**Book of Rhymes** Adam Bradley,2017-06-27 If asked to list the greatest innovators of modern American poetry, few of us would think to include Jay-Z or Eminem in their number. And yet hip hop is the source of some of the most exciting developments in verse today. The media uproar in response to its controversial lyrical content has obscured hip hop's revolution of poetic craft and experience: Only in rap music can the beat of a song render poetic meter audible, allowing an MC's wordplay to move a club-full of eager listeners.Examining rap history's most memorable lyricists and their inimitable techniques, literary scholar Adam Bradley argues that we must understand rap as poetry or miss the vanguard of poetry today. Book of Rhymes explores America's least understood poets, unpacking their surprisingly complex craft, and according rap poetry the respect it deserves.

Performance Artists Talking in the Eighties Linda M. Montano,2023-09-01 Performance artist Linda Montano, curious about the influence childhood experience has on adult work, invited other performance artists to consider how early events associated with sex, food, money/fame, or death/ritual resurfaced in their later work. The result is an original and compelling talking performance that documents the production of art in an important and often misunderstood community. Among the more than 100 artists Montano interviewed from 1979 to 1989 were John Cage, Suzanne Lacy, Faith Ringgold, Dick Higgins, Annie Sprinkle, Allan Kaprow, Meredith Monk, Eric Bogosian, Adrian Piper, Karen Finley, and Kim Jones. Her discussions with them focused on the relationship between art and life, history and memory, the individual and society, and the potential for individual and social change. The interviews highlight complex issues in performance art, including the role of identity in performer-audience relationships and art as an exploration of everyday conventions rather than a demonstration of virtuosity.

Keywords in Creative Writing Wendy Bishop,David Starkey,2006-01-15 Wendy Bishop and David Starkey have created a remarkable resource volume for creative writing students and other writers just getting started. In two- to ten-page discussions, these authors introduce forty-one central concepts in the fields of creative writing and writing instruction, with discussions that are accessible yet grounded in scholarship and years of experience. Keywords in Creative Writing provides a brief but comprehensive introduction to the field of creative writing through its landmark terms, exploring concerns as abstract as postmodernism and identity politics alongside very practical interests of beginning writers, like contests, agents, and royalties. This approach makes the book ideal for the college classroom as well as the writer's bookshelf, and unique in the field, combining the pragmatic accessibility of popular writer's handbooks, with a wider, more scholarly vision of theory and research.

This story is told through a combination of stories, songs, myths and memories from over 200 voices of five generations, woven with a wealth of archival material.

**A Grammar of the Ugaritic Language** Daniel Sivan,2001-07-19 Ugaritic, discovered in 1929, is a North-West Semitic language, documented on clay tablets (about 1250 texts) and dated from the period between the 14th and the 12th centuries B.C.E. The documents are of various types: literary, administrative, lexicological. Numerous Ugaritic tablets contain portions of a poetic cycle pertaining to the Ugaritic pantheon. Another part, the administrative documents shed light on the organization of Ugarit, thus contributing greatly to our understanding of the history and culture of the biblical and North-West Semitic world. This important reference work, a revised and translated edition of the author's Hebrew publication (Beer Sheva, 1993), deals with the phonology, morphology and syntax of Ugaritic. The book contains also an appendix with text selections.

*Native Americans on Film* M. Elise Marubbio,Eric L. Buffalohead,2013-02-22 "An essential book for courses on

Native film, indigenous media, not to mention more general courses . . . A very impressive and useful collection.” –Randolph Lewis, author of *Navajo Talking Picture* The film industry and mainstream popular culture are notorious for promoting stereotypical images of Native Americans: the noble and ignoble savage, the pronoun-challenged sidekick, the ruthless warrior, the female drudge, the princess, the sexualized maiden, the drunk, and others. Over the years, Indigenous filmmakers have both challenged these representations and moved past them, offering their own distinct forms of cinematic expression. *Native Americans on Film* draws inspiration from the Indigenous film movement, bringing filmmakers into an intertextual conversation with academics from a variety of disciplines. The resulting dialogue opens a myriad of possibilities for engaging students with ongoing debates: What is Indigenous film? Who is an Indigenous filmmaker? What are Native filmmakers saying about Indigenous film and their own work? This thought-provoking text offers theoretical approaches to understanding Native cinema, includes pedagogical strategies for teaching particular films, and validates the different voices, approaches, and worldviews that emerge across the movement. “Accomplished scholars in the emerging field of Native film studies, Marubbio and Buffalohead . . . focus clearly on the needs of this field. They do scholars and students of Native film a great service by reprinting four seminal and provocative essays.” –James Ruppert, author of *Meditation in Contemporary Native American Literature* “Succeed[s] in depicting the complexities in study, teaching, and creating Native film . . . Regardless of an individual’s level of knowledge and expertise in Native film, *Native Americans on Film* is a valuable read for anyone interested in this topic.” –*Studies in American Indian Literatures*

*We Are Best Friends: Animals in Society* Leslie Irvine, 2019-10-01 Friendships between humans and non-human animals were once dismissed as sentimental anthropomorphism. After decades of research on the emotional and cognitive capacities of animals, we now recognize human-animal friendships as true reciprocal relationships. Friendships with animals have many of the same characteristics as friendships between humans. Both parties enjoy the shared presence that friendship entails along with the pleasures that come with knowing another being. Both friends develop ways of communicating apart from, or in addition to, spoken language.

*Yup'ik Eskimo Dictionary* , 2012 The most comprehensive Yup'ik dictionary in existence, the second edition of this important work now adds extensive research on Central Alaskan Yup'ik, enhancing the forty years of research done by Steven A. Jacobson on the Yup'ik language and dialects. Over these decades, Jacobson has combed through records of explorers, linguists, missionaries, and anyone who has come in contact with the actively migratory Yup'ik people. Combined with information from native Yup'ik speakers, that research has led to a richly detailed dictionary that covers the entire language and all its dialects. The dictionary also offers sections on Yup'ik spelling, early vocabulary, demonstrative words, and important intersections of Yup'ik language and culture such as the kayak, dogsled, parka, and old-style dwellings.

**The Beauty Myth** Naomi Wolf, 2009-03-17 The bestselling classic that redefined our view of the relationship between beauty and female identity. In today's world, women have more power, legal recognition, and professional success than ever before. Alongside the evident progress of the women's movement, however, writer and journalist Naomi Wolf is troubled by a different kind of social control, which, she argues, may prove just as restrictive as the traditional image of homemaker and wife. It's the beauty myth, an obsession with physical perfection that traps the modern woman in an endless spiral of hope, self-consciousness, and self-hatred as she tries to fulfill society's impossible definition of the flawless beauty.

*Politics of Gross National Happiness* Kent Schroeder, 2017-10-03 This book explores the practices of governance in Bhutan and how they shape the implementation of the country's Gross National Happiness (GNH) development strategy. The author examines whether Bhutan's innovative GNH governance framework successfully navigates competing power dynamics and generates the intended human development outcomes of Gross National Happiness. The analysis is structured around a comparison of the implementation of four GNH development policies – tourism, media, farm roads and human/wildlife conflict – and their larger implications on power, governance and the human development paradigm in Bhutan and beyond.

*Representations* LuMing Mao, Morris Young, 2008-11-28 Asian American rhetorics, produced through cultural contact between Asian traditions and US English, also comprise a dynamic influence on the cultural conditions and practices within which they move. Though always interesting to linguists and contact language scholars, in an increasingly globalized era, these subjects are of interest to scholars in a widening range of disciplines—especially those in rhetoric and writing studies. Mao, Young, and their contributors propose that Asian American discourse should be seen as a spacious form, one that deliberately and selectively incorporates Asian “foreign-ness” into the English of Asian Americans. These authors offer the concept of a dynamic “togetherness-in-difference” as a way to theorize the contact and mutual influence. Chapters here explore a rich diversity of histories, theories, literary texts, and rhetorical practices. Collectively, they move the scholarly discussion toward a more nuanced, better balanced, critically informed representation of the forms of Asian American rhetorics and the cultural work that they do.

**Language, Music, and the Brain** Michael A. Arbib, 2013-06-28 A presentation of music and language within an integrative, embodied perspective of brain mechanisms for action, emotion, and social coordination. This book explores the relationships between language, music, and the brain by pursuing four key themes and the crosstalk among them: song and dance as a bridge between music and language; multiple levels of structure from brain to behavior to culture; the semantics of internal and external worlds and the role of emotion; and the evolution and development of language. The book offers specially commissioned expositions of current research accessible both to experts across disciplines and to non-experts. These chapters provide the background for reports by groups of specialists that chart current controversies and future directions of research on each theme. The book looks beyond mere auditory experience, probing the embodiment that links speech to gesture and music to dance. The study of the brains of monkeys and songbirds illuminates hypotheses on the evolution of brain mechanisms that support music and language, while the study of infants calibrates the developmental timetable of their capacities. The result is a unique book that will interest any reader seeking to learn more about language or music and will appeal especially to readers intrigued by the relationships of language and music with each other and with the brain.
