Chimamanda Ngozi Adichie

Feral Cities Tristan Donovan, 2015-04-01 We tend to think of cities as a realm apart, somehow separate from nature, but nothing could be further from the truth. In *Feral Cities*, Tristan Donovan digs below the urban gloss to uncover the wild creatures that we share our streets and homes with, and profiles the brave and fascinating people who try to manage them. Along the way readers will meet the wall-eating snails that are invading Miami, the boars that roam Berlin, and the monkey gangs of Cape Town. From feral chickens and carpet-roaming bugs to coyotes hanging out in sandwich shops and birds crashing into skyscrapers, *Feral Cities* takes readers on a journey through streets and neighborhoods that are far more alive than we often realize, shows how animals are adjusting to urban living, and asks what messages the wildlife in our metropolises have for us.

The American Yawp Joseph L. Locke, Ben Wright, 2019-01-22 I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world.—Walt Whitman, *Song of Myself*, *Leaves of Grass* *The American Yawp* is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. *The Yawp* highlights the dynamism and conflict

inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, *The American Yawp* incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of *The American Yawp* will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. *The American Yawp* traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, *The American Yawp* gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

Cultures of Collecting Roger Cardinal, 2004-09-02 This book traces the psychology, history and theory of the compulsion to collect, focusing not just on the normative collections of the Western canon, but also on collections that reflect a fascination with the Other and the marginal – the ephemeral, exotic, or just plain curious. There are essays on the Neoclassical architect Sir John Soane, Sigmund Freud and Kurt Schwitters, one of the masters of collage. Others examine imperialist encounters with remote cultures – the conquistadors in America in the sixteenth century, and the British in the Pacific in the eighteenth – and the more recent collectors of popular culture, be they of Swatch watches, Elvis Presley memorabilia or of packaging and

advertising. With essays by Jean Baudrillard, Thomas DaCosta Kaufmann, Nicholas Thomas, Mieke Bal, John Forrester, John Windsor, Naomi Schor, Susan Stewart, Anthony Alan Shelton, John Elsner, Roger Cardinal and an interview with Robert Opie.

At the Dark End of the Street Danielle L. McGuire,2011-10-04

Here is the courageous, groundbreaking story of Rosa Parks and Recy Taylor—a story that reinterprets the history of America's civil rights movement in terms of the sexual violence committed against Black women by white men. An important step to finally facing the terrible legacies of race and gender in this country.” —The Washington Post Rosa Parks was often described as a sweet and reticent elderly woman whose tired feet caused her to defy segregation on Montgomery’s city buses, and whose supposedly solitary, spontaneous act sparked the 1955 bus boycott that gave birth to the civil rights movement. The truth of who Rosa Parks was and what really lay beneath the 1955 boycott is far different from anything previously written. In this groundbreaking and important book, Danielle McGuire writes about the rape in 1944 of a twenty-four-year-old mother and sharecropper, Recy Taylor, who strolled toward home after an evening of singing and praying at the Rock Hill Holiness Church in Abbeville, Alabama. Seven white men, armed with knives and shotguns, ordered the young woman into their green Chevrolet, raped her, and left her for dead. The president of the local NAACP branch office sent his best investigator and organizer—Rosa Parks—to Abbeville. In taking on this case, Parks launched a movement that exposed a ritualized history of sexual assault against Black women and added fire to the growing call for change.

Placer Gold Deposits of Nevada (Classic Reprint)

Maureen G. Johnson,2017-11-18 Excerpt from Placer Gold Deposits of Nevada Following the discovery of placers at Gold Canyon, placer discoveries in Nevada were broadly in three

periods: the 1860's to 1880's, when many small deposits throughout the State were discovered and sporadically worked and several large placers were discovered and extensively worked; the short period between 1906 and 1910, when very rich placers were discovered at Lynn, Battle Mountain, Manhattan, and Round Mountain; the early 1930's, when economic conditions created by the depression caused a renewed interest in placer mining, and many individuals sought, and a few discovered, new placer areas throughout the State. The location of the placers described in this report is shown on plate 1. Very little factual information can be found about the early periods of placer mining in Nevada. For many placers, the only reports available are hearsay estimates of production and speculations about the extent of the placer ground based on remnants of placer pits, shafts, and other workings. Many of the placers said to have had a high production between 1860 and 1890 were worked by Chinese miners who came to Nevada during the building of the railroads and stayed on to work at mining and other activities. The Chinese were reputed to be secretive with their earnings from the placers and did not ship the gold to the mint by Wells Fargo or other shippers. They worked the gravels very thoroughly in areas where American miners did not wish to expend great labor to win the gold. The placers in the Sierra and Spring Valley districts, Pershing County, were worked by Chinese miners; they have a very high estimated production before 1900 and a comparatively low known production since that time. We Should All Be Feminists Chimamanda Ngozi

Adichie,2015-02-03 NEW YORK TIMES BESTSELLER • The highly acclaimed, provocative essay on feminism and sexual politics—from the award-winning author of *Americanah* In this personal, eloquently-argued essay—adapted from the much-admired TEDx talk of the same name—Chimamanda Ngozi Adichie offers readers a unique definition of feminism for the twenty-first century. City Limits Keith Hayward, 2004-08-02 *City Limits* contributes to a growing body of work under the umbrella of 'cultural criminology', which attempts to bring an appreciation of cultural change to an understanding of crime in late modernity (Hayward and Young 2004). Hayward presents an ambitious theoretical analysis that attempts to inspire a 'cultural approach' to understanding the 'crime-city nexus' and, in particular, to re-address 'strain' and the concept of 'relative deprivation' in the context of a culture of consumption. The book incorporates an impressive array of literature from beyond the boundaries of traditional criminology - including urban studies, social theory and, most strikingly, from art and architectural criticism - illustrating a multidisciplinary approach. This provides for a challenging and enlightening read, with a particularly important emphasis on the impact of consumer culture on the lived urban experience and spatial dynamics of the city and, in turn, for an understanding of transgression and criminality. Runner-up for the British Society of Criminology Book Prize (2004).

The Work of the Civilian Conservation Corps James Barnett, 2015-01-03 The Civilian Conservation Corps was created in 1933 by U.S. President Franklin D. Roosevelt in response to the Nation's dire unemployment and imperiled natural resources. The CCC had a great impact on Louisiana by employing youth to work on conservation projects throughout the State. Although the influence and accomplishments of the CCC have been recognized widely, there is little specific information on enrollees and camps in Louisiana.

Foundations of the Nazi Police State George C. Browder, 2021-05-11 A comprehensive study of the lesser-known organizations that formed the heart of the Nazi police state in World War II Germany. The abbreviation "Nazi," the acronym "Gestapo," and the initials "SS" have become resonant elements of our vocabulary. Less known is "SD," and hardly anyone recognizes the combination "Sipo and SD." Although Sipo and SD

formed the heart of the National Socialist police state, the phrase carries none of the ominous impact that it should. Although no single organization carries full responsibility for the evils of the Third Reich, the SS-police system was the executor of terrorism and “population policy” in the same way the military carried out the Reich’s imperialistic aggression. Within the police state, even the concentration camps could not rival the impact of Sipo and SD. It was the source not only of the “desk murderers” who administered terror and genocide by assigning victims to the camps, but also of the police executives for identification and arrest, and of the command and staff for a major instrument of execution, the Einsatzgruppen. Foundations of the Nazi Police State offers the narrative and analysis of the external struggle that created Sipo and SD. This book is the author’s preface to his discussion of the internal evolution of these organizations in Hitler’s Enforcers: The Gestapo and the SS Security Service in the Nazi Revolution. “A welcome addition to the literature on National Socialist Germany.” —American Historical Review “Sheds new light on Himmler’s role in the complex web of the Nazi police state.” —Publishers Weekly “[The book] makes major changes in our understanding of the structure and functioning of the Nazi police state.” —Canadian Journal of History “This is the first comprehensive study of how the Gestapo and all other detective police came to be united under the Sipo (Security Police) and tied to the SD (The Security Services of the Party and SS).” —Educational Book Review “The work fills an important gap in the literature on the Third Reich.” —TheHistorian
