Jugaad Time Amit S. Rai, 2019-02-05 In India, the practice of jugaad—finding workarounds or hacks to solve problems—emerged out of subaltern strategies of negotiating poverty, discrimination, and violence but is now celebrated in management literature as a disruptive innovation. In *Jugaad Time* Amit S. Rai explores how jugaad operates within contemporary Indian digital media cultures through the use of the mobile phone. Rai shows that despite being co-opted by capitalism to extract free creative labor from the workforce, jugaad is simultaneously a practice of everyday resistance, as workers and communities employ hacks to oppose corporate, caste, and gender power. Locating the tensions surrounding jugaad—as both premodern and postdigital, innovative and oppressive—Rai maps how jugaad can be used to undermine neoliberal capitalist media ecologies and nationalist politics.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

New Tendencies Armin Medosch, 2016 An account of a major international art movement originating in the former Yugoslavia in the 1960s, which anticipated key aspects of information aesthetics.

Interactive Art and Embodiment Nathaniel Stern, 2013-08-05 What is interactive art? Is this a genre? A medium? An art movement? Must a work be physically active to be classified as such, or do we interact when we sense and make sense? Is a switch-throw or link-click enough - I do this, and that happens - or must subjects and objects be confused over time? Is interaction multiple in its engagements (relational), or a one-to-one reaction (programmed)? Are interactive designs somehow more democratic and individualized than others, or is that merely a commercial strategy to sell products and ideas? This book argues that interactive art frames moving-thinking-feeling as embodiment; the body is addressed as it is formed, and in relation. Interactive installations amplify how the body's inscriptions, meanings, and matters unfold out, while the world's sensations, concepts, and matters enfold in. Interactive artwork creates situations that enhance, disrupt, and alter experience and action in ways that call attention to our varied relationships with and as both structure and matter. Nathaniel Stern's inspirational book, *Interactive Art and Embodiment*, outlines how new media has the ability to intervene in, and challenge, not only the construction of bodies and identities, but also the ongoing and emergent processes of embodiment, as they happen. It includes immersive descriptions of a significant number of interactive artworks and over 40 colour images. The theorists, artists, practitioners and curators discussed in this text include Brian Massumi, Christiane Paul, Sarah Cook, Beryl Graham, Kelli Fuery, Theodore Watson, William Kentridge, Char Davies, Stelarc, Janet Cardiff, Carlo Zanni, Tero Saarinen, Karen Barad, Daniel Rozin, Richard Schechner, Nicole Ridgway, Rebecca Schneider, Annie Sprinkle, Karen Finley, VALIE EXPORT, The Guerrilla Girls, Tegan Bristow, Brian Knap, Anna Munster, Zach Lieberman, Golan Levin, Simon Penny, Camille Utterback, Jean-Luc Nancy, The Millefiore Effect, Nick Crossley, Mathieu Briand, Scott Snibbe, David Rokeby, José Gil, Erin Manning, Rafael Lozano-Hemmer, and Norah Zuniga Shaw

Notes from the Hyena's Belly Nega Mezlekia, 2015-04-07 In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, *Notes from the Hyena's Belly* offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

Helen Chadwick Nicholas James, 2005 Features an interview recorded in 1989, which explores the body-action-photographic works by Helen Chadwick (d.1996), from 'Ego Geometria Sum' to 'Of Mutability', 'Blood Hyphen', 'Lumina', and 'Viral Landscapes'.

Body Drift Arthur Kroker, 2012 As exemplary representatives of a form of critical feminism, the writings of Judith Butler, Katherine Hayles, and Donna Haraway offer entry into the great crises of contemporary society, politics, and culture. Butler leads readers to rethink the boundaries of the human in a time of perpetual war. Hayles turns herself into a writing machine in order to find a dwelling place for the digital humanities within the austere landscape of the culture of the code. Haraway is the one contemporary thinker to have begun the necessary ethical project of creating a new language of potential reconciliation among previously warring species. According to Arthur Kroker, the postmodernism of Judith Butler, the posthumanism of Katherine Hayles, and the companionism of Donna Haraway are possible pathways to the posthuman future that is captured by the specter of body drift. Body drift refers to the fact that individuals no longer inhabit a body, in any meaningful sense of the term, but rather occupy a multiplicity of bodies: gendered, sexualized, laboring, disciplined, imagined, and technologically augmented. Body drift is constituted by the blast of information culture envisioned by artists, communicated by social networking, and signified by its signs. It is lived daily by remixing, resplicing, and redesigning the codes: codes of gender, sexuality, class, ideology, and identity. The writings of Butler, Hayles, and Haraway, Kroker reveals, provide the critical vocabulary and political context for understanding the deep complexities of body drift and challenging the current emphasis on the material body.

Unsettling India Purnima Mankekar, 2015-01-21 In *Unsettling India*, Purnima Mankekar offers a new understanding of the affective and temporal dimensions of how India and "Indianness," as objects of knowledge production and mediation, circulate through transnational public cultures. Based on over a decade of ethnographic fieldwork in New Delhi and the San Francisco Bay Area, Mankekar tracks the sense of unsettlement experienced by her informants in both places, disrupting binary conceptions of homeland and diaspora, and the national and transnational. She examines Bollywood films, Hindi TV shows, advertisements, and such commodities as Indian groceries as interconnected nodes in the circulation of transnational public cultures that continually reconfigure affective connections to India and what it means to be Indian, both within the country and outside. Drawing on media and cultural studies, feminist anthropology, and Asian/Asian American studies, this book deploys unsettlement as an analytic to trace modes of belonging and not-belonging.

Digital Delirium Arthur Kroker, Marilouise Kroker, 1997-05-15 *Digital Delirium* is a manifest against the right-wing politics of cyberlibertarianism and for rewiring the question of ethics to digital reality. Bringing together the most creative minds of the digital generation, it explores what is lost and what is gained by being digital.

Future Tense Robert Hewison, 1990 Focusing on the current attitudes to art, architecture and design, the author sets out to indicate ways in which contemporary artists may contribute to a critical culture of the nineties, in place of the philosophical stagnation of the current decade.

Critical Digital Studies Arthur Kroker, Marilouise Kroker, 2013-01-01 An indispensable resource for instructors and students in digital studies programs, *Critical Digital Studies* is a comprehensive, creative, and fascinating look at a digital culture that is struggling to be born, survive, and flourish.--Publisher description.

Cultural Capital Robert Hewison, 2014-11-11 Britain began the twenty-first century convinced

of its creativity. Throughout the New Labour era, the visual and performing arts, museums and galleries, were ceaselessly promoted as a stimulus to national economic revival, a post-industrial revolution where spending on culture would solve everything, from national decline to crime. Tony Blair heralded it a “golden age.” Yet despite huge investment, the audience for the arts remained a privileged minority. So what went wrong? In *Cultural Capital*, leading historian Robert Hewison gives an in-depth account of how creative Britain lost its way. From Cool Britannia and the Millennium Dome to the Olympics and beyond, he shows how culture became a commodity, and how target-obsessed managerialism stifled creativity. In response to the failures of New Labour and the austerity measures of the Coalition government, Hewison argues for a new relationship between politics and the arts.

Are We All Addicts Now? Vanessa Bartlett, Henrietta Bowden-Jones, 2017 *Are We All Addicts Now?* is an artist-led enquiry by Katriona Beales into digital hyper-connectivity and the normalization of addictive behaviors through our everyday interactions with digital devices. It includes artistic works from Katriona Beales and Fiona MacDonald alongside essays from contributors in the fields of anthropology, digital culture, psychology and philosophy.

Leadership for a Better World NCLP (National Clearinghouse for Leadership Programs), 2016-11-14 The essential guide to the theory and application of the Social Change Model Leadership for a Better World provides an approachable introduction to the Social Change Model of Leadership Development (SCM), giving students a real-world context through which to explore the seven C's of leadership for social change as well as approaches to socially responsible leadership. From individual, group, and community values through the mechanisms of societal change itself, this book provides fundamental coverage of this increasingly vital topic. Action items, reflection, and discussion questions throughout encourage students to think about how these concepts apply in their own lives. The Facilitator's Guide includes a wealth of activities, assignments, discussions, and supplementary resources to enrich the learning experience whether in class or in the co-curriculum. This new second edition includes student self-assessment rubrics for each element of the model and new discussion on the critical roles of leadership self-efficacy, social perspective, and social justice perspectives. Content is enriched with research on how this approach to leadership is developed, and two new chapters situate the model in a broader understanding of leadership and in applications of the model. The Social Change Model is the most widely-used leadership model for college students, and has shaped college leadership curricula at schools throughout the U.S. and other countries including a translation in Chinese and Japanese. This book provides a comprehensive exploration of the model, with a practical, relevant approach to real-world issues. Explore the many facets of social change and leadership Navigate group dynamics surrounding controversy, collaboration, and purpose Discover the meaning of citizenship and your commitment to the greater good Become an agent of change through one of the many routes to a common goal The SCM is backed by 15 years of research, and continues to be informed by ongoing investigation into the interventions and environments that create positive leadership development outcomes. Leadership for a Better World provides a thorough, well-rounded tour of the Social Change Model, with guidance on application to real-world issues. Please note that *The Social Change Model: Facilitating Leadership Development* (978-1-119-24243-7) is intended to be used as a Facilitator's Guide to *Leadership for a Better World*, 2nd Edition in seminars, workshops, and college classrooms. You'll find that, while each book can be used on its own, the content in both is also designed for use together. A link to the home page of The Social Change Model can be found below under Related Titles.

The Return of the Mother Andrew Harvey, 2013-08-20 Adapted from a series of lectures on the historical basis and current resurgence of the sacred feminine, given by Andrew Harvey at the California Institute of Integral Studies in Spring 1994, *The Return of the Mother* is a profound journey into the heart of the Divine Mother. In this comprehensive and groundbreaking work, mystical scholar Andrew Harvey unearths traces of the sacred feminine in major world religions—Hinduism, Islam (Sufism), Buddhism, Taoism, and Christianity—and in aboriginal and

indigenous wisdom traditions. Harvey presents a scathing critique of the patriarchal distortions in religious history and doctrine that have obscured full knowledge of the Divine Mother, and shows how to reintegrate this vital aspect into the spiritual consciousness of humankind. *The Return of the Mother* offers a radical new perspective, balancing the historical overemphasis on transcendence by honoring the immanence of the divine in passionate engagement in the world. Only by cultivating a direct, respectful relationship with the transformative power of the sacred feminine can we alter our disastrous attitude of dissociation from nature, the body, sexuality, and the details of human life, and generate the energy and compassion needed to reverse the course of destruction we have set the planet—and all of life—hurtling toward. In lively question-and-answer sections, Harvey further illuminates these vital issues and takes a strong stand against our dependence on “gurus” and “masters,” proposing instead an egalitarian model of spiritual community based on intimate groups of mutually supportive guides and friends. *The Return of the Mother* is an eloquent and passionate call for all of us to rediscover and reclaim an authentic and empowering relationship to the divine, and recreate a sacred life-in-the-world.

Haiti Ron Haviv, Simon Winchester, 2010-06 A unique, arresting and versatile document of the traumatic earthquake which hit Haiti in 2010 and its aftermath. Encased in a cardboard box, the project comprises 16 unbound posters and a map page which draws attention to the epicentre and its rippling impact on the population of the island. The unique format allows the viewer to absorb each page individually or to hang the entire project. The visual testimony to the events of the first days after the event are provided by award-winning photographer Ron Haviv and the essay by esteemed writer Simon Winchester.

The Joy of Revolution Ken Knabb, 2021-01-30 *The Joy of Revolution* is a short work by Ken Knabb originally published in 1997 in *Public Secrets: Collected Skirmishes of Ken Knabb*. *The Joy of Revolution* traverses many topics, from the conceptions of utopia to May 1968 to radical film theory to ecology. The book begins with an overview of the failure of Bolshevism and reformism, it examines the pros and cons of a wide range of radical tactics, then concludes with some speculations on what a liberated society might be like.

Technology and the Canadian Mind Arthur Kroker, 1984 *The Canadian discourse - Technological dependency: George Grant as the Nietzsche of the New World - Technological humanism : the processed World of Marshall McLuhan - Technological realism : Harold Innis' empire of communications.*
