*Robotic Knitting* Pat Treusch, 2020-12-31 As a reaction to typically dead-end debates on future human and robot collaboration that tend to be either dismissive or overly welcoming towards »cobot« technologies, this book provides a technofeminist intervention. Pat Treusch not only shows how both the fields of technofeminism and robotics can engage in a practical exchange through knitting, but also contributes a tangible example of coboting dynamics. *Robotic Knitting* re-negotiates the boundaries between formalisation and embodiment, craft and high-tech as well as useful and dysfunctional machines. It re-crafts the nature of collaboration between human and robot. This finally entails an alternative mode of relating - a mode that enables an account of careful coboting.

Arsenic and Adobo Mia P. Manansala, 2021-05-04 A RUSA Award-winning novel! The first book in a new culinary cozy series

full of sharp humor and delectable dishes—one that might just be killer.... When Lila Macapagal moves back home to recover from a horrible breakup, her life seems to be following all the typical rom-com tropes. She's tasked with saving her Tita Rosie's failing restaurant, and she has to deal with a group of matchmaking aunties who shower her with love and judgment. But when a notoriously nasty food critic (who happens to be her ex-boyfriend) drops dead moments after a confrontation with Lila, her life quickly swerves from a Nora Ephron romp to an Agatha Christie case. With the cops treating her like she's the one and only suspect, and the shady landlord looking to finally kick the Macapagal family out and resell the storefront, Lila's left with no choice but to conduct her own investigation. Armed with the nosy auntie network, her barista best bud, and her trusted Dachshund, Longanisa, Lila takes on this tasty, twisted case and soon finds her own neck on the chopping block...

### **Social Robots from a Human Perspective** Jane

Vincent, Sakari Taipale, Bartolomeo Sapio, Giuseppe

Lugano, Leopoldina Fortunati, 2015-05-08

This book presents a comprehensive overview of the human dimension of social robots by discussing both transnational features and national peculiarities. Addressing several issues that explore the human side of social robots, this book investigates what a social robot is and how we might come to think about social robots in the different areas of everyday life. Organized around three sections that deal with Perceptions and Attitudes to Social Robots, Human Interaction with Social Robots, and Social Robots in Everyday Life, it explores the idea that even if the challenges of robot technologies can be overcome from a technological perspective, the question remains as to what kind of machine we want to have and use in our daily lives. Lessons learned from previous widely adopted technologies, such as smartphones, indicate that robot technologies could potentially be absorbed into the everyday lives of humans in such a way that it is the human that determines the human-machine interaction. In a similar way to how today's information and communication technologies were initially designed for professional/industrial use, but were soon commercialized for the mass market and then personalized by humans in the course of daily practice, the use of social robots is now facing the same revolution of 'domestication.' In the context of this transformation, which involves the profound embedding of robots in everyday life, the 'human' aspect of social robots will play a major part. This book sheds new light on this highly topical issue, one of the central subjects that will be taught and studied at universities worldwide and that will be discussed widely, publicly and repeatedly in the near future.

*The Happiest Baby on the Block* Harvey Karp, M.D., 2008-11-19 Perfect for expecting parents who want to provide a soothing home for the newest member of their family, *The Happiest Baby on the Block*, the national bestseller by respected pediatrician and child development expert Dr. Harvey Karp, is a revolutionary method for calming a crying infant and promoting healthy sleep from day one. In perhaps the most important parenting book of the decade, Dr. Harvey Karp reveals an extraordinary treasure sought by parents for centuries --an automatic "off-switch" for their baby's crying. No wonder pediatricians across the country are

praising him and thousands of Los Angeles parents, from working moms to superstars like Madonna and Pierce Brosnan, have turned to him to learn the secrets for making babies happy. Never again will parents have to stand by helpless and frazzled while their poor baby cries and cries. Dr. Karp has found there IS a remedy for colic. "I share with parents techniques known only to the most gifted baby soothers throughout history ...and I explain exactly how they work." In a innovative and thought-provoking reevaluation of early infancy, Dr. Karp blends modern science and ancient wisdom to prove that newborns are not fully ready for the world when they are born. Through his research and experience, he has developed four basic principles that are crucial for understanding babies as well as improving their sleep and soothing their senses:

- The Missing Fourth Trimester: as odd as it may sound, one of the main reasons babies cry is because they are born three months too soon.
- The Calming Reflex: the automatic reset switch to stop crying of any baby in the first few months of life.
- The 5 "S's": the simple steps (swaddling, side/stomach position, shushing, swinging and sucking) that trigger the calming reflex. For centuries, parents have tried these methods only to fail because, as with a knee reflex, the calming reflex only works when it is triggered in precisely the right way. Unlike other books that merely list these techniques Dr. Karp teaches parents exactly how to do them, to guide cranky infants to calm and easy babies to serenity in minutes...and help them sleep longer too.
- The Cuddle Cure: the perfect mix the 5 "S's" that can soothe even the most colicky of infants.

In the book, Dr. Karp also explains: What is colic? Why do most babies get much more upset in the evening? How can a parent calm a baby--in mere minutes? Can babies be spoiled? When should a parent of a crying baby call the doctor? How can a parent get their baby to sleep a few hours longer? Even the most loving moms and dads sometimes feel pushed to the breaking point by their infant's persistent cries. Coming to the rescue, however, Dr. Karp places in the hands of

parents, grandparents, and all childcare givers the tools they need to be able to calm their babies almost as easily as...turning off a light. From the Hardcover edition.

*Creator Culture* Stuart Cunningham, David Craig, 2021-06-22  
Explores new perspectives on social media entertainment There is a new class of cultural producers—YouTube vloggers, Twitch gameplayers, Instagram influencers, TikTokers, Chinese wanghong, and others—who are part of a rapidly emerging and highly disruptive industry of monetized “user-generated” content. As this new wave of native social media entrepreneurs emerge, so do new formations of culture and the ways they are studied. In this volume, contributors draw on scholarship in media and communication studies, science and technology studies, and social media, Internet, and platform studies, in order to define this new field of study and the emergence of creator culture. *Creator Culture* introduces readers to new paradigms of social media entertainment from critical perspectives, demonstrating both relations to and differentiations from the well-established media forms and institutions traditionally within the scope of media studies. This volume does not seek to impose a uniform perspective; rather, the goal is to stimulate in-depth, globally-focused engagement with this burgeoning industry and establish a dynamic research agenda for scholars, teachers, and students, as well as creators and professionals across the media, communication, creative, and social media industries. Contributors include: Jean Burgess, Zoë Glatt, Sarah Banet-Weiser, Brent Luvaas, Carlos A. Scolari, Damián Fraticelli, José M. Tomasena,
