Mental Disorder and Crime Sheilagh Hodgins, 1992-12-29 Contributors to this volume present and discuss new data which suggest that major mental disorder substantially increases the risk of violent crime. These findings come at a crucial time, since those who suffer from mental disorders are increasingly living in the community, rather than in institutions. The book describes the magnitude and complexity of the problem and offers hope that humane, effective intervention can prevent violent crime being committed by the seriously mentally disordered.

Born a Crime Trevor Noah, 2016-11-15 #1 NEW YORK TIMES BESTSELLER • More

than one million copies sold! A “brilliant” (Lupita Nyong’o, Time), “poignant” (Entertainment Weekly), “soul-nourishing” (USA Today) memoir about coming of age during the twilight of apartheid “Noah’s childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa’s history that must never be forgotten.”—Esquire Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Time, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah’s unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents’ indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa’s tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man’s relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother’s unconventional, unconditional love.

Comparative Archaeologies Ludomir R Lozny, 2011-04-06 Archaeology, as with all of the social sciences, has always been characterized by competing theoretical propositions based on diverse bodies of locally acquired data. In order to fulfill local, regional expectations, different goals have been assigned to the practitioners of Archaeology in different regions. These goals might be entrenched in local politics, or social expectations behind cultural heritage research. This comprehensive book explores regional archaeologies from a sociological perspective—to identify and explain regional differences in archaeological practice, as well as their existing similarities. This work covers not only the currently-dominant Anglo-American archaeological paradigm, but also Latin America, Western and Eastern Europe, Asia, and Africa, all of which have developed their own unique archaeological traditions. The contributions in this work cover these alternative archaeologies, in the context of their own geographical, political, and socio-economic settings, as well as the context of the currently accepted mainstream approaches.

The Challenge of Crime in a Free Society United States. President's Commission on Law Enforcement and Administration of Justice, 1967 This report of the President's Commission on Law Enforcement and Administration of Justice -- established by President Lyndon Johnson on July 23, 1965 -- addresses the causes of crime and delinquency and recommends how to prevent crime and delinquency and improve law enforcement and the administration of criminal justice. In developing its findings and recommendations, the Commission held three national conferences, conducted five national surveys, held hundreds of meetings, and interviewed tens of thousands of individuals. Separate chapters of this report discuss crime in America, juvenile delinquency, the police, the courts, corrections, organized crime, narcotics and drug abuse, drunkenness offenses, gun control, science and technology, and research as an instrument for reform. Significant data were generated by the Commission's National Survey of Criminal Victims, the first of its kind conducted on such a scope. The survey found that not only do Americans experience far more crime than they report to the police, but they talk about crime and the reports of crime engender such fear among citizens that the basic quality of life of many Americans has eroded. The core conclusion of the Commission, however, is that a significant reduction in crime can be achieved if the Commission's recommendations (some 200) are implemented. The recommendations call for a cooperative attack on crime by the Federal Government, the States, the counties, the cities, civic organizations, religious institutions, business groups, and individual citizens. They propose basic changes in the operations of police, schools, prosecutors, employment agencies, defenders, social workers, prisons, housing authorities, and probation and parole officers.

Juvenile Crime, Juvenile Justice Institute of Medicine, National Research Council, Commission on Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Law and Justice, Panel on Juvenile Crime: Prevention, Treatment, and Control, 2001-06-05 Even though youth crime rates have fallen since the mid-1990s, public fear and political rhetoric over the issue have heightened. The Columbine shootings and other sensational incidents add to the furor. Often overlooked are the underlying problems of child poverty, social disadvantage, and the pitfalls inherent to adolescent decisionmaking that contribute to youth crime. From a policy standpoint, adolescent offenders are caught in the crossfire between nurturance of youth and punishment of criminals, between rehabilitation and get tough pronouncements. In the midst of this emotional debate, the National Research Council's Panel on Juvenile Crime steps forward with an authoritative review of the best available data and analysis. *Juvenile Crime, Juvenile Justice* presents recommendations for addressing the many aspects of America's youth crime problem. This timely release discusses patterns and trends in crimes by children and adolescents--trends revealed by arrest data, victim reports, and other sources; youth crime within general crime; and race and sex disparities. The book explores desistance--the probability that delinquency or criminal activities decrease with age--and evaluates different approaches to predicting future crime rates. Why do young people turn to delinquency?

Juvenile Crime, Juvenile Justice presents what we know and what we urgently need to find out about contributing factors, ranging from prenatal care, differences in temperament, and family influences to the role of peer relationships, the impact of the school policies toward delinquency, and the broader influences of the neighborhood and community. Equally important, this book examines a range of solutions: Prevention and intervention efforts directed to individuals, peer groups, and families, as well as day care-, school- and community-based initiatives. Intervention within the juvenile justice system. Role of the police. Processing and detention of youth offenders. Transferring youths to the adult judicial system. Residential placement of juveniles. The book includes background on the American juvenile court system, useful comparisons with the juvenile justice systems of other nations, and other important information for assessing this problem.

The Economics of Crime Rafael Di Tella,Sebastian Edwards,Ernesto Schargrotsky,2010-08-02 Crime rates in Latin America are among the highest in the world, creating climates of fear and lawlessness in several countries. Despite this situation, there has been a lack of systematic effort to study crime in the region or the effectiveness of policies designed to tackle it. The Economics of Crime is a powerful corrective to this academic blind spot and makes an important contribution to the current debate on causes and solutions by applying lessons learned from recent developments in the economics of crime. The Economics of Crime addresses a variety of topics, including the impact of kidnappings on investment, mandatory arrest laws, education in prisons, and the relationship between poverty and crime. Utilizing research from within and without Latin America, this book illustrates the broad range of approaches that have been efficacious in studying crime in both developing and developed nations. The Economics of Crime is a vital text for researchers, policymakers, and students of both crime and of Latin American economic policy.
