Homo Deus Yuval Noah Harari, 2017-02-21 Official U.S. edition with full color illustrations throughout. NEW YORK TIMES BESTSELLER Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon *Sapiens*, returns with an equally original, compelling, and provocative book, turning his focus toward humanity's future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from bingeing at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? *Homo Deus* explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is *Homo Deus*. With the same insight and clarity that made *Sapiens* an international hit and a New York Times bestseller, Harari maps out our future.

Encounters with Islam Malise Ruthven, 2012-05-14 For many years Malise Ruthven has been at the forefront of discerning commentary on the Islamic world and its relations with the predominantly secularised and Christian societies of the West. Well known for his bold interventions on such issues as the Rushdie affair and publication of *The Satanic Verses*; the many unresolved questions relating to the Lockerbie bombing; and the globe-changing terrorist attack of 9/11, Ruthven's perceptive writings, particularly those that have appeared in the New York Review of Books, reliably re-frame difficult issues and problems so that his readers are prompted to look at the challenges afresh. Ruthven is here at his most compelling: he offers astute and topical insights across the whole spectrum of Middle East and Islamic studies. Whether questioning the involvement of Libyan agents in the downing of Pan Am Flight 103; exploring the contested place of women in Islam; or discussing the disputed term 'Islamofascism' (his own), the author's probing, searchlight intelligence aims always to get at the truth of things, regardless of attendant controversy. Representing the 'best of Ruthven', these lucid essays will be widely appreciated by students, specialists and general readers. They transform our understandings of contemporary society.

Messages to the World Osama bin Laden, 2020-05-05 Despite the saturation of global media coverage, Osama bin Laden's own writings have been curiously absent from analysis of the war on terror. Over the last ten years, bin Laden has issued a series of carefully tailored public statements, from interviews with Western and Arabic journalists to faxes and video recordings. These texts supply evidence crucial to an understanding of the bizarre mix of Quranic scholarship, CIA training, punctual interventions in Gulf politics and messianic anti-imperialism that has formed the programmatic core of Al Qaeda. In bringing together the various statements issued under bin Laden's name since 1994, this volume forms part of a growing discourse that seeks to demythologize the terrorist network. Newly translated from the Arabic, annotated with a critical introduction by Islamic scholar Bruce Lawrence, this collection places the statements in their religious, historical and political context. It shows how bin Laden's views draw on and differ from other strands of radical Islamic thought; it also demonstrates how his arguments vary in degrees of consistency, and how his evasions concerning the true nature and extent of his own group, and over his own role in terrorist attacks, have contributed to the perpetuation of his personal mythology.

Rebel Music Hisham Aidi, 2014-12-02 In this pioneering study, Hisham Aidi—an expert on globalization and social movements—takes us into the musical subcultures that have emerged among Muslim youth worldwide over the last decade. He shows how music—primarily hip-hop, but also rock, reggae, Gnawa and Andalusian—has come to express a shared Muslim consciousness in face of War on Terror policies. This remarkable phenomenon extends from the banlieues of Paris to the favelas of Rio de Janeiro, from the park jams of the South Bronx to the Sufi rock bands of Pakistan. The United States and other Western governments have even tapped into these trends, using hip hop and Sufi music to de-radicalize Muslim youth abroad. Aidi situates these developments in a broader historical context, tracing longstanding connections between Islam and African-American music. Thoroughly researched, beautifully written, *Rebel Music* takes the pulse of a revolutionary soundtrack that spans the globe.

September 11 Fiction of Matrix Faruk Arslan, 2005-08-01 I was inspired by Hollywood movie in giving a name to this book. Matrix is the name of a fake world which is believed to be fictitious. September 11 was a starting point which differentiates between those who resist and those who don't and between those who believe and those who don't. I agree with war on terrorism, blame all kind of terrorist and terror acts, but I disagree with the fiction of Matrix. Absolutely, Al Qaeda is a terrorist organization and Laden is the mastermind of terrorism. Thank you Canada. I am proud of being Canadian, otherwise I would not feel free to write this book in US. Cigars of the Pharaoh Hergé, 2006 One of Tintin's earliest adventures, written in 1932 (also rewritten in the 50s). In this facsimile edition, it appears as it did 70 years ago, but with a fresh, new translation. Tintin and Snowy are on a cruise in Egypt when they meet Professor Sophocles Sarcophagus (the first of Tintin's absent-minded professors) and join his expedition. They become embroiled in a complicated scheme involving a fakir, cigars marked with an unusual brand and Rajijah, the poison of madness.

Mobility, Spatiality, and Resistance in Literary and Political Discourse Christian Beck, 2021-11-11 Mobility, Space, and Resistance: Transformative Spatiality in Literary and Political Discourse draws from various disciplines—such as geography, sociology, political science, gender studies, and poststructuralist thought—to posit the productive capabilities of literature in political action and at the same time show how literary art can resist the imposition and domination of oppressive systems of our spatial lives. The various approaches, topics, and types of literature discussed in this volume display a concern for social issues that can be addressed in and through literature. The essays address social injustice, oppression, discrimination, and their spatial representations. While offering interpretations of literature, this collection seeks to show how literary spaces contribute to understanding, changing, or challenging physical spaces of our lived world.

Modern Enchantments Simon During, 2004-03-01 Magic, Simon During suggests, has helped shape modern culture. Devoted to this deceptively simple proposition, During's superlative work, written over the course of a decade, gets at the aesthetic questions at the very heart of the study of culture. How can the most ordinary arts--and by magic, During means not the supernatural, but the special effects and conjurings of magic shows--affect people? Modern Enchantments takes us deeply into the history and workings of modern secular magic, from the legerdemain of Isaac Fawkes in 1720, to the return of real magic in nineteenth-century spiritualism, to the role of magic in the emergence of the cinema. Through the course of this history, During shows how magic performances have drawn together heterogeneous audiences, contributed to the molding of cultural hierarchies, and extended cultural technologies and media at key moments, sometimes introducing spectators into rationality and helping to disseminate skepticism and publicize scientific innovation. In a more revealing argument still, Modern Enchantments shows that magic entertainments have increased the sway of fictions in our culture and helped define modern society's image of itself.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Sapiens Yuval Noah Harari, 2015-02-10 New York Times Bestseller A Summer Reading Pick for President Barack Obama, Bill Gates, and Mark Zuckerberg From a renowned historian comes a groundbreaking narrative of humanity's creation and evolution—a #1 international bestseller—that explores the ways in which biology and history have defined us and enhanced our understanding of what it means to be “human.” One hundred thousand years ago, at least six different species of humans inhabited Earth. Yet today there is only one—homo sapiens. What happened to the others? And what may happen to us? Most books about the history of humanity pursue either a historical or a biological approach, but Dr. Yuval Noah Harari breaks the mold with this highly original book that begins about 70,000 years ago with the appearance of modern cognition. From examining the role evolving humans have played in the global ecosystem to charting the rise of empires, Sapiens integrates history and science to reconsider accepted narratives, connect past developments with contemporary concerns, and examine specific events within the context of larger ideas. Dr. Harari also compels us to look ahead, because over the last few decades humans have begun to bend laws of natural selection that have governed life for the past four billion years. We are acquiring the ability to design not only the world around us, but also ourselves. Where is this leading us, and what do we want to become? Featuring 27 photographs, 6 maps, and 25 illustrations/diagrams, this provocative and insightful work is sure to spark debate and is essential reading for aficionados of Jared Diamond, James Gleick, Matt Ridley, Robert Wright, and Sharon Moalem.
