High Speed Catamarans and Multihulls Liang Yun, Alan Bliault, Huan Zong Rong, 2018-10-29 High speed catamaran and multihull high speed marine vessel have become very popular in the last two decades. The catamaran has become the vessel of choice for the majority of high speed ferry operators worldwide. There have been significant advances in structural materials, and structural design has been combined with higher power density and fuel efficient engines to deliver ferries of increasing size. The multihull has proven itself to be a suitable configuration for active power projection across oceans as well as for coastal patrol and protection, operating at high speed for insertion or retrieval with a low energy capability. At present there is no easily accessible material covering the combination of hydrodynamics, aerodynamics, and design issues including structures, powering and propulsion for these vehicles. Coverage in *High Speed Catamarans and Multihulls* includes an introduction to the history, evolution, and development of catamarans, followed by a theoretical calculation of wave resistance in shallow and deep water, as well as the drag components of the multihull. A discussion of vessel concept design describing design characteristics, empirical regression for determination of principal

dimensions in preliminary design, general arrangement, and methods is also included. The book concludes with a discussion of experimental future vehicles currently in development including the small waterplane twin hull vessels, wave piercing catamarans, planing catamarans, tunnel planing catamarans and other multihull vessels.

Border Bang Jorge Guttiérrez, 2018-11-13 WHEN MEXICAN FOLKORE MEETS U.S. POP CULTURE!!!! Border Bang is a passionate love letter to the Tijuana and US border, documenting the bootleg artifacts sold to locals and tourists alike. Reappropriating the bombardment of pop culture images is the border's reaction to global issues and events, telling viewers and consumers not to glorify these situations but rather to acknowledge them through their subversive presentation. Border artisans and shysters digest the influx of international popular culture, reappropriating and reconfiguring images to express themselves and empower objects with subversive ideas masked underneath bold colors and text. Raised in Tijuana, Gutierrez crossed the border to the US to attend elementary and middle school. Each day, he was dazzled and entranced by the objects being sold, creating alternative narratives to the cartoon characters and celebrity portraits that he saw. Border Bang is a reflection of his childhood narrative, using images from Mickey Mouse to Tupac Shakur to convey the reflections and meditations of global events as witnessed by the border, exploring his love affair with Mexican pop and folk culture.

Original Grin Ron English, 2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie Supersize Me; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on The Simpsons secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.
