Venom De Havilland Venom & Sea David Watkins,Brian Mercer,2009-10-02 While it is true to say that the Venom carried out more operational ground attack sorties than any other RAF aircraft since the Second World War, its history has hitherto been sadly neglected or misreported. With the co-operation and assistance of many former Service and civilian pilots, the record can finally be set straight in what is the definitive history of this ground-attack, all weather and naval strike fighter. David Watkins discusses the problems of the trials and development programme and takes a detailed look at the aircraft's operational service with the air arms of Australia, France, Sweden, Switzerland, Iraq and Venezuela. Of particular interest is new information relating to the Sea Venom's career with the Fleet Air Arm and the catastrophic wing failures and engine fires that plagued the early Second Tactical Air Force Venoms. It also contains a comprehensive account of Venom sorties during the Suez campaign, the 'Firedog' operations in Malaya and the protracted anti-terrorist offensive in Aden and Oman. These accounts throw new light on the conflicts and have been compiled from interviews, private papers and personal accounts. Accompanying the text is a wealth of photographs, line drawings and maps, a number of which are from private collections and are previously unpublished.

Great Paper Fighter Planes Norman Schmidt,2005-08 Offers instructions for making paper models from standard index cards.

Venom David Watkins,2003 The de Havilland Venom carried out more operational ground attack sorties than any other RAF aircraft since World War II, seeing service as an RAF fighter-bomber between 1952 and 1962. Successor to the Vampire, the Venom was also produced in a two-seat night fighter version, which was developed into the Sea Venom for the Royal Navy. With the co-operation and assistance of many former Service and civilian pilots, this is a comprehensive history of this ground-attack, all weather and naval strike fighter. The problems of the trials and development programme are discussed, followed by a detailed look at the aircraft's operational service with foreign air forces. The book provides an account of Venom operations during the Suez campaign, the Firedog operations in Malaya, and the protracted anti-terrorist offensive in Aden and Oman. These chapters throw new light on the conflicts and have been compiled from interviews, private papers, and personal accounts. Of particular interest is new information relating to the Sea Venom's career with the Fleet Air Arm. A final chapter covers the use of Venoms as private Warbirds in the UK, New Zealand and the USA.
