YEARS AFTER THE FALL OF THE WALL On the morning of August 13, 1961, the residents of East Berlin found themselves cut off from family, friends, and jobs in the West by a tangle of barbed wire that ruthlessly split a city of four million in two. Within days the barbed-wire entanglement would undergo an extraordinary metamorphosis: it became an imposing 103-mile-long wall guarded by three hundred watchtowers. A physical manifestation of the struggle between Soviet Communism and American capitalism that stood for nearly thirty years, the Berlin Wall was the high-risk fault line between East and West on which rested the fate of all humanity. In the definitive history on the subject, Frederick Taylor weaves together official history, archival materials, and personal accounts to tell the complete story of the Wall's rise and fall.

Berlin Childhood Around 1900 Walter Benjamin,2006 Not an autobiography in the customary sense, Benjamin's recollection of his childhood in an upper-middle-class Jewish home in Berlin's West End at the turn of the century is translated into English for the first time in book form.

Berlin Coquette Jill Suzanne Smith, 2014-05-15 During the late nineteenth century the city of Berlin developed such a reputation for lawlessness and sexual licentiousness that it came to be known as the Whore of Babylon. Out of this reputation for debauchery grew an unusually rich discourse around prostitution. In *Berlin Coquette*, Jill Suzanne Smith shows how this discourse transcended the usual clichés about prostitutes and actually explored complex visions of alternative moralities or sexual countercultures including the New Morality articulated by feminist radicals, lesbian love, and the New Woman. Combining extensive archival research with close readings of a broad spectrum of texts and images from the late Wilhelmine and Weimar periods, Smith recovers a surprising array of productive discussions about extramarital sexuality, women's financial autonomy, and respectability. She highlights in particular the figure of the *cocotte* (Kokotte), a specific type of prostitute who capitalized on the illusion of respectable or upstanding womanhood and therefore confounded easy categorization. By exploring the semantic connections between the figure of the *cocotte* and the act of flirtation (of being coquette), Smith's work presents flirtation as a type of social interaction through which both prostitutes and non-prostitutes in Imperial and Weimar Berlin could express extramarital sexual desire and agency.

Housing Estates in the Berlin Modern Style Markus Jager, 2007 Berlin boasts six modernist housing estates, all built between 1913 and 1932, by architects such as Bruno Taut and Hans Scharoun with the goal of providing affordable housing. These housing complexes are of great international significance and have been extremely well preserved. The housing projects were all planned to include bathrooms, kitchens, and balconies, with green space surrounding the complexes so that residents could enjoy sunlight and fresh air. These housing estates continue to remain an example for international housing projects.

Moabit Sonnets Albrecht Haushofer, 1978 These eighty sonnets were written by a man expecting to be executed for his resistance to the Nazi regime.

The People's State Mary Fulbrook, 2008-12-02 What was life really like for East Germans, effectively imprisoned behind the Iron Curtain? The headline stories of Cold War spies and surveillance by the secret police, of political repression and corruption, do not tell the whole story. After the unification of Germany in 1990 many East Germans remembered their lives as interesting, varied, and full of educational, career, and leisure opportunities: in many ways "perfectly ordinary lives." Using the rich resources of the newly-opened GDR archives, Mary Fulbrook investigates these conflicting narratives. She explores the transformation of East German society from the ruins of Hitler's Third Reich to a modernizing industrial state. She examines changing conceptions of normality within an authoritarian political system, and provides extraordinary insights into the ways in which individuals perceived their rights and actively sought to shape their own lives. Replacing the simplistic black-and-white concept of "totalitarianism" by the notion of a "participatory dictatorship," this book seeks to reinstate the East German people as actors in their own history.

Berlin Childhood Circa 1900 Walter Benjamin, 2015 This book of new research and commentary by Carl Skoggard brings philosopher Walter Benjamin's engaging autobiographical text into a new translation that is faithful to Benjamin's voice. *Berlin Childhood circa 1900*, Skoggard writes, conjures Benjamin's earliest years in a series of mysterious tableaux. But it also reflects an urgent moment in his adult life—one that posed challenges to everything he had thought and felt previously. Our Jank Edition is illustrated with thirty black & white photographs and includes a foldable, color map of Berlin, circa 1900, offset-printed by Container Corps, Portland, Ore.

Living the End of Antiquity Sabine R. Huebner, Eugenio Garosi, Isabelle Marthot-Santaniello, Matthias Müller, Stefanie Schmidt, Matthias Stern, 2020-05-05 This volume covers the transition period stretching from the reign of Justinian I to the end of the 8th century, focusing on the experience of individuals who lived through the last decades of Byzantine rule in Egypt before the arrival of the new Arab rulers. The contributions drawing from the wealth of sources we have for Egypt, explore phenomena of stability and disruption during the transition from the classical to the postclassical world.

Emergent Religious Pluralisms Jan-Jonathan Bock, John Fahy, Samuel Everett, 2020-10-22 In a rapidly changing world, in which religious identities emerge as crucial fault lines in political and public discourse, this volume brings together multiple disciplinary perspectives in order to investigate shifting conceptions of, and commitments to, the ideals of religious pluralism. Spanning theology, sociology, politics and anthropology, the chapters explore various approaches to coexistence, political visions of managing diversity and lived experiences of multireligiosity, in order to examine how modes of religious pluralism are being constructed and contested in different parts of the world. Contributing authors analyse challenges to religious pluralism, as well as innovative kinds of conviviality, that produce meaningful engagements with diversity and shared community life across different social, political and economic settings. This book will be relevant to scholars of religion, community life, social change and politics, and will also be of interest to civil society organisations, NGOs, international agencies and local, regional and national policymakers.

Acting in Public Raumlaborberlin (Group), 2008 Mountain hiking in the ruins of Berlin's Palast der Republik, former home of the East German parliament; building a hotel in an abandoned prefab high-rise; creating an architectural sculpture in an allotment garden... For the last 10 years the radical, utopian Berlin-based interdisciplinary team raumlaborberlin has been carrying out sensational interventions and activities that shape a new perception of architecture--acting in public in order to force the questioning of public and private space and activities. In this galvanizing and well designed volume, a conversation on design processes and working methods within raumlabor complements detailed presentations of the group's most important projects while an illustrated index introduces 72 projects in text and image. The firm's objective is to attract attention to alternative strategies of urban renewal and urban planning and to encourage residents to become involved in shaping their own living environments: We call on people to get involved, we want to show them that becoming part of urban processes is worth the risk.
