Sustainable Energy - without the hot air David JC MacKay, 2016-05-14 The enlightening, best-selling book on understanding sustainable energy and how we can make energy plans that add up. If you've ever wondered how much energy we use, and where it comes from – and where it could come from – but are fed up with all the hot air and 'greenwash', this is the book for you. Renewable resources are 'huge', but our energy consumption is also 'huge'. To compare 'huge' things with each other, we need numbers, not adjectives. Sustainable Energy – without the hot air addresses the energy crisis objectively, cutting through all the contradictory statements from the media, government, and lobbies of all sides. It gives you the numbers and the facts you need, in bite-sized chunks, so you can understand the issues yourself and organises a plan for change on both a personal level and an international scale – for Europe, the United States, and the world. In case study format, this informative book also answers questions surrounding nuclear energy, the potential of sustainable fossil fuels, and the possibilities of sharing renewable power with foreign countries. Written by David MacKay, who was an esteemed Professor of Engineering at the University of Cambridge and Chief Scientific Advisor to the UK Department of Climate Change, this is an uplifting, jargon-free and informative read for all. In it, David debunks misinformation and clearly explains the calculations of expenditure per person to encourage people to make individual changes that will benefit the world at large. If you've thrown your hands up in despair thinking no solution is possible, then read this book - it's an honest, realistic, and humorous discussion of all our energy options.

**Complex Systems and Social Practices in Energy Transitions** Nicola Labanca, 2017-05-02 This book offers an interdisciplinary discussion of the fundamental issues concerning policies for sustainable transition to renewable energies from the perspectives of sociologists, physicists, engineers, economists, anthropologists, biologists, ecologists and policy analysts. Adopting a combined approach, these are analysed taking both complex systems and social practice theories into consideration to provide deeper insights into the evolution of energy systems. The book then draws a series of important conclusions and makes recommendations for the research community and policy makers involved in the design and implementation of policies for sustainable energy transitions.

Tomlinson also writes that he ran an undercover operation in Sarajevo while the city was under siege, and infiltrated and dismantled a criminal group that sought to export chemical weapons capabilities to Iran.

**I William Zartman: A Pioneer in Conflict Management and Area Studies** I. William Zartman, 2019-05-13 The work draws on wide-ranging area analysis to develop inductively new concepts and approaches for further use in explanation and application. Divided into two parts, it begins with analysis of revolution and socio-political unrest, followed by models of ethnic conflict and elite circulation in developing societies. It presents the cultural dialectic present in Islam. It then lays out the patterns of mediation and negotiation in managing and resolving conflict, culminating with an analysis of intractables. Part two on governance lays out the nature of world order, cooperation, and conciliation. It then turns to the challenges of identity, ideology, and interest, with some specific attention to the nature of borders and borderlands, and focuses on governance as conflict management and as negotiation. - This book encompasses a new analysis of a neglected part of International Relation, the prevention and management of conflict. - The book confronts sources and patterns of contentious politics with systems and methods of governance. - The book lays out a comprehensive conceptualization of the process of conflict management and negotiation, including questions of when as well as how.

*Dope in the Age of Innocence* Damien Enright, 2014-06-27 Ibiza, 1960: on the beautiful Mediterranean island, the high-rise resorts are still decades away. By chance, Damien Enright, twenty-one-years old and Irish, arrives there with his wife and two children and finds a handful of down-at-heel foreign Bohemians leading wild, hedonistic lives. He and his wife get involved; their marriage quickly breaks down and he spends two heartbroken years in London before returning to Ibiza with a new partner and another child. They take LSD and inspired by dreams of a brave new world, cross to the remote island of Formentera to lead alternative lives. This is a decade before Howard Marks became Mr. Nice: the embryonic drug culture in the west motivated not by profit but by idealism. Sometimes, that early search for freedom ventured not just beyond the mind but beyond the law. To sustain their families on Formentera, Enright and two desperado pals head to London in a beat-up car and do some risky travellers cheque scams. Then, restless and unsure of his love for his partner, he makes a hair-raising trek to Turkey in the depths of winter to find hashish for the group. Things go badly awry and he finds himself a fugitive, at the mercy of unreliable friends. Part road story, drug story, love story, *Dope in the Age of Innocence* is fundamentally a parable about drug enlightenment, the loss and rediscovery of love and the tempering of innocence.

**Notes from Walnut Tree Farm** Roger Deakin,2008 From the author of the acclaimed and much-loved Waterlogand Wildwood. For the last six years of his life, Roger Deakin kept notebooks in which he wrote his daily thoughts, impressions, feelings and observations. Discursive, personal and often impassioned, they reveal the way he saw the world, whether it be observing the teeming ecosystem that was Walnut Tree Farm, thinking about the wider environment, walking in his fields or on Mellis Common, or quietly contemplating his past and present life. Notes From Walnut Tree Farmcollects the very best of these writings, capturing Roger's extraordinary, restless curiosity into the natural and human worlds, his love of literature and music, his knack for making unusual and apposite connections, and of course his distinct and subversive charm and humour.
