Papertoy Monsters Brian Castleforte, 2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

7" Kara Becca Hillburn, 2014 Beneath an old porch. Up in a forgotten attic. In a dusty corner of a basement. Lilliputians are tiny people who

occupy the in-between spaces of our world. Sometimes, if you're careful, you can catch a glimpse of one.⁷ Kara is a suburban fantasy comic aimed at young girls. Inspired by books such as *The Borrowers*, *The Littles*, and *Gulliver's Travels*, ⁷ Kara follows the adventures of the 11 year old Lilliputian Kara. Kara lives with her parents in an old doll house that's been hidden away in the back of a neglected shed. Isolated her entire life, she has few Lilliputian friends her own age, and even less experience with the outside world. Everything she knows has been learned first hand or has been taught to her by her parents. Her life changes drastically when a human family moves into the house her family lives near. Will Kara make a new friend? Or is there something darker, possibly more dangerous in store for her?⁷ Kara is an ongoing watercolor children's comic written and illustrated by Becca Hillburn. Collected in this first volume are the first four chapters of the main comic, a bonus story featuring Kara, and a selection of concept art. Full color, 112 pages of content, 71 pages of comic.

Jack the Ripper: Letters from Hell Stewart P Evans, Keith Skinner, 1997-02-20 The name 'Jack the Ripper' is instantly recognised throughout the world, yet many people probably don't know that the famous nickname first appeared in a letter or that this was where the whole legend of Jack the Ripper really began. This title poses a controversial question: was 'Jack the Ripper' merely a press invention?

The Percy Jackson and the Olympians, Book Three: Titan's Curse Rick Riordan, 2007-05 In this third

book of the acclaimed series, Percy and his friends are escorting two new half-bloods safely to camp when they are intercepted by a mantichore and learn that the goddess Artemis has been kidnapped.

Beyond Fear Bruce Schneier,2006-05-10 Many of us, especially since 9/11, have become personally concerned about issues of security, and this is no surprise. Security is near the top of government and corporate agendas around the globe. Security-related stories appear on the front page everyday. How well though, do any of us truly understand what achieving real security involves? In *Beyond Fear*, Bruce Schneier invites us to take a critical look at not just the threats to our security, but the ways in which we're encouraged to think about security by law enforcement agencies, businesses of all shapes and sizes, and our national governments and militaries. Schneier believes we all can and should be better security consumers, and that the trade-offs we make in the name of security - in terms of cash outlays, taxes,

inconvenience, and diminished freedoms - should be part of an ongoing negotiation in our personal, professional, and civic lives, and the subject of an open and informed national discussion. With a well-deserved reputation for original and sometimes iconoclastic thought, Schneier has a lot to say that is provocative, counter-intuitive, and just plain good sense. He explains in detail, for example, why we need to design security systems that don't just work well, but fail well, and why secrecy on the part of government often undermines security. He also believes, for instance, that national ID cards are an exceptionally bad idea: technically unsound, and even destructive of security. And, contrary to a lot of current nay-sayers, he thinks online shopping is fundamentally safe, and that many of the new airline security measure (though by no means all) are actually quite effective. A skeptic of much that's promised by highly touted technologies like biometrics, Schneier is also a refreshingly positive, problem-solving force in the often self-dramatizing and fear-mongering world of security pundits. Schneier helps the reader to understand the issues at stake, and how to best come to one's own conclusions, including the vast infrastructure we already have in place, and the vaster systems--some useful, others useless or worse--that we're being asked to submit to and pay for. Bruce Schneier is the author of seven books, including *Applied Cryptography* (which *Wired* called the one book the National Security Agency wanted never to be published) and *Secrets and Lies* (described in *Fortune* as startlingly lively...[a] jewel box of

little surprises you can actually use.)). He is also Founder and Chief Technology Officer of Counterpane Internet Security, Inc., and publishes Crypto-Gram, one of the most widely read newsletters in the field of online security.
