Lame Deer, Seeker of Visions Lame Deer, Richard

Erdoes, 1994-10 Lame Deer Storyteller, rebel, medicine man, Lame Deer was born almost a century ago on the Rosebud Reservation in South Dakota. A full-blooded Sioux, he was many things in the white man's world -- rodeo clown, painter, prisoner. But, above all, he was a holy man of the Lakota tribe. *Seeker of Vision* The story he tells is one of harsh youth and reckless manhood, shotgun marriage and divorce, history and folklore as rich today as ever -- and of his fierce struggle to keep pride alive, though living as a stranger in his own ancestral land.

Music Scenes Andy Bennett, Richard A. Peterson, 2004 While more than 80 percent of the world's commercial music is controlled by four multinational firms, most music is made and enjoyed in diverse situations divorced from such corporate behemoths. These fourteen original essays examine the fascinating world of music scenes, those largely inconspicuous sites where clusters of musicians, producers, and fans explore their common musical tastes and distinctive lifestyle choices. Although most music scenes come and go with hardly a trace, they nevertheless give immense satisfaction to their participants, and a few - New York bop jazz,

Merseybeat, Memphis rockabilly, London punk, Bronx hip-hop - achieve fame and spur musical innovations. To date, serious study of the scenes phenomenon has focused mainly on specific music scenes while paying less attention to recurrent dynamics of scene life, such as how individuals construct and negotiate scenes to the various activities. This volume remedies that neglect. The editors distinguish between three types of scenes - local, translocal, and virtual - which provide the organizing framework for the essays. Aspects of local scenes, which are confined to specific areas, are explored through essays on Chicago blues, rave, karaoke, teen pop, and salsa. The section on translocal scenes, which involve the coming together of scattered local scenes around a particular type of music and lifestyle, includes articles on Riot Grrrls, goths, art music, and anarcho-punk. Aspects of virtual scenes, in which fans communicate via the internet, are illustrated using alternative country, the Canterbury sound, postrock, and Kate Bush fans. Also included is an essay that shows how the social conditions in places where jazz was made influenced that music's development.

Ferdinand and Elephant Tank Destroyer Thomas

Anderson, 2015-04-20 This is the story of the largest and statistically most successful tank destroyer of World War II. The Ferdinand was a true behemoth, and although only 91 examples were built, they took a savage toll of Soviet armour in the Battle of

Kursk and subsequent operations on the Eastern Front. This study explores the technical development and combat deployment of this remarkable vehicle, from its' origins in the Porsche Tiger Tank through its deployment under the designation 'Ferdinand' in the Citadel offensive, to its modification and redesignation as the 'Elefant' and final use in the desperate Battle of Berlin. Drawing on original archival material from within Germany, private collections and heretofore unpublished photographs this title is an essential illustrated history to one of the most famous armoured vehicles ever built.

Conrad's Narrative Voice Werner Senn, 2017-01-09 In Conrad's Narrative Voice Werner Senn undertakes a close study of Joseph Conrad's verbal style, drawing on linguistic stylistics and discourse analysis. He shows how an oral narrative voice informs all textual levels to convey Conrad's sceptical, even pessimistic worldview.

Chicken 20 Ways America's Test Kitchen, 2020-04-28 This collection is packed with 20 easy-to-make recipes that rely on little more than chicken and pantry staples. You'll learn how a few flavor-packed ingredients can transform humble chicken into the star of the dinner table. Take our spice-cabinet chicken recipes,

which will simplify your grocery shopping—just raid your spice cabinet for three delicious takes on roast whole chicken. Or how about Southern-Style Stewed Chicken and Rice, a comforting one-pot meal that features rice plumped with flavored stock and tossed with tender pieces of shredded chicken? Chicken Mole Poblano surprisingly depends on pantry essentials such as dried chiles, nuts, a handful of common dried herbs and spices, and a bit of chocolate for its deeply complex flavor.

Young People Re-Generating Politics in Times of Crises Sarah Pickard, Judith Bessant, 2017-07-31 This book provides insight into the diverse ways young people from around the world are regenerating politics in innovative and multifaceted ways. The authors, who include academics and activists, challenge claims that young people are apolitical, apathetic and living up to the ‘me generation’ stereotype. Contributions cover a rich body of case examples of traditional and new forms of youth politics in response to situated injustices and political and socio-economic crises. Significant and optimistic, the collection presents strong evidence from across the globe that these developments are not isolated incidences, but are in fact part of a systemic, large-scale transformation leading to a regeneration of the political landscape

by young people. The book is aimed at students and scholars in the fields of politics, sociology, policy studies and youth and childhood studies.

Original Grin Ron English, 2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie *Supersize Me*; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on *The Simpsons* secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.

It's Not Easy Being a Superhero Kelli Call, 2019-01-15 Unlike

most superheroes, Clark's superpowers aren't a secret. And instead of just one, Clark has five superpowers he must learn to control: super hearing, super sight, super smell, super taste, and super feeling. He uses his five superpowers to defeat sensory triggers, and his arch nemesis Igor Ance. This beautifully illustrated picture book helps parents, teachers, students, and friends understand what it's like for these superheroes who have sensory processing disorder and the tricks they learn to control their powers.

A Clash of Cymbals James Blish,1974

86--EIGHTY-SIX, Vol. 6 (light Novel) Asato Asato,2020-11-03

Live to fight. Die with honor. That was all they knew, and they were proud. But as they saw themselves reflected in the Sirins-slaughtered by the thousands with nothing to show for it-a crack formed in their ironclad resolve. Shin's mind festered with doubt. Lena's heart tore at the seams as she struggled to understand him. Would they find common ground over the course of the United Kingdom operation? Or would they drift further apart...?

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an

outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Destiny: Grimoire Anthology - Volume 4 Bungie, 2021-11 Until now, the myths, mysteries, and machinations of the Destiny universe were found hidden throughout the worlds - enticing threads that hinted at a greater tapestry. The Destiny Grimoire Anthology weaves tales from multiple sources together for the first time, casting new light on Destiny's most legendary heroes, infamous villains, and their greatest moments of triumph and

tragedy.

Manga Vision Sarah E. Pasfield-Neofitou, Cathy Sell, 2016

Manga Vision examines cultural and communicative aspects of Japanese comics, drawing together scholars from Japan, Australia and Europe working in areas as diverse as cultural studies, linguistics, education, music, art, anthropology, and translation, to explore the influence of manga in Japan and worldwide via translation, OEL manga and fan engagement. The volume includes a mix of theoretical, methodological, empirical and professional practice-based chapters, examining manga from both academic and artistic perspectives. Manga Vision also provides the reader with a multimedia experience, featuring original artwork by Australian manga artist Queenie Chan, cosplay photographs, and an online supplement offering musical compositions inspired by manga, and downloadable manga-related teaching resources.
