The Small Arms Trade Matthew Schroeder,Dan Smith,Rachel Stohl,2012-12-01 Small Arms are responsible for over half a million deaths each year. Despite this terrifying statistic, millions of guns flow into the streets of the world each year. It is a multi-billion dollar industry, and one which is barely regulated. From AK-47s to M16 rifles; from Terrorist-owned shoulder-fired missiles to child soldiers, this enlightening guide reveals the disturbing reality behind the murky underworld of international arms trading. Explaining how deals can often operate on the edge of legality, and listing the world's main players, it goes on to ask how the exchange of small arms can be tightened in the future. Full of insight and anticipating the danger of ever lighter and more powerful weapons, this is required reading for anyone who wishes to understand the world today and one of the key threats to development, prosperity and international peace.

So Not Happening Jenny B. Jones,2009-05-04 New York's social darling just woke up in a nightmare: Oklahoma. Problem is, it's right where God wants her. Bella Kirkwood had it all: A-list friends at her prestigious private school, Broadway in her backyard, and Daddy's MasterCard in her wallet. Then her father, a plastic surgeon to the stars, decided to trade her mother in for a newer model. When Bella's mom falls in love with a man she met on the Internet--a factory worker with two bratty sons--Bella has to pack up and move in with her new family in Truman, Oklahoma. On a farm no less! Forced to trade her uber-trendy NYC lifestyle for down-home charm, Bella feels like a pair of Rock & Republic jeans in a sea of Wranglers. At least some of the people in her new high school are pretty cool. Especially the hunky football player who invites her to lunch. And maybe even the annoying--but kinda hot--editor of the school newspaper. But before long, Bella smells something rotten in the town of Truman, and it's not just the cow pasture. With her savvy reporter's instincts, she is determined to find the story behind all the secrets. How can a girl go on when her charmed life is gone and God appears to be giving her the total smackdown?

The Sterling Submachine Gun Matthew Moss,2018-11-29 Designed by a motorcycle racer turned small-arms engineer, George Patchett, the submachine gun that eventually became known as the Sterling was developed during World War II. Some suggest it first saw action during Operation Infatuate with No. 4 Commando, before becoming fully adopted by the British Army in 1953 as the Sterling Machine Carbine (L2A1). It was centre stage for many of Britain's post-colonial conflicts from Malaya to Kenya and from Yemen to Northern Ireland. The silenced L34A1 Sterling-Patchett entered service in 1966 and first saw action deep in the jungles of Vietnam in the hands of the elite special forces of Australia, New Zealand and the United States during prisoner snatches and reconnaissance patrols. Employing first-hand accounts and painstaking technical analysis, this engaging account features carefully selected archive photography and specially commissioned colour artwork depicting the submachine gun that armed British and other forces for nearly 60 years.

Minimanual of the Urban Guerrilla Carlos Marighella,2021-03-09 Minimanual of the Urban Guerrilla is a call to action, no matter how small. It is a small book which gives advice on how to overthrow an authoritarian regime, aiming at revolution. Minimanual was written to be concise and to describe the ways for successful revolution. This book has been fought over to keep in print time and time again after being banned in multiple countries, and while there are a few copies consistently recurring in print today, we wish to spread this important revolutionary text further. Eliminating its copyright. Do not let this minimanual be an isolated event, share it, keep it in your pocket to read, and spread it. If you have the means, print it from home as well from our zine library.

No bright spandex, no pulp machismo. In the face of a world on fire, ordinary men and women emerge who possess the Talents their times demand -- but who are still as vulnerable, and ultimately as expendable, as ordinary troops in the foxholes.
