Lame Deer, Seeker of Visions Lame Deer,Richard Erdoes,1994-10 Lame Deer Storyteller, rebel, medicine man, Lame Deer was born almost a century ago on the Rosebud Reservation in South Dakota. A full-blooded Sioux, he was many things in the white man's world -- rodeo clown, painter, prisoner. But, above all, he was a holy man of the Lakota tribe. Seeker of Vision The story he tells is one of harsh youth and reckless manhood, shotgun marriage and divorce, history and folklore as rich today as ever -- and of his fierce struggle to keep pride alive, though living as a stranger in his own ancestral land.

Music Scenes Andy Bennett,Richard A. Peterson,2004 While more than 80 percent of the world's commercial music is controlled by four multinational firms, most music is made and enjoyed in diverse situations divorced from such corporate behemoths. These fourteen original essays examine the fascinating world of music scenes, those largely inconspicuous sites where clusters of musicians, producers, and fans explore their common musical tastes and distinctive lifestyle choices. Although most music scenes come and go with hardly a trace, they nevertheless give immense satisfaction to their participants, and a few - New York bop jazz, Merseybeat, Memphis rockabilly, London punk, Bronx hiphop - achieve fame and spur musical innovations. To date, serious study of the scenes phenomenon has focused mainly on specific music scenes while paying less attention to recurrent dynamics of scene life, such as how individuals construct and negotiate scenes to the various activities. This volume remedies that neglect. The editors distinguish between three types of scenes - local, translocal, and virtual - which provide the organizing framework for the essays. Aspects of local scenes, which are confined to specific areas, are explored through essays on Chicago blues, rave, karaoke, teen pop, and salsa. The section on translocal scenes, which involve the coming together of scattered local scenes around a particular type of music and lifestyle, includes articles on Riot Grrrls, goths, art music, and anarcho-punk. Aspects of virtual scenes, in which fans communicate via the internet, are illustrated using alternative country, the Canterbury sound, postrock, and Kate Bush fans. Also included is an essay that shows how the social conditions in places where jazz was made influenced that music's development.

366 Days of World War II Richard Binder,2015-02-21 World War II lasted six years. That's 2,194 days. What happened in those six years? In this new diary, author Richard Binder takes a radical new approach to telling the story of the worst conflict humanity has ever experienced. Instead of trying to cover everything, he relates the happenings of just 366 days, the length of a single year. Choosing events great and small from the beginning of the war to its bitter end, he gives you a fascinating and sometimes shocking look at things you know from your high-school history and things you may never have heard of.

The Cambridge Prehistory of the Bronze and Iron Age Mediterranean A. Bernard Knapp,Peter van Dommelen,2015-01-12 The Cambridge Prehistory of the Bronze and Iron Age Mediterranean offers new insights into the material and social practices of many different Mediterranean peoples during the Bronze and Iron Ages, presenting in particular those features that both connect and distinguish them. Contributors discuss in depth a range of topics that motivate and structure Mediterranean archaeology today, including insularity and connectivity; mobility, migration, and colonization; hybridization and cultural encounters; materiality, memory, and identity; community and household; life and death; and ritual and ideology. The volume's broad coverage of different approaches and contemporary archaeological practices will help practitioners of Mediterranean archaeology to move the subject forward in new and dynamic ways. Together, the essays in this volume shed new light on the people, ideas, and materials that make up the world of Mediterranean archaeology today, beyond the borders that separate Europe, Africa, and the Middle East.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
