Understanding Media Marshall McLuhan, 2016-09-04 When first published, Marshall McLuhan's *Understanding Media* made history with its radical view of the effects of electronic communications upon man and life in the twentieth century.

Ruth and Martin's Album Club Martin Fitzgerald, 2017-09-07 The concept behind the Ruth and Martin's Album Club blog is simple: Make people listen to a classic rock album they've never heard before. Make them listen to it two more times. Get them to explain why they never bothered with it before. Then ask them to review it. What began as a simple whim quickly grew in popularity, and now Ruth and Martin's Album Club has featured some remarkable guests: Ian Rankin on Madonna's *Madonna*. Chris Addison on Marvin Gaye's *What's Going On*. Brian Koppelman on The Smiths' *Meat is Murder*. JK Rowling on the Violent Femmes' *Violent Femmes*. Bonnie Greer on The Beach Boys' *Pet Sounds*. Martin Carr on Paul McCartney's *Ram*. Brian Bilston on Neil Young's *Harvest*. Anita Rani on The Strokes' *Is This It*. Richard Osman on Roxy Music's *For Your Pleasure*. And many, many more. Each entry features an introduction to each album by blog creator Martin Fitzgerald. What follows are delightful, humorous and insightful contributions from each guest as they have an album forced upon them and - for better or worse - they discover some of the world's favourite music. Ruth and Martin's Album Club is a compilation of some of the blog's greatest hits as well as some exclusive material that has never appeared anywhere before. Throughout, we get an insight into why some people opt out of some music, and what happens when you force them to opt in.

**Launch! Advertising and Promotion in Real Time** Michael Solomon, 2009 *Launch! Advertising and Promotion* is written for advertising and promotion courses taught to students in the

business school and journalism & mass communication students. This textbook is the first of its kind to teach advertising concepts by reverse engineering a real advertising campaign from beginning to end. In April 2007, SS+K, an innovative New York City communications agency, launched the first ever branding campaign for msnbc.com with the tag A Fuller Spectrum of News. Launch! follows that campaign from initial agency pitch through roll-out of print and media assets to post-campaign analysis. Throughout, it exposes readers to the theory and concepts of advertising and promotion, and the personalities and decisions that drove this campaign. The book takes a rare look behind the curtain - even letting you see some of the paths not chosen by the agency and client. Students get a realistic sense of how theory plays out in practice, and get a flavor for the exciting field of advertising and promotion. And, they consistently learn the perspectives of both the advertising agency (where many journalism and communications students will work) and the client (where many marketing majors will work). This is a unique book, with a unique perspective, by a unique author team, and you won't find this kind of insight in any other text on the market. We think you're going to love it! This textbook has been used in classes at: Ball State University, Emerson College, Florida Institute of Technology, Grand Valley State University, Johnson County Community College, Manchester Business School, McLennan Community College, Michigan State University, North Hennepin Community College, Pierce College, Rochester Institute of Technology, Saint Louis University, Salem State College, South Dakota State University, Texas State University, Texas Tech University, University of New Hampshire, University of North Carolina, University of Notre Dame, University of South Florida, Virginia Tech, Western Kentucky University.

**Britain** Andrew Whittaker, 2009 British culture is strewn with names that strike a chord the world over such as Shakespeare, Churchill, Dickens, Pinter, Lennon and McCartney. This book

examines the people, history and movements that have shaped Britain as it now is, providing key information in easily digested chunks.

**The Perfect Thing** Steven Levy, 2006-10-23 On October 23, 2001, Apple Computer, a company known for its chic, cutting-edge technology -- if not necessarily for its dominant market share -- launched a product with an enticing promise: You can carry an entire music collection in your pocket. It was called the iPod. What happened next exceeded the company's wildest dreams. Over 50 million people have inserted the device's distinctive white buds into their ears, and the iPod has become a global obsession. The Perfect Thing is the definitive account, from design and marketing to startling impact, of Apple's iPod, the signature device of our young century. Besides being one of the most successful consumer products in decades, the iPod has changed our behavior and even our society. It has transformed Apple from a computer company into a consumer electronics giant. It has remolded the music business, altering not only the means of distribution but even the ways in which people enjoy and think about music. Its ubiquity and its universally acknowledged coolness have made it a symbol for the digital age itself, with commentators remarking on the iPod generation. Now the iPod is beginning to transform the broadcast industry, too, as podcasting becomes a way to access radio and television programming. Meanwhile millions of Podheads obsess about their gizmo, reveling in the personal soundtrack it offers them, basking in the social cachet it lends them, even wondering whether the device itself has its own musical preferences. Steven Levy, the chief technology correspondent for Newsweek magazine and a longtime Apple watcher, is the ideal writer to tell the iPod's tale. He has had access to all the key players in the iPod story, including Steve Jobs, Apple's charismatic cofounder and CEO, whom Levy has known for over twenty years. Detailing for the first time the complete story of the creation of the iPod, Levy explains why Apple succeeded brilliantly with its version

of the MP3 player when other companies didn't get it right, and how Jobs was able to convince the bosses at the big record labels to license their music for Apple's groundbreaking iTunes Store. (We even learn why the iPod is white.) Besides his inside view of Apple, Levy draws on his experiences covering Napster and attending Supreme Court arguments on copyright (as well as his own travels on the iPod's click wheel) to address all of the fascinating issues -- technical, legal, social, and musical -- that the iPod raises. Borrowing one of the definitive qualities of the iPod itself, *The Perfect Thing* shuffles the book format. Each chapter of this book was written to stand on its own, a deeply researched, wittily observed take on a different aspect of the iPod. The sequence of the chapters in the book has been shuffled in different copies, with only the opening and concluding sections excepted. Shuffle is a hallmark of the digital age -- and *The Perfect Thing*, via sharp, insightful reporting, is the perfect guide to the deceptively diminutive gadget embodying our era.

### **How Not to Make a Short Film** Roberta Marie

Munroe, 2009-01-20 Anyone can make a short film, right? Just grab some friends and your handheld and you can do it in a weekend or two before being accepted to a slew of film festivals, right? Wrong. Roberta Munroe screened short film submissions at Sundance for five years, and is an award-winning short filmmaker in her own right. So she knows a thing or two about how not to make a short film. From the first draft of your script to casting, production, editing, and distribution, this is your one-stop primer for breaking into the business. Featuring interviews with many of today's most talented writers, producers, and directors, as well as revealing stories (e.g., what to do when the skinhead crack addict next door begins screaming obscenities as soon as you call action) from the sets of her own short films, Roberta walks you through the minefield of mistakes that an aspiring filmmaker can make--so that you don't have to make them yourself.

Eventful Cities Greg Richards, Robert Palmer, 2012-05-31

Processes of globalization, economic restructuring and urban redevelopment have placed events at the centre of strategies for change in cities. Events offer the potential to achieve economic, social, cultural and environmental outcomes within broader urban development strategies. This volume: \* analyzes the process of cultural event development, management and marketing and links these processes to their wider cultural, social and economic context \* provides a unique blend of practical and academic analysis, with a selection of major events and festivals in cities where 'eventfulness' has been an important element of development strategy \* examines the reasons why different stakeholders should collaborate, as well as the reasons why cities succeed or fail to develop events and become eventful Eventful Cities evaluates theoretical perspectives and links theory and practice through case studies of cities and events across the world. Critical success factors are identified which can help to guide cities and regions to develop event strategies. This book is essential reading for any undergraduate or graduate student and all practitioners and policy-makers involved in event management, cultural management, arts administration, urban studies, cultural studies and tourism.

**Switched on Pop** Nate Sloan, Charlie Harding, 2019-12-13 Pop music surrounds us - in our cars, over supermarket speakers, even when we are laid out at the dentist - but how often do we really hear what's playing? Switched on Pop is the book based on the eponymous podcast that has been hailed by NPR, Rolling Stone, The Guardian, and Entertainment Weekly for its witty and accessible analysis of Top 40 hits. Through close studies of sixteen modern classics, musicologist Nate Sloan and songwriter Charlie Harding shift pop from the background to the foreground, illuminating the essential musical concepts behind two decades of chart-topping songs. In 1939, Aaron Copland published What to Listen for in Music, the bestseller that made classical music approachable for generations of listeners. Eighty years later, Nate

and Charlie update Copland's idea for a new audience and repertoire: 21st century pop, from Britney to Beyoncé, Outkast to Kendrick Lamar. Despite the importance of pop music in contemporary culture, most discourse only revolves around lyrics and celebrity. Switched on Pop gives readers the tools they need to interpret our modern soundtrack. Each chapter investigates a different song and artist, revealing musical insights such as how a single melodic motif follows Taylor Swift through every genre that she samples, André 3000 uses metric manipulation to get listeners to shake it like a Polaroid picture, or Luis Fonsi and Daddy Yankee create harmonic ambiguity in Despacito that mirrors the patterns of global migration. Replete with engaging discussions and eye-catching illustrations, Switched on Pop brings to life the musical qualities that catapult songs into the pop pantheon. Readers will find themselves listening to familiar tracks in new ways and not just those from the Top 40. The timeless concepts that Nate and Charlie define can be applied to any musical style. From fanatics to skeptics, teenagers to octogenarians, non-musicians to professional composers, every music lover will discover something ear-opening in Switched on Pop.

**Reinforced Concrete Detailing Manual** Cement and Concrete Association of Australia, 1970

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet

Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

**Obiter Dicta** Erick Verran, 2021-10-14 Stitched together over five years of journaling, Obiter Dicta is a commonplace book of freewheeling explorations representing the transcription of a dozen notebooks, since painstakingly reimagined for publication. Organized after Theodor Adorno's *Minima Moralia*, this unschooled exercise in aesthetic thought--gleefully dilettantish, oftentimes dangerously close to the epigrammatic--interrogates an array of subject matter (although inescapably circling back to the curiously resemblant histories of Western visual art and instrumental music) through the lens of drive-by speculation. Erick Verran's approach to philosophical inquiry follows the brute-force literary technique of Jacques Derrida to exhaustively favor the material grammar of a signifier over hand-me-down meaning, juxtaposing outer semblances with their buried systems and our etched-in-stone intuitions about color and illusion, shape and value, with lessons stolen from seemingly unrelatable disciplines. Interlarded with extracts of Ludwig Wittgenstein but also Wallace Stevens, Cormac McCarthy as well as Roland Barthes, this cache of incidental remarks eschews what's granular for the biggest picture available, leaving below the hyper-specialized fields of academia for a bird's-eye view of their crop circles. Obiter Dicta is an unapologetic

experiment in intellectual dot-connecting that challenges much long-standing wisdom about everything from illuminated manuscripts to Minecraft and the evolution of European music with lyrical brevity; that is, before jumping to the next topic.

**Hip** John Leland,2009-10-13 Hip: The History is the story of how American pop culture has evolved throughout the twentieth century to its current position as world cultural touchstone. How did hip become such an obsession? From sex and music to fashion and commerce, John Leland tracks the arc of ideas as they move from subterranean Bohemia to Madison Avenue and back again. Hip: The History examines how hip has helped shape -- and continues to influence -- America's view of itself, and provides an incisive account of hip's quest for authenticity. This P.S. edition features an extra 16 pages of insights into the book, including author interviews, recommended reading, and more.

**Ng Emea Insights 2 Student Book** Stepehnson,2012-10-01 Suitable for students at secondary level, this title combines an approach to learning English with National Geographic images, DVD clips and articles. It helps you develop real-world language skills through age-appropriate resources.

**Punk Rock Dad** Jim Lindberg,2009-10-13 Jim Lindberg is a Punk Rock Dad. When he drives his kids to school in the morning, they listen to the Ramones, the Clash, or the Descendents—and that's it. They can listen to Britney and Justin on their own time. Jim goes to soccer games, dance rehearsals, and piano recitals like all the other dads, but when he feels the need, he also goes to punk shows, runs into the slam pit, and comes home bruised and beaten . . . but somehow feeling strangely better. While the other dads dye their hair brown to cover the gray, Jim occasionally dyes his blue or green. He makes his daughters' lunches, kisses their boo-boos, and tucks them in at night—and then goes into the garage and plays Black Flag and Minor Threat songs at a criminal volume. He pays his taxes, votes in all the presidential and gubernatorial elections, serves on jury duty, and reserves the right

to believe that there is a vast Right Wing Conspiracy—and that the head of the P.T.A. is possibly in on it. He is a Punk Rock Dad.

**Spying on Whales** Nick Pyenson, 2019-06-25 “A palaeontological howdunnit...[Spying on Whales] captures the excitement of...seeking answers to deep questions in cetacean science.” —Nature Called “the best of science writing” (Edward O. Wilson) and named a best book by Popular Science, a dive into the secret lives of whales, from their four-legged past to their perilous present. Whales are among the largest, most intelligent, deepest diving species to have ever lived on our planet. They evolved from land-roaming, dog-sized creatures into animals that move like fish, breathe like us, can grow to 300,000 pounds, live 200 years and travel entire ocean basins. Whales fill us with terror, awe, and affection--yet there is still so much we don't know about them. Why did it take whales over 50 million years to evolve to such big sizes, and how do they eat enough to stay that big? How did their ancestors return from land to the sea--and what can their lives tell us about evolution as a whole? Importantly, in the sweepstakes of human-driven habitat and climate change, will whales survive? Nick Pyenson's research has given us the answers to some of our biggest questions about whales. He takes us deep inside the Smithsonian's unparalleled fossil collections, to frigid Antarctic waters, and to the arid desert in Chile, where scientists race against time to document the largest fossil whale site ever found. Full of rich storytelling and scientific discovery, *Spying on Whales* spans the ancient past to an uncertain future--all to better understand the most enigmatic creatures on Earth.

**Records Ruin the Landscape** David Grubbs, 2014-03-03 John Cage's disdain for records was legendary. He repeatedly spoke of the ways in which recorded music was antithetical to his work. In *Records Ruin the Landscape*, David Grubbs argues that, following Cage, new genres in experimental and avant-garde music in the 1960s were particularly ill suited to be represented in the form of a recording. These activities include indeterminate music, long-

duration minimalism, text scores, happenings, live electronic music, free jazz, and free improvisation. How could these proudly evanescent performance practices have been adequately represented on an LP? In their day, few of these works circulated in recorded form. By contrast, contemporary listeners can encounter this music not only through a flood of LP and CD releases of archival recordings but also in even greater volume through Internet file sharing and online resources. Present-day listeners are coming to know that era's experimental music through the recorded artifacts of composers and musicians who largely disavowed recordings. In *Records Ruin the Landscape*, Grubbs surveys a musical landscape marked by altered listening practices.

*English in Mind Level 4 Student's Book with DVD-ROM* Herbert Puchta, Jeff Stranks, Peter Lewis-Jones, 2011-07-21 This second edition updates a course which has proven to be a perfect fit for classes the world over. Engaging content and a strong focus on grammar and vocabulary combine to make this course a hit with both teachers and students. Popular course features have been refreshed with new content, including the imaginative reading and listening topics, 'Culture in Mind', and 'Everyday English' sections. New for the second edition is a DVD-ROM with the Level 4 Student's Book containing games, extra exercises and videos featuring the photostories' characters as well as a 'Videoke' record-yourself function. There is a full 'Vocabulary bank' at the back of the book which expands upon lexical sets learned in the units.

**Lowrider Coloring Book** Oscar Nilsson, 2011-04-14 Paint your own lowrider just the way you like it! Impalas, Cadillacs and Rivas. In the Lowrider Coloring Book, you will color the classic and most popular Lowrider models. Lowrider culture reaches back to 1930s Los Angeles, where it became popular for style-conscious Latino-Americans to load their cars with sandbags to bring it closer to the road. Style was everything, and when lowered cars were banned in California in the 1950s, it became necessary to find a way to raise and lower the car simply to avoid fines. The solution was to use hydraulics from old fighter planes left over from World War II. The rapper Kid Frost showcased lowriding in the early 90s hit Lowrider, and since then, the cars are closely associated with hip hop culture. Today, lowriding is bigger than ever with thousands of enthusiasts in most parts of the world. All strive to outdo each other with the most elegant varnish, interior, hydraulics, chrome and rims. The custom cars you'll be coloring in the Lowrider Coloring book were converted by some of the best and most legendary enthusiasts. What color is your Impala?
