The View from Penthouse B Elinor Lipman, 2013 Two newly-single sisters, one by a divorce, the other by a death, become roommates with a handsome, gay cupcake-baker as they try to return to the dating world of lower Manhattan in this novel from the author of *The Inn at Lake Devine*.

Truth in Comedy Charna Halpern, Del Close, Kim Johnson, 1994 The 'Harold', an innovative improvisational tool, helped many actors on the road to TV and film stardom, including George Wendt (Norm on Cheers). Now it is described fully in this new book for would-be actors and comics. The 'Harold' is a form of competitive improv involving 6 or 7 players. They take a theme suggestion from the audience and 'free associate' on the theme into a series of rapid-fire one-liners that build into totally unpredictable skits with hilarious results. The 'Harold' is a fun way to 'loosen up' and learn to think quickly, build continuity, develop characterisations and sharpen humour.

The Annotated Mona Lisa Carol Strickland, John Boswell, 2007-10 Like music, art is a universal language. Although looking at works of art is a pleasurable enough experience, to appreciate them fully requires certain skills and knowledge. --Carol Strickland, from the introduction to *The Annotated Mona Lisa: A Crash Course in Art History from Prehistoric to Post-Modern* * This heavily illustrated crash course in art history is revised and updated. This second edition of Carol Strickland's *The Annotated Mona Lisa: A Crash Course in Art History from Prehistoric to Post-Modern* offers an illustrated tutorial of prehistoric to post-modern art from cave paintings to video art installations to digital and Internet media. * Featuring succinct page-length essays, instructive sidebars, and more than 300 photographs, *The Annotated Mona Lisa: A Crash Course in Art History from Prehistoric to Post-Modern* takes art history out of the realm of dreary textbooks, demystifies jargon and theory, and makes art accessible-even at a cursory reading. * From Stonehenge to the

Guggenheim and from Holbein to Warhol, more than 25,000 years of art is distilled into five sections covering a little more than 200 pages.

White is for Witching Helen Oyeyemi, 2014-02-04 Winner of the Somerset Maugham Award One of Granta's Best Young British Novelists From the acclaimed author of *What Is Not Yours Is Not Yours*, *Gingerbread*, and *Peaces* There's something strange about the Silver family house in the closed-off town of Dover, England. Grand and cavernous with hidden passages and buried secrets, it's been home to four generations of Silver women—Anna, Jennifer, Lily, and now Miranda, who has lived in the house with her twin brother, Eliot, ever since their father converted it to a bed-and-breakfast. The Silver women have always had a strong connection, a pull over one another that reaches across time and space, and when Lily, Miranda's mother, passes away suddenly while on a trip abroad, Miranda begins suffering strange ailments. An eating disorder starves her. She begins hearing voices. When she brings a friend home, Dover's hostility toward outsiders physically manifests within the four walls of the Silver house, and the lives of everyone inside are irrevocably changed. At once an unforgettable mystery and a meditation on race, nationality, and family legacies, *White is for Witching* is a boldly original, terrifying, and elegant novel by a prodigious talent.

In Other Lands Sarah Rees Brennan, 2017-07-17 Georgia Peach Award Nominee • Florida Teens Read Award Nominee • ABC Best Books for Young Readers • Bank Street College Best Children's Books of the Year • A Junior Library Guild Selection • Hugo & Locus award finalist *In Other Lands* is an exhilarating novel from bestselling author Sarah Rees Brennan about surviving four years in the most unusual of schools - friendship, falling in love, diplomacy, and finding your own place in the world — even if it means giving up your phone. Excerpt: The Borderlands aren't like anywhere else. Don't try to smuggle a phone or any other piece of technology over the wall that marks the Border — unless you

enjoy a fireworks display in your backpack. (Ballpoint pens are okay.) There are elves, harpies, and — best of all as far as Elliot is concerned — mermaids. What's your name? Serene. Serena? Elliot asked. Serene, said Serene. My full name is Serene-Heart-in-the-Chaos-of-Battle. Elliot's mouth fell open. That is badass. Elliot? Who's Elliot? Elliot is thirteen years old. He's smart and just a tiny bit obnoxious. Sometimes more than a tiny bit. When his class goes on a field trip and he can see a wall that no one else can see, he is given the chance to go to school in the Borderlands. It turns out that on the other side of the wall, classes involve a lot more weaponry and fitness training and fewer mermaids than he expected. On the other hand, there's Serene-Heart-in-the-Chaos-of-Battle, an elven warrior who is more beautiful than anyone Elliot has ever seen, and then there's her human friend Luke: sunny, blond, and annoyingly likeable. There are lots of interesting books. There's even the chance Elliot might be able to change the world. Chapter illustrations by Casey Nowak.

The Serpent King Jeff Zentner, 2017-06-06 Named to ten BEST OF THE YEAR lists and selected as a William C. Morris Award Winner, The Serpent King is the critically acclaimed, much-beloved story of three teens who find themselves--and each other--while on the cusp of graduating from high school with hopes of leaving their small-town behind. Perfect for fans of John Green's Turtles All the Way Down. Move over, John Green; Zentner is coming for you. —The New York Public Library “Will fill the infinite space that was left in your chest after you finished The Perks of Being a Wallflower.” —BookRiot.com Dill isn't the most popular kid at his rural Tennessee high school. After his father fell from grace in a public scandal that reverberated throughout their small town, Dill

became a target. Fortunately, his two fellow misfits and best friends, Travis and Lydia, have his back. But as they begin their senior year, Dill feels the coils of his future tightening around him. His only escapes are music and his secret feelings for Lydia--neither of which he is brave enough to share. Graduation feels more like an ending to Dill than a beginning. But even before then, he must cope with another ending--one that will rock his life to the core. Debut novelist Jeff Zentner provides an unblinking and at times comic view of the hard realities of growing up in the Bible belt, and an intimate look at the struggles to find one's true self in the wreckage of the past. "A story about friendship, family and forgiveness, it's as funny and witty as it is utterly heartbreaking." —PasteMagazine.com "A brutally honest portrayal of teen life . . . [and] a love letter to the South from a man who really understands it." —Mashable.com "I adored all three of these characters and the way they talked to and loved one another."—New York Times

The Empathy Exams Leslie Jamison, 2014-04-01 From personal loss to phantom diseases, *The Empathy Exams* is a bold and brilliant collection, winner of the Graywolf Press Nonfiction Prize A Publishers Weekly Top Ten Essay Collection of Spring 2014 Beginning with her experience as a medical actor who was paid to act out symptoms for medical students to diagnose, Leslie Jamison's visceral and revealing essays ask essential questions about our basic understanding of others: How should we care about each other? How can we feel another's pain, especially when pain can be assumed, distorted, or performed? Is empathy a tool by which to test or even grade each other? By confronting pain—real and imagined, her own and others'—Jamison uncovers a personal and cultural urgency to feel. She draws from her own

experiences of illness and bodily injury to engage in an exploration that extends far beyond her life, spanning wide-ranging territory—from poverty tourism to phantom diseases, street violence to reality television, illness to incarceration—in its search for a kind of sight shaped by humility and grace.

The Second Self Sherry Turkle, 1984 In *The Second Self*, Sherry Turkle looks at the computer not as a tool, but as part of our social and psychological lives; she looks beyond how we use computer games and spreadsheets to explore how the computer affects our awareness of ourselves, of one another, and of our relationship with the world. Technology, she writes, catalyzes changes not only in what we do but in how we think. First published in 1984, *The Second Self* is still essential reading as a primer in the psychology of computation. This twentieth anniversary edition allows us to reconsider two decades of computer culture-to (re)experience what was and is most novel in our new media culture and to view our own contemporary relationship with technology with fresh eyes. Turkle frames this classic work with a new introduction, a new epilogue, and extensive notes added to the original text. Turkle talks to children, college students, engineers, AI scientists, hackers, and personal computer owners-people confronting machines that seem to think and at the same time suggest a new way for us to think-about human thought, emotion, memory, and understanding. Her interviews reveal that we experience computers as being on the border between inanimate and animate, as both an extension of the self and part of the external world. Their special place betwixt and between traditional categories is part of what makes them compelling and evocative. In the introduction to this edition, Turkle quotes a PDA user as saying, When my Palm crashed, it was like a death. I thought I had lost my mind. Why we think of the workings of a machine in psychological terms-how this happens, and what it means for all of us-is the ever more timely subject of *The Second Self*. Book jacket.

The Anatomy of Story John Truby, 2008-10-14 John Truby is

one of the most respected and sought-after story consultants in the film industry, and his students have gone on to pen some of Hollywood's most successful films, including *Sleepless in Seattle*, *Scream*, and *Shrek*. *The Anatomy of Story* is his long-awaited first book, and it shares all of his secrets for writing a compelling script. Based on the lessons in his award-winning class, *Great Screenwriting*, *The Anatomy of Story* draws on a broad range of philosophy and mythology, offering fresh techniques and insightful anecdotes alongside Truby's own unique approach for how to build an effective, multifaceted narrative. Truby's method for constructing a story is at once insightful and practical, focusing on the hero's moral and emotional growth. As a result, writers will dig deep within and explore their own values and worldviews in order to create an effective story. Writers will come away with an extremely precise set of tools to work with—specific, useful techniques to make the audience care about their characters, and that make their characters grow in meaningful ways. They will construct a surprising plot that is unique to their particular concept, and they will learn how to express a moral vision that can genuinely move an audience. The foundations of story that Truby lays out are so fundamental they are applicable—and essential—to all writers, from novelists and short-story writers to journalists, memoirists, and writers of narrative non-fiction.

Minor Histories Mike Kelley, 2004-02-06 The second volume of writings by Los Angeles artist Mike Kelley, focusing on his own work. What John C. Welchman calls the blazing network of focused confluences from which Mike Kelley's styles are generated is on

display in all its diversity in this second volume of the artist's writings. The first volume, *Foul Perfection*, contained thematic essays and writings about other artists; this collection concentrates on Kelley's own work, ranging from texts in voices that grew out of scripts for performance pieces to expository critical and autobiographical writings. *Minor Histories* organizes Kelley's writings into five sections. *Statements* consists of twenty pieces produced between 1984 and 2002 (most of which were written to accompany exhibitions), including *Ajax*, which draws on Homer, Colgate- Palmolive, and Longinus to present its eponymous hero; *Some Aesthetic High Points*, an exercise in autobiography that counters the standard artist bio included in catalogs and press releases; and a sequence of creative writings that use mass cultural tropes in concert with high art mannerisms—approximating in prose the visual styles that characterize Kelley's artwork. *Video Statements and Proposals* are introductions to videos made by Kelley and other artists, including Paul McCarthy and Bob Flanagan and Sheree Rose. *Image-Texts* offers writings that accompany or are part of artworks and installations. This section includes *A Stopgap Measure*, Kelley's zestful millennial essay in social satire, and *Meet John Doe*, a collage of appropriated texts. *Architecture* features an discussion of Kelley's *Educational Complex* (1995) and an interview in which he reflects on the role of architecture in his work. Finally, *Ufology* considers the aesthetics and sexuality of space as manifested by UFO sightings and abduction scenarios.

The Mismeasure of Man (Revised and Expanded) Stephen Jay Gould, 2006-06-17 The definitive refutation to the argument of *The Bell Curve*. When published in 1981, *The Mismeasure of Man* was immediately hailed as a masterwork, the ringing answer to those who would classify people, rank them according to their supposed genetic gifts and limits. And yet the idea of innate limits—of biology as destiny—dies hard, as witness the attention devoted to *The Bell Curve*, whose arguments are here so effectively

anticipated and thoroughly undermined by Stephen Jay Gould. In this edition Dr. Gould has written a substantial new introduction telling how and why he wrote the book and tracing the subsequent history of the controversy on innateness right through *The Bell Curve*. Further, he has added five essays on questions of *The Bell Curve* in particular and on race, racism, and biological determinism in general. These additions strengthen the book's claim to be, as Leo J. Kamin of Princeton University has said, a major contribution toward deflating pseudo-biological 'explanations' of our present social woes.
