**JeongMee Yoon** Bonnie Yochelson,2019 Why do girls love pink toys, and boys love blue ones? The fine arts photographer Jeongmee Yoon (\*1969, Seoul) poses this question in her work, The Pink and Blue Project, for which she began photographing Korean and American girls and boys in their rooms in 2005. The gender-specific color schemes quickly established themselves as an overarching phenomenon, independent of cultural or ethnic background. Yoon's impressive portraits, for which she spent hours carefully arranging pink or blue objects, question these color codes and the consumer habits of both parents and children. They reveal the connections linking gender identity and social norms, consumer culture, and media. She continued this project by visiting the children years later and capturing how their favorite colors had changed. Jeongmee Yoon was awarded the ILWOO Foundation Prize for her project.

**Nanoscale Quantum Materials** Tapash Chakraborty,2021-08-01 In the past four decades, there has been growing interest in the exciting new topic of physics in low dimensions. Thousands of original ideas have been proposed in the literature, and some are confirmed experimentally, along with several Nobel prizes which have been awarded in this field. While there are several books available, almost all are technical and accessible only to expert researchers. This book provides an accessible introduction to the field, with less emphasis on technical details. Whilst this book does not provide a traditional history of nano-science, instead it uses simple explanations and case studies as vehicles to explain key discoveries and the importance of them, enabling readers without a background in the area to gain an understanding of some aspects of nanoscale physics. It will be of interest to researchers working in condensed matter physics, in addition to engineers and advanced students in those disciplines. It also remains accessible to

'physics enthusiasts' from other academic disciplines, as technical details are contained within boxes and footnotes which can be skipped for a general reading of the book. Features: - Provides an accessible introduction to a technical subject - Contains exciting developments from the cutting-edge science being conducted in the area - Authored by a recognised expert in the field

The American Farm Tractor Randy Leffingwell,2002 Original ads, historic design drawings, and factory photographs tell the definitive story of the American tractor's development, mechanical innovations, groundbreaking designs, and company histories. Best-selling author Randy Leffingwell researched and photographed restored classics and one-of-a-kind experimental models from coast-to-coast to deliver the goods on American farm tractor. This is the book that started it all! Previous hardcover edition (0-87938-532-4 pub 1991) has sold a staggering 150,000!

Internet for Nursing Research Joyce J. Fitzpatrick,Kristen S. Montgomery,2004-09-20 This book is a resource for using the internet as a tool in all aspects of nursing research--conducting it, teaching it, and using it. From searching online databases to creating surveys and recruiting research subjects online, the internet opens new possibilities in the research process, as well as new problems. Experienced researchers describe internet-based research methods, information on online methods for teaching research, and accessing the research of others. The appendixes include samples of existing research projects that use internet-based methodologies, as well as a listing of online resources for researchers.

**Cold War Modern** David Crowley,Jane Pavitt,2008 Modern life after 1945 seemed to promise both utopia and catastrophe. Both could, it seemed, be achieved at the 'push of a button'. Published to accompany a major V & A exhibition, 'Cold War Modern: Design 1945-1970', this book explores how the politics of the Cold War shaped architecture and design. Reassessing 'classic' designs and introducing many little-known objects.
