structuralism and semiotics, deconstruction, new historicism, cultural criticism, lesbian/gay/queer theory, African American criticism, and postcolonial criticism. The chapters provide an extended explanation of each theory, using examples from everyday life, popular culture, and literary texts; a list of specific questions critics who use that theory ask about literary texts; an interpretation of F. Scott Fitzgerald's *The Great Gatsby* through the lens of each theory; a list of questions for further practice to guide readers in applying each theory to different literary works; and a bibliography of primary and secondary works for further reading.

The Gothic in Children's Literature Anna Jackson, Roderick McGillis, Karen Coats, 2013-10-11 From creepy picture books to Harry Potter, Lemony Snicket, the Spiderwick Chronicles, and countless vampire series for young adult readers, fear has become a dominant mode of entertainment for young readers. The last two decades have seen an enormous growth in the critical study of two very different genres, the Gothic and children's literature. The Gothic, concerned with the perverse and the forbidden, with adult sexuality and

religious or metaphysical doubts and heresies, seems to represent everything that children's literature, as a genre, was designed to keep out. Indeed, this does seem to be very much the way that children's literature was marketed in the late eighteenth century, at exactly the same time that the Gothic was really taking off, written by the same women novelists who were responsible for the promotion of a safe and segregated children's literature. This collection examines the early intersection of the Gothic and children's literature and the contemporary manifestations of the gothic impulse, revealing that Gothic elements can, in fact, be traced in children's literature for as long as children have been reading.
